Quincy Deaths Less Than 14 Per 1000 There has been some question in the Alabama.

The returns filed in the City Clerk's office at City Hall show that the total number of deaths recorded in Quincy during the year 1905 were 433, an increase of 42 over the year 1904. Considering that Quincy is growing very rapidly the increase is not a large one. These figures however do not mean that all of the parties were residents of pass through all right. Quincy or that they passed away in this city. A consultation of the records show of the total number, 408 were residents of Quincy. That 389 died in were buried in Quincy.

The oldest person to pass away was Mary Heffernan whose age is given as 95 years, 6 months and 15 days. Other persons over 80 years of age were as fol-

Sarah H. Anspland 80 years, 10 months and 21 days. Francis Brown 80 years, 1 month and

24 days. Margaret Powell 80 years.

Among the prominent people to pass away during the year were: Ex-Repre-All of the latest styles of Frames and Leuses sentative Thaddeus H. Newcomb, who died Jan. 16; Dr. T. F. Padula, who died Feb. 9; Clerk of the City Council Christopher A. Spear, March 14; Ex-Councilman Alexander W. Thompson, April 25; Ex-Councilman Joseph C. Morse, July 4; John T. Hayward, Sept. 2; Noah A. Glover, Sept. 11; Dr. Joseph M. Sheaban, Sept. 21; Capt. Clement P. Jayne, Oct. 24; John Hall, Oct. 27; and Henry H. Faxon, Nov. 14.

The following table gives the number of males and females to die each month in the year with the total for the month compared with the corresponding month of the year 1904.

Month. Ma	iles.	Females.	Total.	1904.

There being 389 deaths in the city, and the census showing a population of 28,076, the death rate was less than 14 per 1000.

Just what it would cost is at present an unknown quantity,

The idea is not a new one, for it was brought to the attention of the City Council some few years ago. At that time it was abandoned on account of the cost. It was then said that in order to be properly done that the face of the dial should be of glass. This it will be readily seen means quite an expense. On the other hand there are those

that believe that a scheme can be devised by which the dials can be illuminated without going to the expense of putting in glass dials. The scheme advocated is to place electric lights over the dials on the outside and by means of reflectors throw the light onto the

Whether this can be done or not remains to be seen. People who claim to have given the subject a study maintain that owing to the large dials it would be impossible to place lights on the outside in such a manner that they would light the whole of the face. With the many needs the city has at present for its money the sentiment of the public at large is that it would be an unwarranted expense to illuminate the dials if it was necessary to use glass dials in place of those now in use.

Interests Moran With Charges Against Secretary Proctor

The district attorney of Boston seems. to be extending his territory into Norfolk county, a Montclair man having preferred charges against Robert G. Proctor, a summer resident of Houghs Neck and secretary to Senator Lodge.

The Journal today says: John B. Moran district attorney of Suffolk county, while at the State House yesterday, recited with considerable dramatic fervor his distress through being shorthanded and John G. Bestgen of Quincy, who claims he has paid certain sums of money to the Republican State Committee and also Robert G. Proctor for campaigns, and with an idea that ultimately this money would be credited toward his

ambition to be a German consul. Over six months ago The Journal took t up and interviewed Mr. Proctor, who happens to be Senator Lodge's secretary at Washington, on the whole affair. At that time Mr. Proctor gave a full and complete denial of the matter. While he admits that contributions were received, he says they were turned over as all contributions should be to the Republican State Committee.

It is argued by those who are cognizant of naval affairs that the dictment, charged with giving the re-United States as one of the leading powers in the world and fast approaching the goal of being the leading power, must take a stand so far forth as being prepared for any emergency and be prepared at any moment to maintain her night. The former had her bows position. To this end she must be prepared with the most powerful battleships and everything up-to-date and ready at all times to defend herself from foreign powers. This it is argued is the only course of safety, that other nations may constantly be aware that the United States desires peace, and will do everything within its power to maintain it; but will take good care that no weakness on the part of preparation, may be taken advantage of to her injury. Or in other words it is far at Blidah, in Algeria. better to be ready for any emergency than to run the risk of defeat. It is indeed a momentous question and is receiving much attention among the representative men of the nation .- Glouces-

A WICKED APOSTLE

Zionists Want Nothing to Do With "Elijah III"

MANY SERIOUS CHARGES

Hypocrisy, Tyranny, Injustice and Polygamous Teachings Among Them -- New Prophet Thousands of others have. Reigns Over Zion City

Chicago, April 3 .- Formal announce-

ment of the overthrow of John Alexander Dowie was made last night by Overseer Speicher, who presided over a meeting of 500 members of the Christian Catholic church in Zion in the tabernacle at Zion City. The meeting opened with the quotation by various church dignitaries of passages from the Bible expressive of the sentiment which has grown up against the self-styled Elijah III and First Apostle John Alexander Dowie.

The former leader is suspended from membership in the church he founded, shorn of his temporal possessions as far as they are located in Zion City, the home of his church, and warned to accept the situation quietly lest worse things befall him.

The active revolt against the leadership of Dowie was foreshadowed Sunday, when Overseer Voliva, who had been placed by Dowie in charge of the church while he sought health in Jamaica and Mexico, announced that he would no longer accept the orders of Dowie, who had, he declared, grossly mismanaged the affairs of the church. The members of the church, including the wife and son of Dowie, agreed to stand with him.

The first move looking to his overthrow was made yesterday by Voliva. who holds a power of attorney from Dowle. In company with several other officers of the church, Voliva hastened to Waukegan, the county seat of Lake county, in which Zion City is situated. and filed a warranty deed transferring to Alexander Granger all the real estate held by Dowie in Zion City. He also executed a bill of sale to Deacon Granger, putting him in possession of all the personal property of Dowle, including his horses and carriages, books, and even his bed. Later in the day Granger conveyed these to Voliva and at nightfall the overseer appointed by Dowle had not only succeeded him as the head of the church, but was the holder of all of his property as well. The following message was then sent to Dowle, informing him of the change The WEEKS-HILL Pharmacy, in the situation:

n the situation: "Dowle, Ocotlan, Jalisco, Mex. "Telegram received here and Chi-

Further interference will precipitate complete exposure, rebellion, legal proceedings. Your statement of stupendously magnificent financial outlook is extremely foolish in view of thousands suffering through your shameful mismanage ment. Zion and creditors will be pro-

ected at all costs." Regarding the polygamous teachings ientioned in the message to Dowie Overseer Voliva declared that he would ssue a statement regarding them later, when Dowie had been given an opporunity for reply. He said, however, that the teachings had not been public,

out were of a private character. All of the men now prominent in the nanagement of the affairs of the Zion City church, with the exception of Voiva, are men with whom Dowie has quarreled in the past. He dismissed Speicher from all of his appointments in the church, and compelled him to

Mine Workers Have Obeyed the Suspension Order

MEETING AT NEW YORK

Operators May Talk Plainly Regard ng the "Extraordinary" Action of Employes -- Retail Coal Dealers Not Acting Fairly

New York, April 3 .- The day of the second meeting of the committees representing the anthracite mine workers and their employers finds the situation, of his boyhood and asked for fifteen been tested and the last laggard cruso far as the hard coal fields are conbetween the contending forces and which have been made public.

Today's meeting between the sub-

committee of the miners and the operators is expected to be of short duration. It is believed that nothing will be definitely agreed upon. The program, as believed to be tentatively outlined by the operators, is to renew the counter proposition made to the miners early in March-that is, the continuation for another term of three years of the award of the anthracite strike commission. The operators, it is understood, will not make any extended argument, but will content themselves with calling attention to the reasons they set forth in their reply to the miners' general demands. The employers, however, expect the union leaders to renew

their original demands. The conciliatory spirit shown in the first meeting of the two committees is not expected to obtain today. The operators are indignant over the action of the miners' union in forcing a suspension of operations, and it is not unlikely that the miners will be told that their action was "extraordinary," as President Baer has already told Mitchof the mine workers, in defending their course, say the action of the Shamokin ittee was justified, that no agreement or contract between the operators and the men existed after midnight Saturday.

The presidents of the anthracite coalcarrying roads have devoted considerable attention to the action of retail coal dealers in several cities in raising the price of domestic sizes of coal to the consumers. They have received reports that many retailers have advanced prices anywhere from 25 cents to \$1 a ton. The operators some days ago warned the dealers that if they continued the practice their supply of coal will be cut off and fuel will be given to only those dealers who rigidly maintain the regular prices. The practice of advancing prices, however, became so widespread that the operators deemed it necessary to issue a statement to the public showing their posi-

Meantime the general manager's private car had been pasted on the tail end of De Molay Four, and a pusher edging up stuck its nose into the rear vestibule. On the head end Jack Moore and Oyster were backing down on the olive green string with the two smoothest moguls on the division. Bucks and Neighbor had held back everything good all day for De Molay Four down to engines and runners and conductor. Pat Francis carried the punch, and the little chief sat again in the dispatcher's chair for De Molay Four.

And while the lovely women strolled in the cool of the evening and the odor of mountain sweetness and the guard drilled and the band played, the chief knit his brows over his train sheet. It looked now, rearranged, reordered, readjusted and reorganized, as if a Gila monster had crawled over it without wiping his feet, and when De Molay Four began to pull out, with Moore least until Barnes Tracy should presand Oyster on the throttles and old ently kick him out of the seat of honor John Parker in the baggage, where he for the night trick. And More Pay Wanted by Employees of Street Railway

All the efforts and resources of the intertnational amalgamated union of street railway men are now to be devoted to a new wage scale among the employees of the Old Colony and Boston and Northern system.

The men on the lines are now working on a sliding scale starting in at 22 cents per hour and working up to 25 ents per hour.

The new demand, which it is said the Union desires to go into effect May 1, calls for nine bours within eleven hours, and a flat rate of 28 cents per

The decision was reached at the State convention held Monday in Boston.

In order that our citizens who never have had electric lights in the homes or stores may become acquainted with the many advantages of the use, the Quincy Electric Light & Power Company makes this proposition.

To all who make application before April 30th, 1906, and who we had electric lights in the homes or stores may become acquainted with the many advantages of the county and State aforesaid, and that said firm To all who make application before April 30th, 1906, and who will end \$20 or more for wiring and installing wires for at least five outlets, the Company will furnish by meter at regular rates, \$20 worth of electric

urrent free of charge. This concession will go far toward paying the entire cost of wiring. For obvious reasons the Company confines this offer to those whose premises are so situated that building new lines or setting new poles will not be necessary.

Per order of Directors, QUINCY ELECTRIC LIGHT & POWER COMPANY, By H. M. FAXON, Treasurer.

The payment last year of \$37,500.00 and owned by the city, and not by the consumers of water. There is no better reason wby the consumers of water should pay for this plant than that they should pay for the improvements on the High School building. Interest on the water debt, Metropolitan assessments and mantainance should be paid for from water receipts.

If "J. A. R." wishes correct figures and the result of meter systems let him visit any town or city in the Metropolitan district which has adopted this system and he will learn that tax rates have not been raised while water rates have been cut in half. If he will take the trouble to visit City hall, Malden, he will fine a city situated much as we are with 95 per cent. of their services metered and I know that they could not be induced to return to faucet rates. Reconvention of the Hague Conference Is Proposed

There was seasonable objection, however, to such a date, and it was intimated that it might be necessary to defer the convenion until next year.

The matter had been left in large part to the governments of Russia and The Netherlands to adjust, the first named because the proposal for the conference had originated with Emperor Nicholas, and the latter for the reason that the host should be consulted when it concerned a matter of date for the conference.

The fact that they have agreed makes it probable that the other signatory powers to the original Hague convention, which have accepted the invitation to attend the next conference, will agree to the proposed date, although the short period of time available will make it necessary for some attention to the subject recently to do some rapid diplomatic work in order to arrange programs according to their own desires. For it is certain that this proposed Russian program, as conveyed to the state department yesterday by Baron Rosen, will, while not meeting positive objections, at least call forth some projects differing materially in scope and detail from the

BULL MET HIS MATCH

Charge Through Streets Checked by a Former Plainsman

Wakefield, Mass., April 4 .- For the second time within two months a ferocious bull threatened bodily harm to many citizens in the central part of the town, but this time the brute's career was checked and his capture effected James C. Ellis. Having had considerable experience with steers on the western plains, Ellis bravely grabbed the bull's horns just as the animal was There will be a special meeting of all about to charge into a grocery store young men interested in the Galahad and by holding his head to the ground rendered him helpless until assistance arrived.

The bull broke away from a herd late yesterday afternoon in Wakefield square and ran down Main street, pursued by a crowd of men and boys. He charged back once or twice and within a few minutes Main street was in an uproar. People of more timid dispositions hurried into stores and half a

The bull ran several hundred yards down Main street and then turned into Albion, where something attracted him to a grocery store whose door was wide open. As some boys began throwing stones at him he paused to make a charge, and as he did so Ellis jumped at him and seized both horns. The big brute struggled, but Ellis was strong enough to hold his head to the ground and within a few minutes a rope was thrown over his head. The bull which went on the rampage two months ago had to be shot.

To Investigate Mine Disaster

Paris, April 4 .- In the chamber of deputies, M. Basly, president of the Miners' Federation, who is deputy for the department in which the Courrieres mine disaster occurred, questioned the government regarding the catastrophe and in so doing attacked the coal companies. He declared that the fire which caused the explosion and which resulted in the loss of over 1200 lives originated in a heap of rubbish which had accumulated owing to the com panies' negligence. Others made at tacks on the companies and finally the minister of public works announced that the government would rigorously investigate the disaster.

Prohibition That Doesn't Prohibit Kansas City, Kan., April 4 .- Four of the six wards in this city having declared against Mayor Rose's policy of licensing liquor saloons, the mayor sent his resignation to the city council last night and it was unanimously accepted Rose has been at war with the state administration and the temperance peo ple of his city over enforcement of the prohibition law. He has favored licens ing the saloons, and the state has been unable to convict saloonkeepers ar rested for selling Nquor. Rose made his policy an issue in yesterday's election for alderman and was defeated.

Bomb For Rival in Business New York, April 4 .- A barber shop conducted by Pedro Santerio at Brook lyn was wrecked by the explosion of a gas-pipe bomb hurled into the place last night by two men who suddenly appeared at the front door with the mis sile. Pedro and his brother Antonio who were sitting in the shop, were hurled to the floor by the force of the n, but were not seriou and started in pursuit of their assail ants, who were arrested. The barber shop was badly smashed by the explo sion. Business rivalry is said to be the cause of the trouble.

CLAIMS SELF-DEFENSE

D d War Veteran Takes the Life of a Fellow Woodchopper

East Sumner, Me. April 4.-Eugene Bryant, aged 45, was shot and instantly killed in a woodchoppers' camp, which he occupied jointly with Henry W. Farrington, aged 60, near this village. Farrington says that he fired the fatal charge from a shotgun in selfdefense. A revolver was found in one of Bryant's hands when an officer reached the camp. An inquest will be

Nothing is known about the shooting except what Farrington told the officers, as he and Bryant, both of whom were woodchoppers, were alone. Farrington told the officers that they had been drinking and yesterday afternoon became involved in a dispute as to who was "boss" of the camp, which is owned by Farrington's son. Hot words passed and suddenly Bryant threatened to shoot Farrington with a revolver and he discharged his gun. The charge of shot nearly blew off the top of Bryant's head. Farrington then walked to this village and telephoned to Buckfield, requesting that word be sent to Deputy Sheriff Withington. The latter visited the camp and then took Farrington into custody

Farrington is a veteran of the Civil war and married. Bryant was not married. The two men had known each other for years and many times had worked together in the woods. Bryant had been an inmate of the national home for disabled soldiers at Togus until a few weeks ago.

State Committeemen Summoned Boston, April 4 .- At the request of District Attorney Moran, summonses have been issued in the case of the commonwealth against John Doe and others, which is the title under which the case of Robert G. Proctor, private secretary of Senator Lodge, is being considered. Before the legislative committee on counties at the state house Moran had charged that Proctor had misappropriated \$200 given him by John G. Bestgen of this city for the campaign fund. The summonses direct several officers of the Republican state committee to appear before the grand jury tomorrow with the books and accounts of the Republican state committee, showing the records of cammons for Bestgen was also issued.

Fishermen Meet III Luck

Boston, April 4 .- Fishing schooner Jessie Costa of Provincetown was on the way from the fishing grounds to this port when the topping lift of the schooner parted and the mainboom came down on the run. Manuel Davis and Vincent Batista were knocked overboard by the descending spar, and John Ramboda was struck on the head by a block, receiving a fracture of the skull. Davis and Batista were well nigh exhausted when hauled on board the schooner. Ramboda cannot re-

Boston, April 4 .- Business was suspended yesterday afternoon by Foots & French, a banking concern at 27 State street, and an assignment was made. It is one of the older firms in the "street," having been a factor in the market for 40 years. Both Foote and French have been dead for a number of years and of late the business has een managed by Arthur H. Gilbert and George E. Gilbert.

Harvard Will Stick to Football

Cambridge, Mass., April 4 .- The Harvard athletic committee is in favor of playing intercollegiate football at Harvard during the season of 1906. The action of the athletic committee is subject to the approval of the board of overseers and the college corporation before it will become effective, but it is believed that football will be played in the Stadium next fall under the revised rules.

To Help Supervise Exposition Boston, April 4 .- The board of gov-

Washington, April 4 .- A decision to purpose of ascertaining the sentiment of the members of the dominant party in the house on the subject of tariff revision and the election of Representative Weeks to succeed Representative Lovering as a member of the national congressional committee were the results of the meeting of the Republican members of the Massachusetts delegation in Representative Gillett's commit-Lovering, who has represented Massachusetts on the congressional committee for several years, tendered his resignation to the meeting, and Weeks was unanimously selected

to succeed him. The usual disinclination to discuss the proceedings of the meeting is in evidence. Those men who were present realize that the situation that confronts them is not a particularly pleasing one, and they do not see that anything is to be gained by promiscuous talk. The apparent impossibility of securing 50 signatures to call for a caucus was discussed at the meeting, and consideration was also given the question of what a caucus would do if it were to be assembled. It was decided that it would not be practicable or advisable to attempt to bring the matter of revision before the joint caucus of house and senate Republicans today, at which time the reorganization of the congressional committee will be effected.

MRS COOPER'S "LARKS" Related in Court to Show That

She Was Not Afraid of Northy Augusta, Me., April 4.-Her face at times red with anger and embarrassment and again convulsed with laughter, Mrs. Alice F. Cooper, on trial, charged with the murder of Charles D. Northy, Jr., her boyish lover, whom, it is alleged, she shot because jealous of his attention to Miss Marion Carey, sat in the crowded court room and heard her neighbors relate tales of her blueberrying trips with young Northy, when hammocks were carried along and used exclusively by these two; of playing "drop the handkerchief" when kissing was a forfeit, if demanded, and of hanging "May baskets" at night, when elderly ladies in scanty attire rushed from their homes at bedtime conduct an informal canvass for the and chased the neighbors' husbands about in the dark and, catching them,

claimed the forfeit of capture. "You don't know how to lie in a hammock with a woman," one witness testified Mrs. Cooper said, when she told young Northy to "move over," and climbed into the hammock beside him, under the trees in the blueberry patch. Then she pulled his arm under her neck and thus they lay for an hour or more for an afternoon siesta.

Thus does the state meet the claim of the defense that Mrs. Cooper was afraid of Northy.

A HOPELESS DEADLOCK

Operators Make No Formal Reply to the Miners' Arguments Along Old Lines -- An Adjournment For Forty-Eight Hours

New York, April 4 .- The sub-com-

mittees representing the anthracite op-

erators and the mine workers of eastern Pennsylvania held their first joint meeting here, and after nearly a threehour session adjourned until tomorrow afternoon without coming to an agreement. Each side to the controversy has refused to make the slightest con cession and the whole question is appar ently as far from solution as it was be fore the conference began. In the meantime the tieup of the anthracite industry remains complete, without indication that a resumption of mining will occur very soon. Notwithstanding the Washington, April 4 .- Dr. Edward fruitless session and the apparently Everett Hale, chaplain of the senate, hopeless deadlock between the workwas the recipient of many congratula- men and their employers, rumors are tions at the capital upon the occasion still current that a way will be found of his 84th birthday. President Baer, who is chairman of The members of the miners' committee, including President Mitchell, abso-

lutely refused to talk of the conference. Newspaper men had made a request that they be permitted to attend the conference, but it was refused, Baer saying that it would be better not to depart from the rule adopted. Mitchell's argument, it was learned, was along practically the same lines as that contained in his letter to Baer some time ago, in which he gave reasons in a general way. He said the men felt they were entitled to more pay and the betterment of ce"tain conditions and he himself believed they were justified in asking that their situation be improved. The operators did not make a formal reply to Mitchell's remarks, but frequently plied the miners' leader with quesions. What prompted an adjournment for 48 hours was not learned.

After the conference a rumor was current that the question of arbitrating the differences had been discussed, but when President Baer was approached on the matter he said that arbitration Moncton, N. What a head Martin Duffy has, thought young Giddings, and, behold, all the complicated everlasting headwork of the trick and the day and of the West End and its honor was now the doctor. "Get away from the table up to the signature of third eighty at a minute, Martin. It may not be as Rat River. Just third eighty's signature for the Rock Point meeting, and the biggest job ever tackled by a single track road in America, Giddings thought, was done, and well done.

Martin Duffy sprang straight up in once he looked at Giddings, staggering again through the frightful news, then he dropped into the chair, looked wildly around, seized his key like a hunted man, stared at his train sheet, grabbed the order book and listened to Giddings cutting off one hope after another of stopping Special 326. His fingers set mechanically, and he made the Rat River call; but Rat River was silent. With Barnes Tracy tiptoeing in behind on the instinct of trouble and young Giddings shaking like a leaf, the chief called Rat River. Then he called Elcho, asked for Special 326, and Elcho again repeated steadily:

"Special-326-left-here-on-order-79-at-7:55 p. m." Martin Duffy bent before the mes-

whispering to Tracy, dropped on a

stool and covered his face. "Don't cry, Giddings." It was Duffy who spoke, dry and parched his voice. "It's nothing you-could help." He looked around and saw Tracy at his elbow. "Barnes," he said, but he tried twice before his voice would carry. "Barnes-they will meet in the Cinna mon cut. Giddings told you? Bob forgot-forgot my order. Run, Giddings, for Benedict Morgan and Doubleday and Carhart-quick!"

Giddings ran, the Rat River call echoing again down the hall behind him. Rat River was closest to Rock Pointwould get the first news of the wreck.

and Martin Duffy was calling his recreant brother at the River, but the River was silent.

Doubleday and the company surgeon, Dr. Carhart, rushed into the room almost together. Then came with a storm the wrecking boss, Benedict Mor gan. It was only an evil hour that brought Benedict Morgan into the dispatcher's office. Stooped and silent, Martin Duffy, holding the chair, was calling Rat River. Carhart watched him just a moment, then he took Barnes RICKSECKER" on it, you may be certain you Tracy aside and whispered, and, going back, bent over Duffy. The chief pulled himself up.

"Let Tracy take the key," repeated bad as you think."

Duffy, looking into the surgeon's face, put his hand on his arm. "It's the De Molay train, the Special 326, with Bucks' car, double headed. Oh, my God, I can't stop them. Doctor, they will meet!"

Carhart unfastened the fingers on his nose, palming the glass skillfully so arm. "Come away a minute. Let Barnes Tracy couldn't see it even if he Tracy have the key," he urged. Local Brevities About the City

The monthly meeting of the Garrick dramatic club was held with Miss Elizabeth Hubbard, Brooks street Monday evening. The evening's entertainment was in charge of Miss Hubbard and Mr. Earle Boyce. Plays were read and discussed after which a dainty repast was served.

Today is one of the warmest days this year. The temperature at noon was 68 degrees. The weather felt like spring and made one think they would like to drop heavy clothing.

The steam trawler Spray, built in Quincy, landed in Boston on Tuesday with 100,000 pounds haddock, 30,000 pounds codfish; 5,000 pounds flounders. Prices were low.

The commissioners appointed to apportion the cost of the bridge over the Weymouth Fore River will take their case to the Superior court. There was a hearing on Tuesday before the committee on counties of the Legislature.

Quincy High Man Elected in Boston

Among the appointments made on probation by the Boston School Committee at its meeting Tuesday evening was that of Arthur F. Campbell of the Quincy High school, as junior-master of the South Boston High school, from April 9. Mr. Campbell has been one of caretaker of his home while he was the teachers at the Quincy High since away. Sept. 1896, his salary being \$900 per year. The minimum in Boston is \$1,476 and the maximum \$2,916.

JUSTICE QUESTIONED

Natal Affair Will Be a Difficult Matter to Dispose Of

London, April 3 .- The Natal affair has been the subject of stronger party recriminations than any question that has come to the surface in recent years. Newspaper attacks continue on both sides, Conservative organs flinging charges of "Little Englandism" against the government, and Liberal papers, on the other hand, attributing the whole trouble to machinations of the Chamberlain party desiring to discredit the government in the eyes of the country.

Liberal papers, although they admit that the government did the best possible in the difficult circumstances, are not yet satisfied that absolute justice has been done and point out that the governor of Natal himself wished a civil trial for the unfortunate natives.

The Tribune editorially does not hesitate to declare that the British people, including, in the calmer mood induced after reflection, the people of Natal, will look back on this wholesale execution as one of the ugly incidents in British history which national pride buries out of sight and does not teach in its history books for the young.

Expert Robber In Custody

New York, April 3 .- After a pursuit of four weeks by the police of three cities, Thomas J. Wainwright, describing himself as a lawyer of Boston, who is charged with robbing the residence of Dr. Nicholas Pinault of Minneapo lis of valuables to the amount of \$100,-000, was arrested here last night. The police say that Wainwright, who is 28 years of age and apparently a man of excellent education, is known by a dozen aliases and is one of the most accomplished criminals in the country. Pinault had engaged Wainwright as

Adams Academy Defeated by Milton High In First Game

The Adams Academy base ball team had their opening game on Wednesday, with Milton High, well in hand up to the eighth inning and it looked as though their first contest would be a victory, but it proved otherwise.

Adams scored seven runs before Milon caught onto the trick. Then Milton shut them out for five innings and helped themselves to three runs and the score was 7 to 3. Milton nearly tied the score in the eight, and in the ninth turned defeat into victory, by score of

fielding, being credited with only one error. Double plays were made on both

Force Acception of

Reserve

Chapter 108 Would Abolish Special Police

One of the important matters before the City Council this week, of which little more than a passing notice was taken, was the order introduced by Councilman Stone to accept certain sections of Chapter 108 of the Revised Laws.

This act relates to the establishing reserve police force. It provides that a city having a regular force, not exceeding fifteen, shall have a reserve force of not more than five. One member may be added to the reserve force for every additional three permanent men over fifteen.

Appointments to the reserve force are made from the civil service lists and they may be assigned to duty at any time they deem necessary.

If the law is accepted it will be necessary to change the Police ordinance

There will probably be no expense to the city by the establisment of such a force, as the men would only draw pay when on duty. It would give the Chief of Police an efficient force to select men from, as it would practically do away with what is now known as special

At present the number of special police is unlimited and there is more or less rivalry among them to see who shall be given work when extra men are needby promotion from the reserve force.

Section 26. Any city, except Boston, in which the city council, with the approval of the mayor, accepts the proto such rules as the civil service com-

missioners may prescribe. Section 27. The number of members exceed fifteen. If the number of mem- ing at 64 South street. bers of the regular force exceeds fifteen,

Legislators Visit Our Shipyard and Other Industries

The Committee on Harbor and Land of the legislature, who have the matter of the New York, Brockton and Boston canal in hand, were in Quincy this morning on a view. While in Quincy they were the guests of Mayor Thompson who was assisted by the Board of Trade and Citizens Association.

The party arrived in Quincy at 9.49 and were met at the depot by the Mayor. A special car was immediately taken for Quincy Point.

Embarking at Chubbuck street the

party went to the Baker Yacht Basin where the tng Resolute was in waiting. The party boarded the tug, and steamed out toward Peddocks' Island. On the way out Commodore Crane of the Quincy Yacht club pointed out the several points of interest. He also

spoke of the two channels and told the depth of each. He told of the many superior advantages Quincy had as a shipping port and of its superior water privileges.

GOOD AFTERNOON.

The figures go to show that the coal authority as financial manager it will miners have been getting high wages as compared with former years and the operators have been making larger percentages of profit than ever before. Nevertheless the strike has been declared and it is the consumer who must pay the bills while the miner and operator divide the profits.

. There is every reason to believe that those who have looked for canal legislation at this session of Congress are to be disappointed. The opinion grows that the interminable making of testimony is only a part of a consistent newly appointed representative of policy of delay and obstruction. The Dowie who was named on Tuesday Senate is now popularly known as as Voliva's successor in a message sent "The House of detention" and it is by Dowie from Mexico. Drift of Opinion.

One of the clergymen who made the Tucker case a subject of comment, put a puzzling question to the sympathizers. He asked if the State has no right to put a man to death by electrocution where can it get the right to put him to the slow death of life imprisonment? The man put in prison for life cannot live as long as one in freedom, and therefore State prison shortens bis life, or deprives him of it before his appointed time. This is something on which the opponents of capital punishment ought to bestow a little thought. -Lynn Item.

Convinced

It is said that, although the celebrated advocate, Lord Erskine, was sometimes jocular and occasionally a little unfair in his treatment of witnesses, no man was better able than he to make them realize the foolishness or utter irrelevance of their replies with- Belgian coal into their country. out giving offense. At one time a witness obstinately refused to be sworn in the usual manner, but stated that, although he would not "kiss the book," he would "hold up his hand" and swear. Erskine asked him what reason he had for preferring such an eccentric way to the ordinary method.

"It is written in the book of Revelation," replied the obstinate man, "that the angel standing on the sea 'held up

"That is very true," said Erskine, with a smile, "but I can hardly see how that applies to your case. In the first place, you certainly are not an angel, and, in the second place, you cannot tell-you have no means of knowing-how the angel would have sworn if he had stood on dry ground as you

There was no flippancy or irreverence in Erskine's tone, and after a moment's reflection the stubborn witness yielded the point, impressed by the advocate's common sense view of the matter, and took the oath in the usual

THE THREATS BY DOWIE

If Put Into Execution His Prosecution on Charge of Misuse of Funds Will Follow -- Prophe.'s Order to Granger Unheeded

Chicago, April 5.-It has been decided by Overseer Voliva of Zion City that, in view of the announced intended return of John A. Dowie from Mexico, and Dowie's declared intention of making a fight against the action suspending Dowie from office, that the present overseer shall be appointed receiver of the Church of Zion and of all the public properties standing in the name of the church. The courts probably will be asked to name Voliva as receiver within the next few days. It is also asserted by the officers of Zion City that if Dowie returns and dered Miss Ethel Prout at the home of commences legal action against the present officers of the church, or attempts to oust them, they will cause

Deacon Barnes, Dowie's general ounsel, also sent Dowie a telegram refusing to act on Dowie's instructions to cancel Voliva's power of attorney and give the power to Wilhite. Barnes' message contained a threat that the administrative body had documentary evidence of Dowie's mismanagement.

Overseer Voliva and other officials of Zion City called on Deacon Wilhite, the act with them or in behalf of Dowle. He refused positively to say whether or 'not he will endeaver to regain possession of Zion City and Zion church

DEATH WAS UNEXPECTED

Pneumonia Takes Off Leader In the Beef Packing Industry Boston, April 6 .- E. C. Swift of Chi-

cago, a member of the packing firm of Swift & Co., died this morning at the QUINCY MUSIC HALL. Quincy house, where he engaged a suite of rooms about two weeks ago. Swift was seized with pneumonia on March 27 last. He had come to this city from his estate at Beverly Farms in order to be near his friend and business associate, N. E. Hollis of Boston who was undergoing a surgical opera

The day following Swift's seizure by the disease his condition was so alarm ing that six physicians were called i consultation. His illness was diagnosed, and his daughter, Mrs. Clarence Moore of Chicago, was summoned His own physician was summoned also from Chicago and watched by the sick man's bedside until the end came.

Mr. Swift had not been considered to be in a dangerous condition, but yesterday afternoon alarming symp toms made their appearance and it was stated that the patient was in a critica condition. Dr. Johnson was in con stant attendance upon Swift until the end came, shortly after midnight.

Mr. Swift's was traveling in Europe when her husband was stricken. I was the desire of Swift that his wife be spared any alarm, and for that reason the news of his illness was suppressed for a few days. It is believed that Mrs. Swift is now on her way to America.

Mr. Swift was a native of Sandwich this state. He left home when but a lad and with his brother Gustave did much to develop the packing industry. one of the prominent features of his work being the perfecting of the system of refrigerator cars.

trains would meet; knew they could not by any possibility see each other till they whirled together on the curve of the Cinnamon cut or on the trestle west of it, and they waited only for the breaking of the suspense that settled heavily over them.

Ten, twenty, thirty, forty minutes went, with Martin Duffy at intervals vainly calling. Then, as the crack opens on the field of ice, as the snow breaks in the mountain slide, as the sea gives up at last its dead, the sounder spoke-Rat River made the dispatcher's call. And Martin Duffy, staring at the copper coil, pushed himself up in his chair like a man that chokes, caught smothering at his neck, and slipped wriggling to the floor.

Carbart caught him up, but Duffy's eyes stared meaningless past him. Rat River was calling him, but Martin Duffy was past the taking. Like the man next at the gun, Barnes Tracy sprang into the chair with the I, I, D. The surgeon, Giddings helping, dragged Duffy to the lounge in Callahan's room -his chief was more to Giddings then than the fate of Special 326. But soon confused voices began to ring from where men were crowding around the dispatchers' table. They echoed in to where the doctors worked over the raving chief. And young Giddings, helping, began, too, to hear strange things from the other room.

"The moon?"

"The moon!" "What?"

Barnes Tracy was trying to make himself heard: "The moon! Moon! That's English,

ain't it? Moon." "Who's talking at Rat River?" demanded Benedict Morgan hoarsely.

"Chick Neale, conductor of third eighty. Their train is back at Rat River. God bless that man," stammered Barnes Tracy, wiping his forehead feverishly. "He's an old operator. He says Bob Duffy is missing. Tell Martin, quick, there isn't any wreck-

"What does Neale say?" cried Dou-

bleday, with an explosion Tracy thought he had told them, but he hadn't. "He says his engineer, Abe Monsoon, was scared by the moon rising just as they cleared Kennel Butte," explained Tracy unsteadily. "He took it for the headlight of Special 326 and jumped from his engine. The fireman backed the train to Rat River. See?" While Tracy talked, Mallers at the key was getting it all. "Look here,"

he exclaimed. "did you ever hear of such a mixup in your life? The head brakeman of the freight was in the cab, Neale says. He and the engineer were talking about the last conclave train, wondering where they were going to meet it, when the brakeman spied the moon coming up around Kennel Butte curve. 'There's the 326 special!' he yelled and lighted out the gangway. Monsoon reversed and jumped off after him so quick he knocked the fireman over in the coal. When the fireman got up—he hadn't heard a with "Our Trust Is In God" engraved word of it all-he couldn't see anything ahead but the moon. So he stops the train and backs up for the two guys. When Neale and he picked them up they ran right back to Rat River for orders. They never got to Rock Point at all-why, they never got two miles east of Rat River."

"And where's Special 326?" cried Doubleday.

"At Rock Point, you loco. She must be there and waiting yet for third Bears the eighty. The stopping of the freight meeting point, don't you see, and there she is, sweating, yet. Should Governor Pardon Tucker?

Editors of Daily Ledger:

The Tucker petition forms, and lett r accompanying them addressed to the people of Massachusetts, contain no reasons tending to show upon what grounds the commutation of the death sentence is requested. Therefore a serious responsibity confronts every thoughtful signer.

If innocence is the alleged reason, then the petition is a formal criticism of the courts, and when presented to the Chief Executive it becomes a prayer for retrial by him. It also becomes a request that the Governor and Council overrule the findings and decrees of the udicial co-ordinate branch of govern-

This the Governor cannot do, though he has power to pardon, without violating his oath to support the constitution, which says in article XXX "the executive shall never exercise the legislative and judicial powers,

If disbelief in the laws relating to circumstantial evidence and to capital punishment be the reason for signing the petition, is it not then in fact an appeal to the Governor to break the oath he took to support and enforce these Address C., Ledger Office. March 31-6t Eben Bumstead.

Not a single day should be lost by those who have as yet neglected to clean the egg clusters or nests from their trees. The first good warm days now will cause the trees to leaf out and the caterpillars to likewise emerge. It is a simple and quite inexpensive matter to find and destroy the moths in their present winter state, but an entirely different proposition when they are swarming over the trees and are able to hide among the foliage.

Within a day or two the superintendent of the State work against the moths will issue a spring poster giving directions, in brief, for the spring and summer work against both varieties of the pestilent insect. These posters will state that on trees not previously cleaned the Brown-tail larvae may be found emerging as early this month as the bads open to supply them with food. The remedy given is to spray the trees with arsenical poison.

The poster will say that the gypsy moth caterpillars may be expected to hatch out by the first of May and three remedies are given for summer work Jan. 31. against them. The first is spraying from the time the caterpillars emerge until along in the middle of June, with arsenate of lead, disparene or Paris green. The second method is burlapping, and the third remedy given is banding the trees with bird-lime or Car of Trust Funds. some other sticky preparation.

The posters will have life-size pictures of the two varieties of caterpillars, will illustrate the proper manner in which to put burlaps on the trees and will emphasize the need of cordial cooperation by private individuals with HERBERT A. HAYDEN the State, city and town work. The posters will be sent out broadcast all over the eastern section of the State to be placed in grocery stores, town halls, post offices, railroad and railway stations. At both the North and South terminal stations in Boston, the posters will be displayed as conspicuously as are the time tables.

In preparing the mixture for spraying, the arsenate of lead is mixed in the proportion of 10 pounds to a 100 gallons of water, disparene in the same pro. 31 ACRES DESIRABLE LAND for cultivation in lots to suit Apply at of water, disparene in the same proportions, and with Paris green one pound is used to every 150 gallons of water. IS NOT WELL RECEIVED

Operators Say That the Existing Conditions Are the Result of Arbitration, but Are Giving the Matter Consideration

New York, April 6 .- Having failed to come to an agreement among themselves, the hard coal miners of Pennsylvania, through their representatives, proposed to the operators that all matters in dispute be referred to a board of arbitration for settlement, the tribunal to be composed of the board of conciliation which was created by the award of the anthracite strike commission in 1903, and Judge Gray of Delaware or any person he may appoint as chairman and umpire. If the operators accept the proposition and a convention of mine workers approves the plan, the 160,000 men now idle in the anthracite fields will return to work at once

While it had been reported for sev eral days that the miners might ask that the differences be arbitrated, the proposition made to the mine owners came to them with a great surprise, as they did not believe the union leaders were ready to leave the controversy to a third party at this time.

That the operators will accept the miners' proposal as submitted is not generally believed; in fact it is int mated they may flatly refuse the offer on the ground that existing conditions are the result of arbitration. The em ployers, however, have decided to care fully consider the miners' latest move and promise to give President Mitchel and his men an answer on Monday when another meeting of the two sub committees will be held.

The proposition was read to the op erators by Mitchell and along with it he submitted the original demands of the miners, the reply of the operators in which they proposed that the strike commission award be renewed and continued for three years, and the let ter of Governor Pennypacker, who urged that both parties take reasonable efforts to come to an agreement.

The conference of the sub-committee lasted less than an hour and at its conclusion the operators held a meet ing to informally discuss the miners

The operators at their meeting de cided that before they would frame a reply to the miners they would first consult all interests in order to get the sentiment of the heads of all the coal carrying roads as well as that of the independent operators.

The anthracite board of conciliation consists of six members-three repre senting the operators and three the miners. These men have held frequent sessions during the last three years, settling local disputes in the anthracite regions. The award of the strike comprovided that when they con not agree a federal judge in the Third judicial district should appoint an umpire who should make a decision. Judge Gray, president of the strike commission, made the appointments. During the first two years he selected Carroll D. Wright as the umpire, but poles will not be necessary. during the last year Charles P. Neill. the present labor commissioner, acted as the arbiter.

It was stated at the miners' headquarters that if the operators agree to arbitration, a call will be sent out at once for a convention of miners, at which instructions would be adopted, if they ratify the arbitration plan, for the idle miners to return to work im-

mediately. Reports from various sections of the soft coal regions show that conditions in those fields are improving. There was more coal mined in that territory yesterday than on any day since the strike was inaugurated. The production of coal, however, is not as large as was expected.

Independent Companies Sign Scale Pittsburg, April 6 .- Gradually the situation in the soft coal mining fields is assuming a normal aspect. Fortythree of the mines of the Pittsburg Coal company are in operation and it is expected that it will be but a few days more when all the mines in this dis trict will be in operation. This is said to apply as well to the independent operators, who have heretofore fought the granting of the advance demanded by the miners, as to those operators who have already signed the scale. Seven of the independent companies which refused to join the action of the

others Tuesday night signed the scale

Philadelphia, April 6 .- In the anthracite region the arbitration proposition made by the miners' representatives to the operators during the conference in New York is regarded in varying lights by the different interests involved. Those of the operators in the region who could be induced to venture an opinion express the belief that it will not be accepted. Various reasons for its rejection are advanced, among them the disinclination of the operators lowest prices. to leave the solution of technical mining problems to an umpire who might prove incompetent. The fact that President Mitchell's proposition was not presented before he ordered a suspension of mining, it is declared, is likely to militate against it.

Wonderful Growth Of the Telephone

President Frederick P. Fish in the annual report of the American Telephone and Telegraph Company just ismed shows that there were 2,528,715 Bell telephone stations in operation at THEY WANT CITIZENSHIF the close of 1905, an increase of over half a million, or about 25 per cent., since the close of the previous year. The total mileage of wire in use for exchange, and toll service was 6,043,518 miles, of which over a million and a quarter miles were added during the

During the year the Bell companies spent for new construction in exchanges and toll lines \$46,603,510 and for land fifty million dollars as against \$31,619,-100 in 1904.

During year the companies handled total daily average of 13,911,000 connections or at the rate of about 4, 479,500,000 a year, being 54 telephone calls for each man, woman and child in be United States.

The report states that this is the thirtieth year since the invention of the telephone and the growth of the ousiness has been greater than ever before, the rate of growth being accelerated by the larger number of telephones in use and the improvement of

Mr. Fish says that it is the duty of the company to employ the best of business methods, to adhere to their conservative capitalization, to continue to establish and maintain the highest practical methods of efficiency and to give every portion of the public as far as possible the class of service it requires at the lowest rates consistent with a proper return on the investment.

The Complaint of Porto Ricans Against United States

Present Status Is That of Subjects of United States, Which Subjec's Them to Humiliation -- Protection of Coffee Wanted the selectmen.

Washington, April 6 .- At last it begins to look as though the hapless peoand buildings \$4,177,399, a total of over | ple of Porto Rico were to be endowed with the privileges and benefits of citicenship. Their present status is that of subjects, but not citizens, of the United States. Bills to confer citizenship upon them have been introduced in the senate by Mr. Foraker and in the house by Mr. Cooper, and the outlook is that they will be adopted.

Tulio Larrinaga, the Porto Rican delegate, speaks feelingly on the condition of his people. He complains bitterly of the treatment they have received at the hands of the Washington law library to be located in Brookline government, and asserts that if the United States proposes to keep the isiand it should deal with the inhabitants with a larger measure of justice.

"What is the status of our people, do electing the members of the executive council, who are now appointed by the president.

"Besides this we want some protection for our coffee industry. We ton Sentinel. would like the government to impose a duty of 5 cents a pound on coffee coming into the United States from abroad. This would yield a revenue of \$50,000,000 or \$60,000,000 a year, ot reach the eat of the disease. > Tracing Campaign Contribution publican state committee and John G. Bestgen of Quincy were examined by the grand jury in connection with charges brought by Bestgen against Robert G. Proctor, private secretary to Senator Lodge. Bestgen has declared that he gave \$225 to Proctor as a contribution to the campaign fund in October, 1904, and that there is no record of what became of the money.

E. B. COLLINS,

Wrongfully Pointed by Trustees of Mutual Life

A STATEMENT BY FIELDS

Is Prepared to Tell the Tru'h, No Matter Who It Hurts--He Will Fully Explain What Became of \$600,00 He Received

New York, April 7.—Charges similar to those recently made against the directors # the New York Life Insurance company by Andrew Hamilton are made against the trustees of the Mutual Life Insurance company by Andrew C. Fields. The former legislative agent of the Mutual is now in seclusion at his home at Dobbs Ferry. He is said to be seriously ill and has denied himself to all callers. The charges against the Mutual trustees were made in a formal statement which Fields issued through his physician, Dr. C. H. Judson. In this statement Fields says:

"In the first place, I never gave a pribe to hayone in the whole course of my career. I have come home prepared to vindicate myself completely. In doing so I shall let the truth which I shall speak fall upon whom it may. All of those trustees of the Mutual who are now pointing the finger of scorn at me were aware of all I was doing in connection with legislative work for the Mutual, and when they say that they were ignorant of the character of my work they are saying what is untrue.

"I am here to challenge them in every such statement they may make or have made. I am not an old man like Richard A. McCurdy, whose age is so great that he could not defend himself. While my bodily strength is not what it might be. I am mentally as strong as ever I was, and I am determined to vindicate myself in the eyes of the public.

"I have to laugh when I read the statements of the trustees to the effect that a portion of the records of the supply department of the Mutual is missing or was destroyed. I will say now that it is absurd to say that a single book or record in the supply department-of which I was head-has been taken from the company's office. These trustees will have all the records of the supply department when they want them. They are not missing.

"As to the payments by Robert Olyphant, chairman of the expenditure committee, of amounts ranging from \$25,000 upward and aggregating in ali about \$600,000, paid to me, I will say that I can furnish a full and complete explanation of exactly what was done with this money, and can show that every payment was fully authorized. I saved for the Mutual by my work at Albany hundreds of thousands of dollars, and in doing so never committed a dishonest act. I do not propose that the men associated with me in the Mutual shall destroy my reputation to further their own private ends. The story about the so-called House of Mirth in Albany was a gross libel. Nothing ever took place in that house, which wa's simply my Albany residence, of which I or any other God-fearing man need be ashamed. I am prepared to tell the truth, no matter who it may hurt, be his position high or low."

Fields says that in all his career at Albany he never had any personal dealings with Andrew Hamilton, long the legislative agent for the New York Life Insurance company.

Dr. Judson said that Fields would not be able to see anyone for two weeks at least. His patient is suffering from an incurable disease, he said, but by careful treatment his life may be prolonged for years.

William H. Truesdale, chairman of the Mutual's internal investigating committee said: "It would not be proper for me to state that Fields will be called upon to make a statement to this committee. That such a course is likely, however, is a probability. There is no power vested in our committee that could be exercised to compel Fields to give it an explanation. and any that he does make will be purely voluntary."

Suit Involving \$7,000,000 Settled Milwaukee, April 7.—The litigation over the estate of Mrs. Leslie Schandein, whose property was valued at \$7 .-000,000, has been settled out of court. Of this amount a share estimated at \$6,000,000 was left to Mrs. Jacob Heyl. a daughter. Most of the remainder was willed to two other children, Mrs. Ella Frank and Emil Schandein, who were the contestants in the suit. The will was admitted to probate after a long and sensational trial and the present suit was brought upon an appeal.

Washington, April 7 .- The announcement from Paris that Maxim Gorky, the Russian revolutionist and author, is on his way to the United States, was recelved with considerable interest at the bureau of immigration. It is stated. however, that Gorky will be treated the same as any other alien coming to the United States unless some evidence is produced which would justify his de-

HOUSES ABANDONED

Vesuvius Crea es seen of Mingled Grandeur na Horror Naples, April 7.-The inhabitants of the villages in the vicinity of Mount Vesuvius are in a condition bordering on panic. The atmosphere is dense with volcanic ashes and the fumes of subterranean fires. The churches are crowded day and night with people praying for deliverance from an impending peril manifestations of which are heard and felt in explosions which resemble a heavy cannonading and in the tremblings of the earth which are

constantly recurring. The main stream of lava proceeding from Vesuvius is 200 feet wide and it advances at times at the rate of 21 feet a minute, the intense heat destroying Tickets good for 5 lessons. vegetation before the stream reaches it. The peasants of Portici cleared their grounds of vineyards and trees in the effort to lessen the danger from fire, and resisted the progress of the lava to their utmost. The population of Bosco trecas have sought safety in flight Women of Bosco Reale, weeping with fright, carried a statue of St. Anne as near as they could go to the flowing lava, imploring a miracle to stay the advance of the consuming stream.

The scene at night is one of mingled grandeur and horror, as from the summit of Vesuvius there leaps a column of fire fully 1000 feet in height, the glare lighting the sky and sea for many miles. Occasionally great masses of molten stone, some weighing as much as a ton, are ejected from the crater.

The village of Torre del Greco, which has been eight times destroyed and as often rebuilt, is again threatened and the inhabitants are in extreme terror.

Religious Question Eliminated Washington, April 7 .- Shall the government compel its employes who are of the Seventh Day Adventist faith to work on Saturday? This was the question Secretary Bonaparte was called upto to decide in the case of a charwonian who observes Saturday as the day of rest and asked to be excused from work. Bonaparte decided that the gov ernment cannot take religious belief into account in arranging its week's work and is unable to excuse any employe from working on a day when the services of the employe are required.

Trouble For "Absent" Apostles Salt Lake City, April 7 .- President Smith of the Mormon church, in his address at the opening of the annual con ference of the Latter Day Saints, created a stir by a pointed reference to absent apostles, which were interpreted to mean that the church authorities have determined to discipline those apostles who for more than two years have been in voluntary exile. These are Apostles Taylor, Teasdale and Coakley, wanted at Washington as witnesses in the Smoot investigation.

Robbers Murdered Their Victim Scranton, Pa., April 7 .- The body of George Wenefski, a Polish teamster, who lived alone on the outskirts of the city, was found near his barn by a neighbor. He was reputed to be wealthy and it was said carried his money in a belt which he wore next to his body. The murderers had stripped their victim in the search for the moneybelt. Wenefski's skull was battered in

Hundred Printers Discharged Washington, April 7 .- One hundred iters were discharged last evening by Public Printer Stillings. It is expected that as the result of the present agitation for a reduction in the amount of government printing a number of others shortly will be dropped. With the view of bringing about a further saving. Stillings is about to effect a complete reorganization of his office.

Bubonic Plague Suspected

Philadelphia, April 7.-Steamship Burrsfield, from Bombay, reports that there were two suspicious deaths on the vessel during its passage, and that several other sailors are seriously ill. The nature of the disease is not known, but t is said that the quarantine physician fears that the men died of bubonic plague. The vessel will be detained in quarantine.

Hungary Once More at Peace

Vienna, April 7 .- After 14 months of controversy, always of an acute and often of a bitter nature, between the throne and the coalition parties, the Hungarian crisis has finally been set-Both sides express satisfaction with the result obtained, which appears to be in the nature of a compromise.

Hamburg Strike Grows More Serious Hamburg, April 7.-The strike among seamen which begun several days ago has assumed more serious proportions. The stevedores have partly joined the strike, and preparations are being made for a general strike next week. The strike already has begun to interfere with shipping.

The Rate Bill Debate

Washington, April 7 .- In making an effort to get the senate to agree upon a date for taking a vote on the railroad rate bill, Mr. Tillman made the important statement that one week more probably would exhaust the general debate on the measure.

Considered Printers' Charges Malden, Mass., April 7 .- A committee appointed by the New England Methodist Episcopal conference considered charges made against the Methodist Book concern of New York by striking printers. The charges include the declaration that the typographical work on some whiskey advertisements was done by the book concern and also that the book concern assisted in the publication of a play of alleged questionable moral character by doing part of the typographical work on it. Nothing will be made public until the formal report is made at the meeting of the full conference.

Cobb Early in the Field

Cobb practically opened the campaign for the state election of next September last night when, at the annual dinner of the Deering Republican club, he anounced his candidacy for re-election. He related the history of the passage of the Sturgis law for the enforcement of the liquor prohibitory statutes, and declared that the Republican party must now face its responsibility for the law and show its sincerity.

Statements Don't Agree

Providence, April 7 .- After a day's absence from their looms, more than 200 weavers employed at the Greystone woolen mills returned to work this norning. President Benn of the cororation says that the weavers were out simply because of a breakdown of the engine. The weavers, however, claim that they left because of a new order regarding a new standard of work. which was settled satisfactorily last

> In a draped tribune at one side of the main altar are the ambassadors, ministers and other members of the see, ablaze with decorations and colored ribbons, while throughout the church and on the square Swiss guards and other papal soldiers are stationed. At 10 o'clock the order to present arms is given. The Swiss guards raise their halberts high in front of them as the head of the procession moves into the church. Marching in front is a platoon of soldiers. Then follow the various officials of the pope's household in clerical attire-priests of different ecclesiastical grades, heads of monastic orders, mitered abbots and monks.

Now the sovereign pontiff appears, seated on a throne which is carried high above the heads of every one by servants of the Vatican clad in scar let silk and bearing the platform on which the pope's chair rests upon their shoulders. Beside the throne walk high dignitaries of the papal court, holding in their raised hands huge white bunches of ostrich plumes, which they wave gently to and fro. The pontiff is attired in white, his toga being of a soft material that clings to the body. Upon his head he wears the emblem of his power, the glittering tlara. As he passes through the thron; of people he bestows the benediction upon all present, his uplifted right arm making the sign of the cross continu ously, while his lips pronounce the grand words of peace. BLOODLETTING.

It Is Still Resorted to by Doctors In Certain Emergencies.

Bloodletting, or "venesection," as it is known scientifically, was once the common remedy for nearly every form of ailment. Washington died of it, in the opinion of modern medical authorities, and soon after his time there was a reaction against venesection. Better medicinal agents accomplished whatever benefits were attributed to this heroic treatment, and a better knowledge of physiology condemned the practice

Venesection, however, is still em ployed in certain emergencies by the most advanced practitioners. Origin of the Easter Egg.

The custom of Easter eggs is one of ancient origin, being derived from the Greeks and Romans, who employed eggs, and undoubtedly colored eggs, as accessories for their pagan festivals. At any rate magical powers have always been ascribed to eggs in day is a universal holiday, upon which times gone by, and Cesarius von Heisterbach, who wrote in the middle ages, sport and mirth. The theaters all have tells many stories of bewitched eggs. They were said to be able to fly of their own accord toward the sun, and a as they continue to be throughout the certain celebrated egg was believed to Easter holidays, which in England conhave been laid by a rabbit, which egg tinue for two weeks. Fashionable sowhen hatched produced a basilisk.

An Appropriate Hymn.

Hasty or unwise selection of hymns has caused more than one minister serious mortification. A minister in an eastern city had charge of the Easter programme in the Sunday school of his of Easter occasioned no little controchurch. A KANSAS EASTER.

Handel's "Messiah" Sung Every Year by Four Hundred Swedes.

At Lindsborg, a quaint town, the center of a Swedish colony in Kansas, the annual Easter event which the sturdy farmers and their housewives look forward to is the singing of Handel's oratorio, "The Messiah," by a chorus of 400 trained voices, accompanied by an orchestra and a three manual pipe organ which cost \$5,000.

The oratorio brings to the little vilage of Lindsborg, with a population of 2,000, at least 10,000 people during the event. In this same little town Mme. Lillian Nordica once gave a recital to an audience of 2,500 people. All this has been made possible and successful by the perseverance and toil of the

The Swedish colony was founded in 1867 by Dr. Olaf Olson, who had been minister in his native country and who, with his friends, purchased 20,-000 acres in the Smoky Hill valley to found a Swedish colony-a colony that was to have no saloons and that should be without vices. Today the Lindsborg church has 3,000 communicants.

Dr. Olson heard "The Messiah" sung in England. His people were a singing race. He returned to the colony with the idea of making the singing of the oratorio an annual event at Eastertide in honor and glory of the resurrection. It would be something to inspire his people. He talked with the settlers of the Smoky Hill valley. They gave from their meager savings to bear the expense. Mrs. Carl Swensson drilled the first chorus of forty voices. The soloists came from Rock Island. The first oratorlo was a success. Seven years ago an auditorium was built with a seating capacity for 4.000. It was predicted that not enough people could be assembled to fill it, but it has been crowded every year since it was built.

The days that the oratorio is given the visitors travel to Lindsborg by train and by wagon. Farmers with their families drive twenty and thirty miles to hear the chorus. - Chicago Tribune.

EASTER IN GERMANY.

Quaint Customs Observed on the Great Baronial Estates.

In Germany some quaint Easter customs are observed by the peasantry. At sunrise on Easter morning one is awakened by the servants on the great neath the window to the accompanibaron and all his guests assemble in pleased. the great hall of the castle while the entire establishment passes in review before them.

Each couple carry-for they march two by two-something which indicates to what department they belong and is also emblematical of the life and death of the Saviour or of something man carries a tub white as snow containing a large doll intended to represent the infant Jesus; the woodmen have a shining hatchet, its bright blade driven into a small cross of some black wood; the gardeners a large bouquet surmounted by a crown of thorns; the cooks a huge cake baked in the form of a sepulcher; the housemaids a broom wrapped in white rag, emblematical of the Saviour's winding sheet; the blacksmiths a great sledge hammer and spikes, to represent the implements which nailed him to the cross, while the masons bring up the rear. trowel in hand and carrying a large stone to represent the one which was rolled away from Christ's tomb.

As each pair pass the master of the house they make a profound obeisance and receive from him a gift of money. This quaint Easter custom has been observed for many generations and is universal on all the great estates of Germany.—San Francisco Chronicle.

ALONG MITCHELL LINES

Doubtful If Mineworkers Will Accept the Proposition -- Nothing New Has Developed In the Anthracite Situation

New York, April 7 .- Interest in the labor troubles in the anthracite regions was oversuadowed by the proposition that came out of the west for the arbitration of the differences existing between the soft coal operators who have not yet agreed to the 1903 scale and their miners. The offer of the soft coal operators is identical, word for word. except where the term bituminous is substituted for anthracite, with the one President Mitchell presented to the hard coal operators here on Thursday.

The receipt of the proposition caused quite a stir and there was considerable speculation as to how the miners' leader would receive his own arbitration plan for another field. He was much interested in the news, but maintained his usual silence when asked what he would do.

Within an hour of the receipt of the offer from J. H. Winder, the head of the Ohio soft coal operators, Mitchell sent a reply to the effect that he had no power to act on the proposition, but would submit it to the international executive board of the union at its meeting in Indianapolis week after next. Mitchell was asked what he thought of Winder's literary ability, and he jokingly replied that he "admired it very much."

Leaders of the Miners' union who are at headquarters do not think the internafional executive board will favor the proposition. A member of the board says that conditions in the soft coal regions are much different from those in the anthracite fields. He points out that many operators have already signed the 1903 scale and that the num-

Nothing has developed in the anthracite situation to clearly indicate what the outcome of next Monday's meeting between the sub-committees of the mine owners and the union leaders will be. There was no formal meeting of the operators yesterday, but most of them were in communication with one another. It was reported during the day that the arbitration offer of the miners would be flatly refused, but it was denied by those in authority that a final decision had been arrived at. It was also reported that the operators may accept arbitration, but with a different sort of a tribunal.

President Mitchell yesterday concerned himself almost exclusively with business connected with the soft coal situation and had no information to impart regarding the hard coal miners. He said his side has nothing to do now but wait for the operators' answer. It has practically been settled that if the operators refuse the arbitration offer, a

A Soft Coa Settlement

Pittsburg. April 7.-Peace is now assured in the miners' situation so far as the soft coal fields of western Pennsylvania are concerned. All those at the meeting were representatives of operators who had bound themselves not to sign the scale.

A NATURAL DEATH

Patrick's Probable End If Affi-

davits Continue to Pile Up New York, April 7 .- Albert T. Patrick's motion for a new trial on the charge of killing William M. Rice came up again for hearing and District Attorney Jerome immediately moved for a further postponement, which Patrick's counsel opposed. When Mr. Olcott, of counsel for Patrick, said that he had Texas witnesses waiting to testify and that they would be put under heavy expense by the delay, Jerome repiled that New York county was willing to pay any reasonable expense for

During the discussion which followed Olcott presented four new affidavits of Texas witnesses which he asked the court to accept. Jerome here said that he was willing to receive the affidavits if Olcott would put a limit to their number. He added that Patrick would die a natural death, in all probability, before his attorney stopped filing affidavits. Olcott replied that the object in view was two-fold, an impeachment of former witnesses and a scientific in-

vestigation into the method of death. Jerome said that he was willing to co-operate with Olcott on any legitimate inquiry in the case, but that if he sought the technical, legal right of Patrick that he would oppose all such action on merely technical grounds. Recorder Goff adjourned the hearing until next Monday.

New Theory Regarding Explosions New York, April 7.—Ten persons were injured by a series of explosions of gas in sewers in the neighborhood of Fifty-First street and Eighth avenue last night. This is the fourth explosion that has occurred in as many months. A new theory, that the refuse from automobile garages in the vicinity flowing into the sewers generates the gas which is responsible for the combustion, receives favor from many who observed the explosions. Manhole of ers were hurled in all directions. Windows were broken by scores.

Summary Vengeance on Gambiers Warsaw, April 7.—Eight armed men boarded the river steamer Wawell, plying between Warsaw and Block, and when the vessel was in mid-stream ordered five gamblers who were playing in the cabin to go on deck, when the men shot the gamblers, killing three and mortally wounding two. The men then ordered the captain of the vessel to stop the Wawell at a way station, where they landed and disappeared in

FUNDS ARE NECESSARY TO WAGE CONTESTS SUCCESSFULLY.

Trades Unions Should Be Fortified by a Substantial Treasury-Fiscal Policy of Labor Organizations Demands Close Attention.

Trades unions have been thriving to such an extent in this country the past few years, says the Amalgamated Woodworker, that the average member of the organization has not had occasion to stop and consider where we are at, and so the unions have gone on creased demands on their treasury. Usually the ordinary resources of nearly ail organizations are taxed almost to the limit to maintain these obligations, making it impossible to accumulate funds for emergencies that are liable to arise at any time.

There is a good reason for all this. One is that neither conventions nor the referendum of any organization ever gives due consideration to expectancy of life in making laws governing death benefits; consequently unions attempt to pay sums that are utterly out of proportion to the revenue received. Some say the lapses make up the differences, but unions do not permit members to lapse if they can prevent it, and as organization is being perfected unions are continually increasing their effectiveness in successfully reducing the number of lapses.

Time was when a protracted strike or series of strikes involving considerable of the organization, whether the strikes were won or lost. That time is past. A strike, big or little, won or lost, is now looked upon only as an incident in the life of an organization.

The stability of trades unions is only endangered by the desire of some of its membership to get out of the organization more than they are willing to conder any circumstances.

The primary function of our unions is to protect our distinct interest as workers. Beneficial features may be ing people.

An agreement has been signed between the Chicago Masons and Builders' association and the Hodcarriers and Building Laborers' union, which provides for an increase in wages that will mean nearly \$1,000,000 a year in the aggregate to the men. The scale of 30 cents an hour for building laborers, which has prevailed for the past three years, has been advanced to 35 cents an hour. Laborers employed on the Stores, and Shopkeepers, Owners of of putting in caissons are to receive 50 Buildings and Tenants of Offices cents an hour under the new agreement instead of 40 and 45 cents, as formerly. of his deals. Overseer Voliva, who has supplanted John A. Dowie as head of the Christian Catholic church in Zion, says that when Dowie returns to Zion City next week he will be accused of the following faults before an ecclesiastical tribunal: Extravagance of the most shameful kind, misrepresentation, exaggeration, mismanagement, polygamous teachings in private, tyranny, injustice and indiscretion. Dowie will be treated fairly, according to Voliva, and will be given every opportunity to meet every charge and to make reply.

[Pian For Increasing Coal Value London, April 7 .- The British admiralty's small experiments have proved that the storage of coal beneath the sea steadily increases its calorific value, while open air storage decreases it. The admiralty has directed that experiments on a large scale be made with a view to overcoming the difficulty of subsequent drying of coal after it has been stored beneath the water.

Weaver Sues For "Graft Money" Philadelphia, April 7.-Civil proceedings have been instituted by the city against the contractors and former city officials interested in the construction of the municipal filtration plant to recover \$5,000,000, which sum is alleged to have been wrongfully retained by the defendants. A bill in equity was filed in the common pleas court at the instance of Mayor Weaver.

Senator Ager to Retire

Detroit, April 7 .- Announcement is made from United States Senator Alger's office in this city that he will not be a candidate to succeed himself in the senate when the legislature meets on Jan. 1 next, owing to the condition of his health.

BOSTON THEATRE.

"Mrs. Wiggs of the Cabbage Patch" is a wonderful woman. She is the prize repeater among current plays. The piece is rounding out the second week, the last but one, of its engagement at the Boston Theatre, which is made remarkable by the fact that there is but standing room at every performance. With the orchestra under the stage, people standing everywhere, the performance goes with a spirit and enthusiasm that infect the house with merriment. "April Fool's Day" having failen on Sunday, the children of the Cabbage Patch enjoyed their revels on Monday evening, and Oscar Eagle, the stern stage manager, overlooked many an added bit of "business." Mr. Stabbins was the butt of most of the jokes. Little Tommy was six years old on Monday and a dainty little supper was served in his honor on the stage after the performance, when the blythe child was presented with a gold watch by the company. Charles Carter will oom open Monday, Tuesday, Thursday and have a birthday on Saturday, when Madge Carr Cooke and her fellow players will entertain him as their guest. The children are taking advantage of the spring vacation to see the little ones of the Cabbage Patch, and the Boston Theatre sins a merry crowd of javeniles daily Next week will be the last of the engagement.

Public Exposure by the New Leader of Zion

NO MINCING OF WORDS

Erstwhile "Elijah" Is Called a Spendthrift, Liar and Traitor -- Six Thousand Express Desire to Cast Him Aside.

Zion City, Ills., April 9 .- With the approval of thousands of Dowleltes in open meeting, General Overseer Vollva denounced John A. Dowie as a spendthrift, liar and traitor, and was in turn promised support as leader of the Christian Catholic church in Zlon to fill the place of the founder of the church, now leposed and on his way from Mexico to fight for what he considers his rights. When, after denouncing Dowie, Voliva demanded a decision of the audience which crowded Shiloh tabernacle as to who should be their future leader, the 6000 persons in the auditorium rose

ness to follow Voliva to the end. Yesterday's meeting was called for 2:30 o'clock in the afternoon, but as early as 10 o'clock in the morning all the streets centering around that house of worship held many anxious Zionists, all headed for Shiloh tabernacle. By the time Voliva reached the meeting house the place was full to overflowing with the former adherents of Dowle who had been patiently waiting for hours to listen to the public exposure of the man who made Zion what it is today.

PROCTOR SURRENDERS

The Quincy Daily Ledger.

Will Be Asked to Explain a Campaign Contribution

Boston, April 9.-Robert G. Proctor, private secretary of United States Senator Lodge, for whose arrest on the charge of embezzlement a warrant was issued, surrendered himself at police headquarters. Proctor was immediately released on \$500 bail.

The specific charge is that Proctor embezzled \$225 belonging to John E. Bestgen of Quincy in October, 1904. Bestgen alleged that he gave Proctor the money as a Republican campaign contribution and that Proctor prom ised to aid him in obtaining a consulship. It is further alleged that no record of this sum appears upon the books of the Republican state committee and that it has not been included in the returns of campaign contributions.

District Attorney Moran announced a few days ago that he had gone over the records of the state committee and in no place could he find any contributions credited to either Bestgen or Proctor. Chairman Talbot of the Republican state committee declared, it is said, that he had no knowledge of the contribu-

A "Picturesque Prevaricator"

New York, April 9 .- Overseer Ma son of the Christian Catholic Apostolic church in Harlem denounced John A. Dowie in an address from the pulpit "His lively imagination," said Mason "makes Dowie a picturesque prevarica tor. In raising money he saw unlin ited possibilities and estimated that \$11,000,000 had been invested in Zior City and that he had raised about \$9, 000,000 abroad. The latter has never been discovered. If he is insane he has ecome so by his uncontrollable anger and his insatiable pride."

Tragedy at Sunday Night Ball New York, April 9 .- Shortly after the grand march at the ball of the Star Social club had started last night, Otto Gunkel, 24 years of age, walked up to his wife and shot her in the breast with a revolver and then fired a bullet into his head. Two hundred young men and women who were forming on the floor at the time broke into a panic imme diately. The Gunkels will recover The cause of the shooting was the re sentment of Gunkel against his young wife for having begun divorce pro ceedings against him.

TO GET AN ANSWER

Miners' and Operators' Committees to Meet Today

OFFER OF ARBITRATION

Present Counter Proposition -May Ask Coal Workers to Reopen the Case

New York, April 9.- Some of the members of the Shamokin scale committee of 36, to which has been entrusted the work of conferring with the of differences that exist between the mine workers and their employers, returned to this city yesterday and last night they informally discussed plans for today. The remaining members of the committee will be here in time to receive a report from its sub-committee in case the latter finds it necessary to submit one. The sub-committee wil meet the operators this afternoon to receive the answer of the mine owners to the arbitration proposition made by the men last week.

of the report that the operators may refuse the miners' offer and present a counter-proposition to the effect that a board of arbitration be appointed to ascertain if there are any new questions on which the mine owners and the men differ. The union leaders have been looking into this phase of the question and are preparing to meet such a counter-proposition if made.

The miners claim there are many new grievances which arose out of the award of the anthracite coal strike com mission and which have not been set tled to the satisfaction of the men. It is quite certain, however, that the miners' committee will insist upon a settlement of old grievances along with any that may be found to be new.

No information is obtainable to ac curately indicate what stand the operators will take. It is known they have carefully gone over the arbitration plan proposed by Mitchell, and it'is said they have decided to accept arbitration, but in a radically different form from that offered by the miners. That the opera tors will ask the coal workers to agree upon the strike committee reopening the case or take up new differences, is not improbable. If the commission is again asked to take up the dispute it is not likely that all the members will con-

Heavy Shipments of Bituminous Philadelphia, April 9.—The situation remains unchanged in the anthracite coal region. Miners and all other classes are anxiously awaiting the an swer of the operators at New York and

it is the general hope that a strike will be avoided. Heavy shipments of bitu minous coal are being carried over the railroads. Much of this coal is going to manufacturing establishments which formerly used anthracite for steam pur Rockmen Want All Demands Met Scranton, Pa., April 9.-Fifty dele-

gates, representing 1000 rockmen of the anthracite region, met last night and voted to remain out until such time as the contractors accept the demands which have been presented to them. Wednesday is the time set for the con ference between the executive committee of the rockmen and the contractors There are 58 contractors affected by the agreement.

Free Trial Electric Lighting,

In order that our citizens who never have had electric lights in their reported 421 cases have been admitted homes or stores may become acquainted with the many advantages of their since last Monday. use, the Quincy Electric Light & Power Company makes this proposition. To all who make application before April 30th, 1906, and who will spend \$20 or more for wiring and installing wires for at least five outlets, the Company will furnish by meter at regular rates, \$20 worth of electric current free of charge.

This concession will go far toward paying the entire cost of wiring. For obvious reasons the Company confines this offer to those whose premises are so situated that building new lines or setting new poles will not be necessary.

STEWARD PERISHED

Crew of Abandoned Schooner Had Terrible Experience

Yarmouth, N. S., April 9 .- With the five survivors of the tern coasting schooner W. E. & W. L. Tuck, abandoned off Cape Sable last Thursday, who were landed here by the American steam trawler Spray, there was brought ashore the body of Charles Wilstead, the steward of the vessel, who perished in the ship's long boat after many hours of exposure. The others also suffered intensely, as they were all thinly clad because of their hasty escape from the vessel as she rolled over. The Spray picked them up Saturday afternoon and landed them here yesterday.

The Tuck was bound from Bridgeof lumber. She sailed from Bridgewater the first of the week and had a good trip until Thursday, when a squall struck the vessel and buried her to the rails. Before the helmsman could put the wheel down the vessel was too far over to right herself. One of the crew ran for an axe, but before he could reach the weather rigging the Tuck was flat and the masts and sails were

In a little long boat the crew remained for two days without food, water or anything to protect them from the biting wind. Every effort was made by his companions to keep Wilsted alive, but he died late Friday night after many hours of intense suffering.

Socialists In a Riot

San Francisco, April 9 .- Following a meeting of Socialists held in sympathy with Moyer and Haywood, arrested in connection with the assassination of former Governor Steunenberg of Idaho. an impromptu parade started through the business quarter. A halt was made at Lotta's fountain, and one of the paraders placed on top of the fountain a red banner bearing the inscription: "The Constitution be Damned." Another Socialist started to harangue the crowd, when a squad of police arrived. A fight followed and 10 men were arrested, the police having freely used

Mob Wanted Negroe's Life

Meridian, Miss., April 9.-The cool ness of Professor Beeson of the Meridian college prevented the lynching of a negro who shot Branscomb Farmer, a street car conductor. A mob had lo cated the negro at the college and pre pared to make an attack. Beeson se creted the negro and argued the mol into dispersing by promising to deliver the negro to the police. The shooting occurred over the refusal of the negro to pay fare for a 12-year-old boy who accompanied him on the car. The conductor will recover.

Carnegie Train Makes a Record Richmond, April 9 .- Andrew Carnegie made a record-breaking run on a specially chartered train from Richmond to Gordonsville in a futile effort to catch up with the regular train for Hot Springs, which was Carnegie's destination. Carnegie arrived in Rich mond 45 minutes after the Hot Springs regular train had left and the latter had left Gordonsville only a few minutes when Carnegie's special slowed down there. It is not known why he was in such haste to reach Hot Springs.

Similar means of transportation are being used to take the people out of Torre del Greco. The police and carbineers are guarding the abandoned houses, and several members of the government also are there. A telegram from the mayor of San r 5 13 abc

Sebastino, a village near the observatory on the northwest declivity of Vesuvius, says the lava is approaching rapid ly and that the people are terrorstricken. They have been for nights without sleep, he says, are destitute and beg for assistance. The work of succor is hampered, ow-

ing to delays to the railway service, which is interrupted by red-hot stones falling on the tracks. As yet it is impossible to count the craters that have opened and from which streams of lava have flooded the beautiful, prosperous and happy land lying on the southeast shores of the Gulf of Naples.

The atmosphere is heavily charged with electricity and now and then the flashes of lightning are blinding, while the detonations from the volcano resemble in sound a terrible explosion. The churches of the city were open

all Saturday night and were crowded with panic-stricken people. Members of the clergy are doing their utmost to calm their fears, but the effects of their arguments go almost for naught when renewed earthquake shocks are expe-With the danger and horror of the situation aside, Vesuvius presents one

of the most splendid sights imaginable The mountain of fire, whose speech is by detonation and whose acts are destruction, seems like an enraged glant deter mined to make the pigmies of earth feel the might of his wrath. Here and there on the mountain side stand the blasted trunks of pine trees, their bare branches outstretched as though in protest

wrought. The observatory has been destroyed and Director Matteucci and the employes had narrow escapes. They passed Saturday night in the darkness, save for the frequent flashes of lightning, as the gas works and electric lighting plant also were destroyed. The restaurant of the Funicular railroad,

oo, has been obliterated. Prisoners in jails on the mountain-side went mad with terror and mutinied and were only partially quieted by being brought here. But their fears have been communicated to the prisoners here, who may rebel at any moment.

The situation is critical. Breathing is momentarily becoming more difficult because of the poisonous fumes and smoke, while the hot ashes which are still falling tend to make life a burden.

Contrary to expectations, the sea has not yet shown signs of being affected by the phenomenon, but fears are entertained that tidal waves may yet come and many craft have put to sea. Visitors to Naples are avoiding the hotels on the seafront and the people living there are beginning to leave for higher altitudes.

The Royal Meterological observatory on Mount Vesuvius was situated nearly 2000 feet above the level of the sea on Colle Canteroni, a ridge which in past eruptions of the volcano has separated the lava streams into two branches. The scientific deductions made by the observers there have often been the means of warning the people of impending eruptions and doubtless have resuited in the saving of many lives.

Pattern From Our Laws Berlin, April 9 .- Judge Hartmann of

Berlin, who spent 15 months traveling in the United States in order to study court proceedings and American legal institutions, found many innovations in the United States of which he recommends limited imitation in Germany. He also found that American laws sometimes anticipate ideas which German reformers have been vainly striving to realize.

On the great highway between Allahabad and Nagpoor there were eight passengers of us who got down from a stage one night, tired, hungry and men. We had with us, going down to his regiment at Nagpoor, a British major belonging to a native regiment. The British officer, no matter where you find him, is a gentleman, but this was an exceptional case. The major was rough by nature, and drink had rendered him anything but an agreeable companion or a man of manners.

I took it that he had been to a native hut about a quarter of a mile away to buy food and had eaten it before his return. The man had also been imbibling afresh. I had said that I would go in and go to bed and had started for the yeranda of the bungalow when the man of war drew a pistol and aimed it full at me and said:

We kept on walking for half a mile thoughts against me.

I was impatient to get away from him and into the bungalow, and I kept hoping that his libations would finally end in his going to sleep where he sat. Instead of that happening, however, he seemed to grow more wakeful as time passed on.

CURE FOR SNAKE BITE.

Permanganate of Potash Said to Be an Infallible Remedy. The Indian cobra has been since time immemorial the terror of India because its bite has been universally at-

tended with fatal results. Tradition has it that natives commit suicide rather than endure the agony of the inevitable death and that the only man who ever survived an encounter with the hooded reptile thrust his whole Macdonald and his wife. SPINNING ASBESTUS.

Unique Mineral Used to Make Fireproof Ropes. The mineral unique is asbestus. Dif-

ferent from every other material in its occurrence, mining and preparation for the market, it forms an entire study in itself. It was first mined about 100 years ago, chiefly as interesting to the geologist and mineralogist and of little or no commercial value. About 1868 it was first used commer-

In its spun state it is used largely as with all yarn for packing valves, etc., for which located. R. McLENNAN, M. D., 28 Federal use it has many advantages. Asbestus ropes for fire departments are made entirely of asbestus or asbestus with a core of steel. With the steel wire core a three-quarter inch rope carried nearh ly 2,000 pounds. Without the core the three-quarter inch rope carries over 300 pounds and suffices for firemen's purposes.

Leveling Two Points Without Tools. To level up two or more points which are far apart, as posts, etc., without a level, straightedge or square, all that is required are a few nails, three pieces of old board, a piece of cord and a small weight, to be used as a plumb bob. Nail the boards together as shown in the illustration at any angle, place

the two points of the boards on top of the posts and mark where the line crosses the baseboard. Turn the device about, end for end, and mark the baseboard again. Then raise or lower one of the posts until the plumb line hangs midway between the two marked lines, and the posts will be level.-Popular Mechanics.

Measuring Life. A German doctor named Richter re-

cently made an astonishing communication to the Imperial College of Medicine in Berlin, in which he asserted that by a thorough study of the organs with the X rays one might determine with some exactness the length of life. of the different organs. The more perfect the heart, lungs, digestive organs and brain the longer would be the life of the person owning them, and meas- Quincy. urements, in infinitesimal quantities, tended to prove the truth of the Richter theory. There was, for instance, a consul at Smyrna who measured only fifty-seven centimeters round the chest and had one diseased lung, yet he lived to the age of 115. He was married five times and had forty-nine children, got his wisdom teeth in his hundredth year and found his hair turning black at the age of 110.

No Revenue From Butler's Pond

Eugene O'Connor, the alleged owner of Butlers pond and the land adjoining, says the statement that he has received a revenue from the pond is an error. He says he never received a cent for the use of the pond, as Mr. Prescott was given permission to cut ice there without cost. He further says that he holds a deed for the land and pond and if anyone can bring forward a previous deed he should like to see it. Personally, it was not his proposition to have the city buy the land and pond as a park, and the first that he knew of the move in that direcsion was when the petition was sent to the City Council.

DOWIE'S TROUBLE

"Prophet" Says His Wife Is at the Bottom of It

LEAVES HER FOR GOOD

Sees Hand of the Lord In Delaying Destruction of Bridge Over Which His Train Passed -- Negro Giant For Guard

Little Rock, April 10 .- John A. Dowle will never again live with his wife. This disclosure he made to a press representative for whom he sent. His final determination to separate from Mrs. Dowie was made after he had received and read Chicago papers containing a story to the effect that he had intended to establish a harem in his Mexican colony. He ascribes this story | Thursday and Friday. to Mrs. Dowie and his son, Gladstone.

Dowie said that his wife was the cause of most of his trouble. "She has spurred on Voliva and the others." he said, "until this dreadful trouble came and my persecution was complete. For years I tried to shield her, but her strange conduct has now passed beyond the point of human endurance. Money and jealousy were at the bottom of it all. She was incensed because I wanted to leave so much to Zion. May God forgive her. These stories about polygamy are more than cruel-they are shocking."

Dowie passed through Little Rock more than four hours late. This was partly due to the delay in Texarkana and also a delay in crossing the Saline river. When the train approached a bridge at this point it was said that the structure was ablaze. As the train was late the engineer determined not to fake any chances on a further tieup and ran straight across the bridge. Had the train been 10 minutes later the

bridge must have collapsed. Dowle, learning of the incident, declared that this was a most favorable omen for him; that the Lord had purposely delayed the destruction of the bridge to enable him to cross it; that the Lord had willed for him to proceed in safety to Chicago. Dowie declared that he would win in the fight to prove that he is the reincarnation of Elijah II.

During the entire trip Dowie was closely guarded by a giant negro. This have hired assassins to kill him before

estate; J. F. Peters, manager of the Zion Chicago, assuring him that his following will be with him as a whole.

Dowie also says he has received a declared that the report of Dowle bringing \$10,000,000 in gold to Zion is "all

WITTE'S FINAL CARD

Plays It In Effort to Induce Czar to Yield to New Scheme

St. Petersburg, April 10.-The swelling tide of liberal successes and the overwhelming victory of the constitutional democrats in the election at Moscow have brought the struggle between reaction and reform to a head. Premier Witte late last night again tendered his resignation to the czar, with a clear cut intimation that the latter must choose, and at once, between him and Minister of the Interior Durnovo Not a very good vacation day for The czar, according to report, took the resignation under consideration and returned no answer.

Since his return from Tsarskoe Selo last Thursday, when he pleaded with Emperor Nicholas to heed the voice of the people and grant a written constitution, Witte has brought all possible pressure upon the czar to divorce himself from the reactionary cabal and align himself unreservedly with the new

PROSECUTION RESTS

What Defense Will Claim In the Trial of Mrs Cooper

Augusta, Me., April 10.-After practically a continuous session of nearly four weeks, during which more than two-score witnesses were heard, the government rested its case against Mrs. Alice Cooper, charged with the murder of Charles Northy, Jr., in the Cooper home last October.

The last witness yesterday was Arthur Miros, a police officer of this city, who identified Mrs. Cooper as the wo man whom he saw purchase a revolver in a local store a few days before Northy's death. Attorney General Hamlin then offered all the exhibits produced during the trial by the government and stated that the prosecution

H. M. Heath, the counsel for Mrs. Cooper, in his opening for the defense, said that Mrs. Cooper would be heard in her own defense. It is expected that 23 witnesses will be heard on the defendant's side of the case, including five medical practitioners, who will be called to support the contention that Northy committed suicide. The trial is likely to consume more time than any previous murder trial in the state.

Man Without a Country

Boston, April 10 .- Exiled from his native land and with a price upon his head, former President Vasquez of Honduras arrived in this city on the steamer San Jose from Port Limon, Costa Rica. Twelve years ago Vasquez advocated that all Central American republics be annexed to the United States. An uproar of dissension arose and a revolution broke out. Vasquez's forces were defeated by the insurgents and the president barely escaped with his life. Since that time he has lived in seclusion in Costa Rica. Vasquez refuses to discuss the events of his past life.

An Easter Week Snowstorm Boston. April 10 .- A winter's storm

swept rapidly over New England last night. Snow fell to the depth of an inch in nearby places and three or four inches further north. There was a stiff wind and the heavily laden wires broke in Malden and Melrose, and for several hours the lighting systems in those cities, as well as the fire alarm service, was crippled. The storm caused an unusually high tide and some damage was done to nearby beaches and along the local waterfront. The storm was more severe in New Hampshire and Vermont than along the coast.

Travel Delayed by Strike

Worcester, Mass., April 10 .- Fiftyone employes on three shifts of the Worcester Consolidated Street Railway company power house quit work yesterday afternoon. The men claim it is a lockout and that men from Fall River were got to work in their places. General Manager Connette says the men refused to work, claiming that W. A. Hunt, a new employe, was a non-union man, and that he had men ready to take their places if they should strike. Cars were delayed in all parts of the city.

Midnight Measure Revived Boston, April 10 .- By the largest vote polled this year, the house passed to a third reading the 12 o'clock bill, which for three years has been one of the nost Differiv legislature. It provides that in cities of 45,000 or more population, licensed hotels shall, if the people accept the act, be permitted to sell liquor to guests

in public dining rooms until 12 o'clock. Message on Jamestown Exposition Boston, April 10 .- The fellowing telegram has been received at the executive department: "The Tidewater Colored Baptist Ministers' association, 60 ministers present, have unanimously endorsed the Jamestown Exposition. We hope Massachusetts will participate. As to the standing of this association we refer you to the governor of Vir-

NEW GRIEVANCES

All That Operators Think Should Be Considered.

DEMANDS OF THE MINERS

Nothing In Them That Has Not Already Been Passed Upon by Strike Commission -- Conference Postponed For a Day

New York, April 10 .- At the joint conference of the sub-committees of the of any kind. anthracite coal mine owners and their employes, to be held here today, the operators will decline to accept the arbi by the mine workers and will in its stead present a counter-proposition which, if agreed to by President Mitchell and his men, will bind each side for more than two years.

The operators have been working on the new plan ever since the adjourn ment of the joint conference of last Thursday, and the inability of the presidents of the hard coal-carrying railroads to complete minor details caused a postponement of 24 hours of the conference cheduled for yesterday.

The exact nature of the counterproposition was not made known by the operators and they do not intend to permit it to become public property until it shall have been presented to the min-

It is said, however, that the offer in volves an arbitration plan very different from the one presented by the miners; one that will call for the settlement of only new grievances that may be found 653 Washington St., corner South St to exist, after an impartial investigation has been made. The operators still maintain the position that the miners in their demands have not called attention to anything that has not already been passed upon by the anthracite coal strike commission.

There is a strong impression among the miners' committee that the operators will propose that President Roose velt be requested to summon the strike Telephone, Quincy 105-3. commission to review the entire controversy. They decline, however, to indicate how they would receive the suggestion. The commission is familiar to a considerable extent with conditions in the anthracite regions and, therefore, would not have to go over the entire ground, as would be the case if an entire

new set of men were selected. The operators' representatives were in close conference most of yesterday and promise that unless something unforeseen should occur they will be ready with their answer to the minson given for the postponement was DR. CLAYTON R. MARSTIN ers' arbitration plan today. The reathat the large coal companies desired to obtain the sentiment of all the inde pendent operators before they drew up their formal answer, and as some of the independents were engaged in exchanging views in the upper Pennsylvania coal fields it was deemed best to wait until they had taken action. The operators, through a representative, said DAYS the general policy had been decided upon and that the minor details will be disposed of at a full meeting of the subcommittee today, prior to the conference with the miners.

The postponement of the conference until this afternoon came as a disapers' general scale committee. The more than 30 members who had spent Sunday at their homes returned here fully expecting that the operators would be ready to proceed. A meeting of the scale committee had been fixed for last night, but the request of the operators for more time caused a postponement of the meeting until tonight. In conse-

quence the maers spent an idle day. President Mitchell announced last evening that the last of the bituminous agreement signed the scale yesterday. This action, he said, clears up the western Pennsylvania territory and means that 40,000 men in that territory, who produce from 35,000,000 to 40,000,000 tons of soft coal a year, will receive an increase of 5.55 percent in wages. other soft coal states where the miners

MURDERER REWARDED

Killed Russian Civilian Who

Cast Aspersions on Czar Warsaw, April 10.-Emperor Nicholas has granted full pardon to Pavloff, the soldier of General Bogdanovsky's regiment who murdered a civilian for easting aspersions on the czar. The civil court attempted to take jurisdiction of the case, but the military authority carried the case to the czar, who acquitted the accused soldier, whereupon Bogdanovsky made the following speech to the regiment which was ordered distributed to all the troops

as an order of the day: "You see, brothers, from whom you must take example, from the brave Pavloff, whose loyalty to the emperor was greater than his fear of responsibility. I order that he be given \$5 and two months' vacation. Hurrah for

Manchurlan Door Open

Washington, April 10 .- A statement was given out at the Japanese legation, saying: "Considerable progress having now been made in the evacuation of Manchuria, the Japanese government has decided, in accordance with the principles of the open door, to permit citizens and vessels of foreign countries to enter from May 1 An Tung Hsien and Ta Tung Kao, and allow foreign consuls to proceed to their posts at An Tung Hsien and after June 1 to

Views Not In Accord

Washington, April 10 .- Mr. McLaurin (Miss.) and Mr. Morgan (Ala.) addressed the senate on the railroad rate question, the former advocating legislation and the latter opposing it. Mc-Laurin criticised what he characterized as an effort to inject politics into the consideration of the bill. Morgan took the position that the proposed legislation was an interference with the rights of the states to control the corporations created by themselves.

Mayor's Protest Unheeded Buffalo, April 10.-Mayor Adam has provisionally vetoed the sale of the Hamburg canal strip to Lee, Higginson & Co. of Boston at their bid of \$901 000. The mayor recommended that further consideration be given certain features of the resolution, the principal one being the contention that the city cannot give a clear title to the entire The board of aldermen later tabled the veto and then reaffirmed the sale by a vote of 21 to 4.

Prosecuted by Former Wife New York, April 10.-Lewis G. Tewksbury, who was said to have disappeared from Philadelphia while out on bail, entered the district attorney's office last evening and surrendered him self. He is wanted on complaint of his former wife, now Mrs. Mary M. Greenhut, who alleges that on Jan. 20, 1900, he stole from her \$10,000 in United States bonds. The warrant for his arrest was obtained in March, 1903.

Mutual Life's New Suit New York, April 10.-Charges of conspiracy in the appointment of Robert H. McCurdy as superintendent of the foreign department of the Mutual Life Insurance company were made in a new action brought by that company against Richard A. McCurdy, formerly president of the company, and his son Robert. In the suit the Mutual seeks to recover from the defendants \$1,002,-

Veterans Swiftly Crossing River Washington, April 10.-Commanderin-Chief Tanner of the Grand Army of the Republic has issued his annual address to all G. A. R. posts regarding the exercises to be conducted on May 30, Memorial day. He says: "This year we are crossing the broad river at the rate of 5000 a month, 60,000 a year. Soon the great majority will be sleeping their last sleep."

London May Have Baseball London, April 10 .- At a meeting here last night it was decided to form a British Baseball association. Stress was laid on the desirability of fostering the amateur side of the game. It was suggested that the protection of the American National league be sought to prevent the importation of American professionals.

Engineer Crushed to Death Buffalo, April 10.-A passenger train was wrecked 10 miles west of here last night. Engineer Russell was caught beneath his overturned engine and crushed to death. Fireman Griff was badly scalded, but probably will recover. Three of the passengers were slightly injured.

Strike Sentiment Not Strong Havana, April 10 .- The labor leaders assert that a general strike is about to begin, but manifest no real confidence. The cigarmakers in several factories have refused requests to strike, and a majority of the other workmen are lukewarm.

In the towns where people yet remain the houses are all closed, the inhabitants roaming disconsolately about the streets and gaining what comfort is possible from the carbineers and soldiers. These are the heroes of the day. They seem never to sleep or be tired, and where there is danger they are cool, strong and alert.

In the course of the tour a point was reached from which Vesuvius could be seen under its cloud of smoke. The high cone of the volcano has gone almost entirely, having been swallowed up, so that the height of the mountain is nearly 600 feet less than formerly. On the north of the mountain new craters have been formed.

The situation now appears more assuring, the lava streams having diminished in volume and in some directions having stopped altogether, while a via Wollaston: Week Days-5.59, 6.29, 6.59 with the devastations wrought by the 11.47 P.M. Special railway trains, warships and steamers are employed in conveying the homeless people to Naples, Rome and Castellamare, while large numbers of peasants are fleeing overland in the direction of Caserta. Not less than 15,000 refugees have reached Castellamare. About 150,000 refugees from the dis-

trict of Somma Vesuviana have sought shelter here and elsewhere. Four thousand persons are lodged in the Granile barracks, this city. At many places the people are suffer-

ing from panic and a state of great confusion exists, which is added to by superstition. Some of the parish priests refused to open their churches to people who tried to obtain admittance, fearing that an earthquake would destroy the buildings when full of people and thus increase the list of disasters. Trial Electric Lighting.

In order that our citizens who never have had electric lights in their homes or stores may become acquainted with the many advantages of their use, the Quincy Electric Light & Power Company makes this proposition. To all who make application before April 30th, 1906, and who will spend \$20 or more for wiring and installing wires for at least five outlets. the Company will furnish by meter at regular rates, \$20 worth of electric current free of charge.

PATERSON—In West Quincy, April 9, Mrs.
Stewart Paterson, widow of Matthew Pater son of 2 Centre street, aged 76 years, 6 months and 10 days.

This concession will go far toward paying the entire cost of wiring.

For obvious reasons the Company confines this offer to those whose premises are so situated that building new lines or setting new poles will not be necessary. This concession will go far toward paying the entire cost of wiring Per order of Directors,

QUINCY ELECTRIC LIGHT & POWER COMPANY, By H. M. FAXON, Treasurer.

(Fill out this and mail to Company.) Quincy Electric Light & Power Company. Gentlemen: I am interested in your offer as outlined above. Please have your representative call and give me further particulars. Date,.....Time.... Fab. 20.

was a hero to his vale Constant, though he sadly marred the servant's effort to dress him neatly. Said the valet:

His breeches were always of white cashmere. But two hours after leaving his chamber it often happened that they were all spotted with ink, thanks to his habit of wiping his pen on them and shaking ink all around him by striking his pen against the table. However, as he dressed in the morning for the whole day, he did not change his toilet on that account, but remained in this state until night. The whole inside of his boots was lined with white fustian. Whenever one of his legs itched, he rubbed it with the heel of the boot or shoe with which the other leg was shod, thus heightening the effect of the spilled ink.

An Aggravated Case.

Lord Justice Clerk Eskgrove, in sentencing certain housebreakers, began by explaining the various crimes of which they had been convicted-assault, robbery and hamesucken, of which last he gave them the etymology. He then reminded them that they had attacked the house and robbed it, and so worked gradually up to the climax, "All this you did, and, God preserve us, joost when they were settin' down to their dinner!"-Law Notes.

A Long Life.

To prolong life one should take plen ty of sleep and remember to sleep lying on the right side, indulge in a morning bath in tepid water, take daily exercise in the open air, keep the window of the sleeping room open all night, take frequent and short holidays, not be over ambitious and hold one's temper.

QUINCY WOMEN'S CLUB. A largely attended meeting of the Quincy Women's club was held Tuesday afternoon at the club house. A cordial welcome was given Mrs. Bumpus the president, who had been out of town for a few weeks. The afternoon's program was in charge of Mrs. W. E. Alden, chairman of the program committee and opened with singing by Mrs. N. S. Hunting, who gave much pleasure in her selections.

Mrs. Alden in introducing Judge Bumpus the speaker of the afternoon said that whatever he might be in private life here he was the husband of Mrs. Bumpus, as the club members all thought of him as the husband of their president.

Judge Bumpus gave a most interesting talk on Spain, telling of his personal experience while traveling through that country. His easy conversational way of telling of the manners and customs of the people, places of interest and anecdotes of travel proved most entertaining and instructive.

A HALT BY DOWIE

Thanges His Mind About Entering Zion City

DECIDES TO BRING SUIT

Determined Not to Relinquish Honors as "Elijah III" -- Will Be No Compromise With Voliva -- Great Crowd Greets Him

Chicago, April 11 .- Dr. John A. Dowie will not advance on the "hosts of Zion" as suddenly as he expected. Last night, after a long consultation with his legal adviser, Emil C. Wetten, Dowie gave out the statement that it might be several days before he saw fit to enter the city which he had founded.

The "first apostle" arrived here yes terday, completing the last stage of his long journey from Mexico to the city of Zion, where he is to face his accusers. An immense crowd was at the station to greet the self-styled "Elijah III." He was in the best of spirits. Escorted by a number of loyal followers who had boarded the train at Englewood, a suburb of Chicago, he made his way to the end of the train and stepped down on the station platform.

The moment the crowd caught a glimpse of him a cheer arose and he was greeted with an assortment of wel- for the ensuing year. comes, ranging from the reverent "peace be with you" of the Zionists to the more jocular "Good boy, Dowie," of the members of the curious throng. Just what means will be taken to reinstate the "first apostle" in Zion City dld say most emphatically that there would be no compromise with Voliva This same determination on the part

of Dowie's opponents at Zion City was nanifested last night when, at a co ference of the business committee of 12 appointed by Voliva some time ago, it was decided to send to all branches of the church throughout the world the following order:

"Officers, members of the Christian Catholic Apostolic church are directed not to send any more money for Mexican land warrants."

Regarding the order, W. H. Piper, one of the overseers, said: "The step was taken because of a desire to completely block Dowie's Mexican scheme and at the same time remove all chances of Patriots' Day, April 19. his access to funds. The Mexican contributions are the last resort, control of them being in the hands of Deacons John A. Lewis and Fielding H. Wilhite, Dowie's friends, who are officers of the plantation association."

OUR HOSPITAL

(Legal Title: City Hospital of Quincy) INCORPORATED 1889

The Trustees of the City Hospital of Quincy earnestly appeal for donations and bequests for the Endowment fund. This now amounts to over \$60,000, but a fund of at least \$100,000 is urgently needed. Five Thousand Dollars (\$5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need, will be most gratefully received.

The Secretary, Timothy Reed, Adams St., Julicy, or the Treasurer, Richard D. Chase, Savings Bank Building, Quincy, will be very glad o confer with any one or to answer any inquiries.

Young Men's Christian Association OF QUINCY, MASS.

Clegal Title - Incorporated 1892.)

The Directors of the Young Men's Christian Association of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor. The Treasurer, William F. Cummings, 7 Clive Street, Quincy, or the General Secretary, ERNEST G. Gay, will be happy to answer inquiries.

LABOR LEGISLATION

New Move Has Backing of the American Federation

Washington, April 11.-If the action n this city of the Central Labor union meets with the approval of the other central bodies throughout the country, there will be established in this city a labor legislative committee to look after all matters of legislation in congress affecting labor one way or the other. The proposed legislative body will be composed of a representative from each of the 559 Central Labor unons in the United States.

Simultaneously with this announcement there was issued by President Gompers of the American Federation of Labor a circular letter to all trade unionists of America calling their attention to and quoting in full the recent list of grievances presented to Speaker Cannon, Senator Frye and President Roosevelt, which, it is stated, "is expressive of the decision which organized labor of America has made manifest in its various conventions and union meetings." Gompers' letter concludes as follows: "Let the inspiring watchword go

forth that: We will stand by our friends and administer a stinging rebuke to men or parties who are either indifferent, negligent or hostile and, wherever opportunity affords, to secure the election of intelligent, honest, earnest trade unionists with clear, unblemished, paid-up union cards in their possession."

Almost a Lynching at New York New York, April 11.-Miss Isabel Oliver of Alabama was hanging on a strap in the centre of an elevated railway car last night when a negro named Albert Trott lurched against her. On her requesting him to be more careful he cursed her and then struck her in the face, splitting her nose, blackening both her eyes and knocking her down. Instantly fully 50 men rushed on Trott, raining blows on him and shouting "lynch him." Trott defended himself until a station was reached when a policeman boarded the car and after a hard fight dragged his prisoner out. Trott was taken to the station house, followed by a mob of several hundred men, who were only held back by the pistol of the policeman. In the station house Miss Oliver attempted to stab the prisoner with a hatpin, but was dis-

OPERATORS' NEW OFFER

It Applies Only to Questions of Wages and the Adjustment of Complaints--Miners Will Fight Hard For Other Demands

New York, April 11 .- The anthracite operators, at their conference with the mine workers here, declined the proposition to have the conciliation board arbitrate all grievances submitted by the wage workers and made a counter proposal that the commission appointed by President Roosevelt in 1902 be requested to decide whether any changes in conditions in the hard coal regions have occurred which require that the award of the commission should be

The mine owners limit the inquiry to two grievances-wages and a method for the adjustment of complaints. The miners may give the operators an answer tomorrow, when another conference between the sub-committees will be held. In the meantime the miners' committee of 36 will hold sessions and agree on a reply.

In connection with yesterday's conference Chairman Baer of the mine owners' sub-committee made public a letter sent to the committee by the independent operators in which they give their views on the situation and express their firm conviction that any agreement to arbitrate with the United Mine Workers will be an unjustifiable surrender to anarchy and mob violence." The letter came as a great surprise to the miners and did not tend to bring the contending parties closer to-

While miners and operators are still far apart, confidence is expressed on all sides that a peaceful settlement will be brought about. There is every indication that the counter-arbitration plan will not be accepted by the miners as presented, although they view with favor the operators' selection of the an thracite strike commission. The old tribunal will be accepted by President Mitchell if he can induce the coal companies to widen the scope of the submission to be made.

The endeavor of the operators to eliminate all the miners' grievances City Square, with the exception of those of wages and the adjustment of complaints was a keen disappointment to the miners and if their attitude can be taken as an indication of their action, they will fight hard to have some of their other demands taken up, such as an eighthour day, the weighing of coal and the

check-off. A paragraph in the operators' proposal to the effect that any party de siring shall present his claims in writing to the commission is believed to have been inserted by the operators so that non-union mine workers may go before the commission and present complaints, as they did during the sessions of the strike commission in 1902-3.

After the proposal had been read Mitchell asked whether under the plan the anthracite operators would have the privilege of asking the commission to reduce present wages and he was informed by one of the coal presidents

that they had. President Mitchell did not know that the independent operators had sent | 653 Washington St., corner South St. a communication to the presidents of the coal-carrying railroads opposing arbitration. He first learned it after returning to his headquarters. When a copy of the letter was shown him he would not comment on it, but it is believed that he will not let the communi-

cation go unnoticed. Railroad Traffic In Coal

DAMAGE BY STORM

Many Vessels Met With Disaster Off New England Coast

Boston, April 11 .- The storm which passed over New England during Monday night and yesterday was one of unusual severity for the month of April, not only because of the combination of wind, and the snow, sleet and rain which formed the precipitation, but also in the extent of damage done to inland and marine property.

Telegraphic communication in Maine was interrupted by the throwing down of poles, and reports from coast points In using our corporate bond have accounts of vessels driven ashore, sunk, or dashed to pieces on the rocks. The velocity of the wind varied from 24 miles an hour at inland points to 48 miles an hour at Block Island. The temperature was not extremely low, varying from 30 degrees at Northfield,

The worst accident reported was that are called upon to furnish bonds of the schooner D. Gifford of Boothbay Harbor, Me., which was wrecked on the rocks in Gloucester harbor. Her crew was rescued by lifesavers with great At Kittery, Me., schooner Marion Dra-

er was blown ashore and after she had een pulled off by two tugs, capsized. Her crew escaped. The schooner may be saved, as she was towed into a cove. At Swampscott, Mass., the small sloop Letna was wrecked on Phillips beach. At Provincetown four small vessels were sunk and another was

Oregon have been seized by the government inspectors. Among the goods seized were pieces of valuable silk, many curios and expensive china sets, along with higher priced specimens of ivory. The custom house officials are pursuing their inquiry and expect to make other seizures. They have sent telegrams to many places asking that suspicious packages be intercepted and held until an investigation of their coutents can be made.

Bailey Discusses Rate Bill

Washington, April 11.-For more than four hours Mr. Bailey held the un divided attention of the senate with the end in view of establishing the sound ness of his contention that congress has power to deny to the inferior United States courts the right to suspend the orders of the interstate commerce commission pending the final decision of cases arising under the proposed railroad rate law. This he undertook to do by citing innumerable decisions of the courts and quoting many authorities.

An Ushappy Woman's Deed Los Angeles, Cal., April 11.-Mrs. Kate B. Raymond, wife of Frank K. St. Petersburg, April 11.-Rumors of a complete reorganization of the cabinet are everywhere current. It is believed that the fight between Premier Witte and Interior Minister Durnovo will result in the retirement of both. Yermoloff, former minister of agricult ture, who holds extremely liberal views, is regarded as the most likely to be appointed as Witte's successor in the premiership.

Five Victims of Explosion

The place is practically deserted, but amid the ruins and a semi-darkness Illuminated from time to time by vivid flashes of lightning, a few of the inhabitants go about hungry, with throats parched with smoke and dust, seemingly unable to tear themselves away from the ruins of what so recently were their homes. Free Trial Electric Lighting.

In order that our citizens who never have had electric lights in their nomes or stores may become acquainted with the many advantages of their use, the Quincy Electric Light & Power Company makes this proposition. To all who make application before April 30th, 1906, and who will

pend \$20 or more for wiring and installing wires for at least five outlets, the Company will furnish by meter at regular rates, \$20 worth of electric current free of charge. This concession will go far toward paying the entire cost of wiring.

For obvious reasons the Company confines this offer to those whose premises are so situated that building new lines or setting new favor the elevation of the railroad track poles will not be necessary. Per order of Directors.

\$30,237.42

Boston paying on valuation; other cities A full line of Ladies' and Children's Hats winning it easily for Quincy. 1-3 on valuation; 2-3 on population.

\$37,988.12

Boston on valuation; other cities on

consumption.

\$34,693.67

Boston on valuation; other cities 1-3 on valuation; 2-3 on consumption. \$36,511,68

All cities 1-2 on valuation; 1-2 on consumption.

\$37,797.84

Boston 2-3 on valuation and 1-3 on con sumption; other cities 1-3 on valuation; 2-3 on consumption.

\$36,679.85 All cities 1-3 on valuation; 2-3 on consumption.

\$44,901.52

All cities on consumption. Those cities whose percentage of val-

uation is larger than their percentage of consumption naturally favor assessments based upon consumption. This is why the assessment of Malden is reduced, why the assessment of Newton is reduced; why the assessment of Milton is reduced, and other rich towns. Kindly remember that the mainte-

nance of the Metropolitan system (the supple of water) is but a small part of the annual cost. Over fivesixth of the total is for arst cost and interest, which should be levied upon Admission, 25c., 35c. and 50c. valuation as taxes usually are. In 1905 the amount required for the Metropolitan sinking fund was \$513,568.32; and the amount required for interest was

\$1,335,393.91; a total of \$1,848,962.23, while maintenance required but \$328,-

A liberal use of water about a man's house both inside and outside should be encouraged. If the maintenance only was assessed on consumption Quincy would have no just grievance, but to assess cost on consumption is another thing. It crowds the poor towns and makes it easier for rich towns.

Ephriam Littlefield of Avon has commenced action against his wife Lillian I. Littlefield of Quincy for divorce. It is a complicated affair as will be seen from the Brockton Enterprise.

Now Wants Divorce

A battle royal raged by women, with hearts and dollars as the stake, the point in dispute settled by the United States Supreme court, now enters the divorce court for yet another encounter. Mrs. Alice M. Abbott, 49 Maple avenue, Brockton, and Mrs. Lillian I. Littlefield of Quincy were the combatants, the fight beginning when Mrs. Abbott brought action against Mrs. Littlefield to recover for alienation of the love and affection of her husband, William A. Abbott, the ad damnum cited at \$5,000.

She won and was awarded \$500. Attorney John McCarty of Brockton has handled Mrs. Abbott's interests and is also representing Mr. Littlefield in his quest for a divorce. The case began in '02. It opened with the action brought by Mrs. Abbott for alienation of her husband's affections. Hung up in court for a long time because of legal technicalities, eventually her case was

WRECK OF THE SALLIE B

Brave Efforts to Keep Schooner Afloat Wert Useless -- Crew of Six Took to Long Boat, but Only Two Lived to Reach Land

Boston, April 12 .- The Bangor schooner Sallie B, with four of her crew, was among the toll exacted from the coasting fleet by the recent storm. Fifteen minutes after the little vessel plunged beneath the waves off the Maine coast Tuesday a gigantic billow swept three of the six men from the long boat into which they had all hastily jumped, while the fourth victim died in the boat from exposure seven hours later.

Two two survivors, Captain Hopkins of Brewer, Me., and John Mulhain, a native of Finland, were picked up yesterday off Cape Porpoise by the Portland steamer Bay State and landed here last evening in a pitiable plight.

The dead men are: Mate William Campbell, Cook Arthur L. Gray, Seaman Joseph Campbell and Seaman John Nettcher. The body of the last named was taken from the little boat by the Bay State after the living had been swung on board.

Lying on a stretcher on the wharf last evening, just before being removed to a hospital with his arms and hands fearfully swollen, Captain Hopkins told the tale of the loss of his vessel and the death of his men in words which were frequently broken with sobs.

The Sallie B, which was one of the oldest coasters in the fleet, sailed from Port Johnson a week ago with a cargo Every one of us should think a of 345 tons of coal for Bangor. The ing, became too severe.

Running along shore the Sallie B passed Seguin at 8 o'clock and headed for Monhegan. At 11 o'clock Monday night the Sallie B was almost inside of Monhegan island and within 25 miles of safety, when the gale switched around to the northeast and brought with it snow and sleet.

Two Men and a Woman Safely

Journey Fifty Miles . Springfield, Mass., April 12.-After a successful balloon trip, during which they covered the 50 miles between Pittsfield, Mass., and Somers, Conn., in just three hours, Julian P. Thomas and his wife and Charles Levee, a professional aeronaut, arrived here last night.

LONG BALLOON TRIP

They made a successful descent near the village of Somersville at 6:10 o'clock last evening. Thomas said it was the longest balloon trip he has ever made in the course of his experiences as an amateur aeronaut. In making the ascent at Pittsfield, the

balloon went up 1000 feet and was caught by a current which carried it toward the Hoosac range. A thick cloud soon interfered with observation and to escape this Levee descended to a height of about 500 feet. Later, as the sky cleared, all the ballast and even the life preservers in the car were tossed out until the balloon reached an altitude of 5000 feet. The course was generally about southeast by south. The balloon passed a little southwest

of Springfield and crossed the Connecticut river, passing over Enfield, Conn., and gradually nearing the earth asit approached the town of Somers, when it sank gradually to the ground, touching so easily that all the occupants were able to alight with scarcely a perceptible shock. The balloon was undamaged and will be shipped back to Pittsfield for use in other flights in the near future. The gas bag is of 38,000 cubic feet capacity and is one of the largest in use in this country. It carries a car easily capable of accommedating three persons.

Milk From Diseased Cattle Portland, Me., April 12.-That the

health of residents of Portland is jeopardized by the condition of cattle from which their milk supply is obtained is the statement made in a communication from the Portland board of health to the state cattle commissioners asking for the inspection of all cattle from which the Portland supply is received. It is estimated that the number of diseased cows supplying milk to Portland is somewhere is the neighborhood of 250 to 280.

Arsenic In Batchelder's Stomach Montpelier, Vt., April 12.-A special

grand jury has been summoned to meet this afternoon to investigate the case of Ray Mullin, a former Red Cross nurse, who was bound over in the lower court on the charge of murder by administering poison to Fred Batchelder at Barre. The regular grand jury will not meet until next September. Chemists who have been examining the stomach and intestines of Batchelder's body are reported to have found a trace

Swift to Have Another Trial

Boston, April 12 .- The second trial of Timothy J. Swift, former custodian of the federal building, charged with recelving money for obtaining government contracts, resulted, like the first, in a disagreement of the jury, the 12 ter a session of nearly 10 hours. District Attorney French at once announced that a third trial will be held within a month.

Investigating Suspicious Death

liam Harwart, aged 23, of this place died under circumstances which the local authorities are investigating. Harwart was employed in a silk mill here and it is said that on receiving his week's pay he went to a saloon, where he had two drinks. He soon complained of feeling ill. Gradually he grew worse and finally convulsions set in, causing death.

Explosion on Gasolene Boat

Boothbay Harbor, Me., April 12 .- Joseph Welsh and George Winters, on board the gasolene fishing boat Day Dream of Gloucester, Mass., saved their lives with difficulty off here. A tank on the boat containing 50 gallons of gasolene exploded, and within a few minutes the craft was in flames. Walsh was in the cabin at the time and was severely burned. The Day Dream is a total loss.

May Exceed Contract Speed Rockland, Me., April 12.-In her standardization trial over the Owl's Head course the cruiser Washington covered her fastest mile at the rate of 22.52 knots an hour. The builders of the cruiser, the New York Shipbuilding company, express confidence that the cruiser will be found to have exceeded her contract speed when the regular speed trial is held. Commissioners Remain in Office

Fall River, Mass., April 12 .- A tempozary injunction, restraining Mayor Tracy of Taunton from deposing E. N. Clarke and D. R. Brownell, license commissioners of that city, was issued in the superior court here. The commissioners were ordered to retire from office by the mayor as the result of a dispute regarding the license policy.

Got All the Law Allowed Dedham, Mass., April 12.-William A. Fowler, aged 45, who was indicted on charges of breaking and entering

and being an habitual criminal, was sentenced on the first charge to 20 years in the state prison. Fowler has a record of confinements in various institutions dating back to 1886, and the sentence imposed was the maximum.

Firebug Sent to Prison Boston, April 12.-Llewellyn Newbert, the self-confessed firebug, was sentenced to state prison for a term of not more than 10 years nor less than eight by Judge Bond. He set fire at different times to the property of the Boston and Maine Railroad company in Charlestown. He gave himself uy to the police recently,

Dowie Intends to Fight to Regain Absolute Control

TO FILE CHANCERY BILL

Prohibiting New Leader From Handling Estate--Has a Bad Thousands of others have. Opinion of His Son

Chicago, April 12 .- John A. Dowie and his counsellors today will begin the fight to regain the \$20,000,000 said to be involved in the control of Zion City by filing in the courts a bill in chancery, petitioning that the transfer of Zion City properties made to Deacon Granger by General Overseer Voliva. as attorney for Dowie, be set aside.

The grounds upon which the petition will be based will be that Voltva, Granger and Mrs. Dowie endeavored fraudulently and illegally to despoil the 'first apostle" of the property. The court will also be asked to issue an injunction commanding that Voliva be prohibited from in any way handling the estate.

These legal steps are only preliminary, however, for Dowie and his friends intend to go to Zion City soon, according to Deacon Peters, who, to gether with Deacon Lewis, has been a constant attendant and adviser of the 'first apostle" since he left Mexico on his trip north.

Dowie has lost an atherent in Miss Elizabeth McLennan, who has accom panied Dowie as a nurse on the long journey to regain health. Miss McLen nan went to Zion City after a heated interview in which she told Dowie that she could not longer remain as a mem ber of his party, because she believed that Mrs. Dawie and Gladstone Dowle Real Estate and Insurance of all kinds had been shamefully maligned by the 'first apostle" in a recent speech.

In referring to a threat which it is asserted that Gladstone Dowie made, in timating that, if his father did not cease in his attacks on Mrs. Dowie, Gladstone would reveal certain deeds said to have occurred in 1877, in Australia, Dowle said:

"I remember nothing particular that occurred in the year 1877. I know of no reason why any exposure of my acts during that period of time should cause me to be afraid. Coming to think of it however, there is one thing that hap pened in the year 1877 which I greatly regret, and that is that the Lord gave unto me a son, whom I named Gladstone. All my life I've tried to give him counsel and supply him with money, but my efforts in leading him in the paths that I would have him walk have been without avail. Now, unless this young man ceases making these threats and insinuations, I will be forced to reveal his true character to the world; it will be a story of degen eracy that will be shocking."

Enormous Bill For Drink

Washington, April 12.-Germany's drink bill is explained in letters to the bureau of manufactures, which show Hack, Livery and Boarding Stable that each inhabitant consumes a yearly average of 61/2 quarts of wine, 1291/2 quarts of beer and nine quarts of brandy. For a population of 60,000,000 people the liquor expenditures are \$672,588,000. By contrast, German expenditures for schools were \$99,722,000, for working people's insurance \$104,244. 000 and for the army and navy \$203,

To Promote Military Training London, April 12 .- As a sequel to Lord Roberts' advocacy of universal voluntary military training, the White Star, American, Atlantic Transport, Dominion and Leyland steamship lines have decided to give their employes in the auxiliary forces precedence in the matter of holidays and an extra week's pay with full leave, depending on attendance at encampments.

CASTRO RETIRES

Troublesome President of Venezuela to Take Needful Rest

New York, April 12.—General Cipriano Castro has retired temporarily from the presidency of Venezuela. General Juan Vicente Gomez, first vice president of the republic, is the present executive head. This information was contained in an official dispatch received from Caracas by Carlos Figieredo, Venezuelan consul general in this

The official announcement gives as Castro's reason for resigning that "he desires to retire to restful, private life for some time, owing to the strenuous work his position exacts and which he has so successfully carried on for several years."

The change took place on Monday last, when Castro issued a proclamation, wherein appeared the following "Should his temporary separation bring harmony and good will to the country. he would willingly make his retirement permanent-if necessary." The dis patch also says that peace is assured in Venezzuela and that the international questions will be either amicably arranged or arbitrated.

Cipriano Castro became president or Venezuela on Oct. 28, 1899, having headed a revolution against President Andrade. Gomez, who becomes president temporarily, is known as an able military man. He aided Castro in his revolution against Andrade and is commander of the Venezuelan army.

Death of Showman Bailey

New York, April 12.—James A Bailey, 59 years of age, died at his home in Mount Vernon last night. His name s familiar throughout America and Europe as a showman and in his later years he was managing director of the Barnum & Bailey Show. Practically his whole life was spent in the circus business. Bailey was thought to be recovering from erysipelas. He had iressed with the intention of visiting New York, but the effort was too great and his death soon followed.

No Smuggling on Oregon San Francisco, April 12.-Through

the prompt action of Customs Collector Hamilton, 52 packages of goods landed from the battleship Oregon to be trans ported to the east were seized while in transit in custody of the Wells-Fargo Express company. A partial examina tion was made by Appraised Dare, suf ficient to show that the rumor of smuggling was unfounded. It is expected that the secretary of the treasury will order the goods released and forwarded to their addresses.

Shot Himself In Street Car Beverly, Mass., April 12.-His mind apparently unbalanced by anxiety over the fate of his brother, Harry B. Dowling, a gardener, aged 35 years, shot himself in the head last night while riding in an electric car bound from Salem to North Beverly. It is thought he can not recover. Dowling's brother, Frank E. Dowling, is held in jail in default of onds of \$10,000 for shooting Wildred E. Caldwell and George W. Glines at North Beverly last Saturday.

Eight-Hour Charge to Jury

Savannah, Ga., April 12.-Judge Speer at 12 o'clock last night concluded his charge to the Greene and Gaynor jury and the fate of the contractors charged by the government with frauds amounting to more than \$1,500,000, now rests with the 12 jurors who for three months have listened to evidence New and Second Hand given up to refugees.

Strike of French Postmen Parls, April 12 .- Acting under the

auspices of the Federation of Postal Employes all the postmen in one of the departments of the central office struck because no provision was made for an increase of their salaries in the budget recently voted. Several meetings of postal employes were held last night, at which it was decided to continue the strike.

Fighting Education Bill

London, April 12 .- Thirty-two bishops of English and Welsh dioceses, at a meeting in Lambeth place, expressed the conviction that the education bill as it stands must be unhesitatingly op posed. It is probable that Roman Catholics will meet in all the large towns for the purpose of protesting against the enactment of the bill.

Debate About Exhausted

Washington, April 12 .- In the senate Mr. Aldrich expressed the opinion that the end of the general debate on the railroad rate bill would become apparent before the end of the present week and that then an agreement upon a day for a vote could be reached.

Naples, April 12 .- Reports of the destruction of two towns, Sarno and Genarro, the former having a population of more than 8000, have happily proved to be without foundation. At Sarno 5000 persons from nearby vil- r 3 13 abc lages and farms have found refuge. Ottajano, where many lives were lost on Monday, is now practically buried.

There is great difficulty in ascertaining the actual condition of affairs in that part of the stricken district nearest the volcano. The tram and railway tracks are deep under sand and ashes, the roads are obliterated, and even the r 9 13 abc fishermen who ply their calling on the r 10 08 abcdef Bay of Naples are afraid to venture r 11 13 abc out on the water anywhere in the vicinity of Vesuvius.

All these conditions make it difficult to give an intelligent estimate of the r 7 43 abc oss of property. One estimate is that r 8 43 abc \$20,000,000 damage has been done and that 50,000 persons have been rendered homeless. It is figured that more than 700 lives have been lost. Everywhere in Naples and Castellammare and in the lesser towns out of the danger zone are beggared refugees who, but a few days ago, were prosperous and happy. though living almost underneath the shadow of that perpetual menace, the volcano of Mount Vesuvius.

For these people, whose homes and crops have been destroyed, there is little consolation in the statement of scientists that ultimately the valleys and trains stop as follows: hillsides will become as fertile as ever b Nortoik Downs, they were. Until communication can c Atlantic, be restored and search of the houses in the afflicted district can be made, it will 6 Pope's Hill. be impossible to accurately determine how many people have perished by this

The people of Naples, alarmed by what has happened, have deserted their shops, and the manufactories are nearly all closed. The crowds are in a temper a spark to start a conflagration.

The arrival of King Victor Emmanuel and Queen Helena has done much to restore calm. They have been received with great joy, which turned into delirium whenever the sovereigns left a hospital after a visit to the wounded there. The people cannot find words in which to express their gratitude that both the royal palaces of Cappo-

Scientists express the opinion that the volcano has spent itself. All the papers recommend that the public be calm, pointing out the improved condition of affairs. The papers also eulogize Director Matteucci for his courage in returning to the ruined observatory on Mount Vesuvius and sending thence messages of encouragement and expressions of confidence that Vesuvius soon will cease its activity. All the theatres, cafes and places of amusement have been closed. Before the sacred images in the streets many candles are kept burning, while smaller images are carried in the thoroughfares, often being

with candles. The distress among the tens of thousands of fugitives is appalling. The government has forwarded supplies of food and money, several of the Italian cities have done the same, and private citizens are contributing money for the assistance of the sufferers, but more

Beef and Brawn.

It is said of Kean, the actor, that he ate mutton before playing the part of lover, beef before playing that of murderer and pork before assuming the character of a tyrant. That may be merely a story or a fact, but it is a well known truth that beef will enable more exhausting muscular work to be done than will mutton, so there may be tleman, miss: 'e said 'e was your brothsomething in the "roast beef of old England." In the eighteenth century this was one of the English "gods."

Free Trial Electric Lighting.

In order that our citizens who never have had electric lights in their homes or stores may become acquainted with the many advantages of their use, the Quincy Electric Light & Power Company makes this proposition. To all who make application before April 30th, 1906, and who will

spend \$20 or more for wiring and installing wires for at least five outlets, the Company will furnish by meter at regular rates, \$20 worth of electric current free of charge. This concession will go far toward paying the entire cost of wiring.

For obvious reasons the Company confines this offer to those whose premises are so situated that building new lines or setting new poles will not be necessary. Per order of Directors,

Louisianna First And Cost Less

The present prospects are, according to the view now obtaining at the Navy Department that the battleship Connecticut being constructed by the Government at the New York navy yard, will not only cost approximately \$400,-000 more than her sister ship, the Louisiana, being built by private contractors, but that the Government will lose the race which has been on since the building of the two big ships was egun, says the Boston Transcript. Just how much longer it may take to complete the Connecticut than the Louisiana, depends upon the action of Congress.

According to the latest figures at the Navy Department the percentage of ompletion reached on the Louisiana is 97.92 and the Connecticut 97.11. It was stated at the department today that after spending the allotment made for the present month, the department will have but \$10,000 to spend on the Connecticut for the month of May unless Congress meantime passes the appropriation bill and authorizes the increase in the limit of cost asked for by the GEORGE S. SILSBY, Bangor, Maine.

When Congress provided for the contruction of one of these battleships at a navy yard it was with a view of obtainng comparative figures to show whether the Government could build ships more interest by naval authorities and those interested in ship construction because of the future policy which it might bring about.

Another factor in retarding the work on the Connecticut has been the curtail-York yard made necessary by the lack of funds. It is estimated at the department that the Louisiana will be ready for delivery to the Government in from four to six weeks.

Midnight Measure Engrossed

Boston, April 13 .- The 12 o'clock bill, which permits voters of Boston and other cities of above 45,000 population to say whether or not first-class hotels ter its opponents had made a tremendous stand. Every member of the house was reached by letter or telegram before his vote was taken. Another fight is due, according to its opponents, but its friends are now confident of its final victory.

Old Treasurer Turned Out

New Bedford, Mass., April 13.-By the election last night of Henry Howland as city treasurer, Mayor Thomp son has carried out another of his threats made previous to election, that he would clean out the city officials whom he considered responsible for the muddled condition of affairs as he found them. James H. Hathaway, who had been city treasurer 28 years and who was up for re-election, was defeated by a vote of 19 to 11. Hathaway is a Civil war veteran and is nearly 84.

Resented Upbraiding

Winchester, Mass., April 13.-Daniel Lydon shot and killed himself here after having fired one ineffectual shot at Arthur O'Leary. The two men were at work together in a barn. O'Leary was mildly upbraiding Lydon for using intoxicating liquors when the latter drew a revolver and shot at him, but the bullet went wide. O'Leary fled from the barn and later returned with another man and they found Lydor dead on the barn floor with two bullet wounds in his head.

One Wife Too Many

Lawrence, Mass., April 13.-James Matthews, who is in the local jail, charged with shooting his wife, was identified by Catherine Marsden of Lowell as her husband. She says that Matthews' name is Marsden and that he married her seven years ago at Lowell. Later, according to the jail officials, the prisoner acknowledged that she was his wife. His second marriage occurred in this city last October. The condition of Mrs. Matthews is said to lic. lb be critical.

ONLY "FIRST APOSTLE" Dowie Intends to Fight For Con-

trol of Zion City Chicago, April 13 .- John A. Dowle will not give up his leadership of the Christian Catholic church and return to Mexico. He will wage a vigorous legal warfare to regain control of Zion City and later will go to Zion City and proclaim himself the only "first apostle," This statement is authorized by Dowie himself and by the lawyers who repre-

Attorney Halcy, for Dowle, said: We will advance only one condition: Complete restoration of power, temporal as well as ecclesiastical, and a demand for an absolute retraction of the slanderous statements made by General Overseer Voliva and his followers against the moral character of Dowie.

"We are preparing a bill in chancery, petitioning the courts to set aside the transfer of the property at Zion City made between Voliva and Deacon Granger because the instrument was absolutely void. Dowie revoked Voliva's power of attorney two days before the illegal transfer was made.

"Dowie will not immediately proceed to Zion City, but will remain in his apartments in the Auditorium Annex until every preliminary legal step has been taken. He will then proceed to Zion City and enter it with all the power and authority which he possessed when he last left the place."

Dowie has secured an order from the postal department directing that all mail addressed to Dowie be delivered to him in Chicago. This, it is said, will heckmate the general order sent out by Voliva ordering that no moneys be remitted to Dowie hereafter.

Washington, April 13 .- The National Playground association was formed here. It is composed of representatives from various parts of the country, interested in outdoor and athletic sports. Its object is to collect and distribute knowledge of and promote interest in playgrounds throughout the country, as well as to seek to further the establishment of playgrounds and athletic fields in all communities and direct play in connection with the schools.

Federation Not Recognized

Paris, April 13 .- In the chamber of deputies a resolution of confidence in the government was adopted, 466 to 86, on a socialistic interpellation demanding an amelioration in the conditions of postmen and a recognition of their right to federate. The minister of public works said the government would not recognize a federation of postal employes nor permit strikes. Mails are being handled promptly by soldiers.

Big Fires In Southern Town

Thomasville, Ga., April 13.-The worst fire in the history of the city visited Thomasville last night when the famous resort hotel, the Piney Woods, was burned to the ground. Incendiaries or flying sparks fired the south portion of the town just as the Piney Woods fire was under control. Three blocks of small stores were swept away. The loss is estimated at

Peter May Be Dethroned

Vienna, April 13.—Belgrade telegrams give official denial to the statement that King Peter intends to abdiate. The denial, however, does not ounteract the general belief that a serious Servian crisis is brewing. April 28 is named as the day on which the king will be dethroned and expelled unless he abdicates beforehand.

Oldfield's Wife Separated

Detroit, April 13.—Barney Oldfield, the "demon chauffeur," is once more a single man, his wife, Beatrice, having divorced him on the criminal count. The "other woman" in the case was a Bessie Holland, according to the witnesses. Oldfield paid over \$3000 permanent alimony. The decree was then

AFTER SIX YEARS

Greene and Gaynor Are Found Guilty of Conspiracy

MADE A STRONG BATTLE

Every Loophole of Law Resorted to In Order to Prevent Trial at Savannah -- Has Cost Federal Authorities \$2,000,000

Savannah, Ga., April 13.-Benjamin D. Greene and John F. Gaynor were found guilty in the federal court of conspiracy against the government. Judge Speer will pass sentence later. The jury was out 31/2 hours. The maximum sentence is an aggregate term of 17 years in the penitentiary and a fine of \$575,000, the amount of the alleged embezzlement. Minimum sentence is two years in the penitentiary and a fine of

The efforts made by Greene and Gay nor to escape trial for their connection with frauds on the United States govern ment at Savannah have been most persistent and protracted. They were indicted by two federal grand juries of Georgia on charges of being implicated with Captain Oberlin M. Carter, U. S. A., in the frauds in carrying out the dredging contract for Savannah harbor and Cumberland sound. Carter was court martialled and afterward tried and convicted, serving a term of five years at Fort Leavenworth, Kan.

The transactions in which his guilt was shown were in connection with the work done by the Atlantic Dredging company, of which Greene and Gaynor were the principal men. The first indictment them was found in 1900, charging that the government had been defrauded out of \$575,749.90.

When they were arrested in Montreal and taken before United States Commissioner Shields every loophole of the law was resorted to in order to prevent their having to go to Savannah. But they were finally ordered to appear there on Feb. 11, 1902. They did so and the hearing was adjourned for a

But in the meantime new indictments were found, to answer which they were expected to appear before Judge Speer on March 7. Neither appeared, and Judge Speer forfelted their bail bonds and issued bench warrants for their arrest. They had been admitted to bail in the sum of \$40,000 each. It was found soon after that they had fled to

The two men took up their residence at a hotel in Quebec and made no attempt at concealment. On May 15, 1902, they were arrested on a warrant issued by Judge Lafontaine at Montreal and taken to that city. Legal proceedings in their behalf, however, resulted in their return to Quebec, still under

It was in August, 1902, that Justice Caron of the superior court of Quebec ordered their release from custody Further proceedings by the United States were taken unsuccessfully to obtain the extradition of Gaynor and Greene, and finally the case was ap pealed by Washington to the British

privy council. The judicial committee of the privy council decided the appeal on Feb. 8, 1905, in favor of the United States, reversing the judgments of Caron and criticising his action in releasing the prisoners as an "extraordinary intervention." This decision merely left the prisoners under remand, as before

Caron's interference. The proceedings were then continued before Judge Lafontaine, who went into the merits of the case and decided in favor of the United States, and ordered the men back to fail to await extradition. This, however, did not end the controversy, as an application for a writ of habeas corpus was made. This petition was, after some discussion, quashed and there was nothing else for the men

to do but return to this country. On Oct. 2, 1905, the warrant for their extradition was signed, on Oct. 7 Gaynor and Greene reached New York, and on Jan. 11, 1906, the trial just ended was begun. The case against the two men cost the government over \$2,000,-

Sun Shone on Tornados

Wichita, Kan., April 13 .- A tornado struck Stafford last night, injuring several persons and demolishing several houses. The storm came from the southwest and jumped a little further to the northeast, demolishing several houses and damaging others. Four miles west of Stafford another tornado blew down several farm buildings. The sun shone brightly while these storms were blowing. Another tornado is reported at Bushton.

Insurance Measures Passed

Albany, April 13 .- Four more of the bills recommended by the special insurance investigating committee were passed by both houses of the state legislature yesterday and lack only Gov ernor Higgins' signature to make them law. In addition to these four, the as sembly passed the "big bill," generally amending the insurance law, and sent it to the senate for concurrence.

Collection of Ashes.

The collectors of ashes found a number of barrels awaiting them in the Quincy Point ward on Thursday, but not near as many as in the Atlantic and Wollaston wards. There does not seem to be a general understanding Real Estate, Insurance, Mortgages about the collection of ashes in some wards as yet. When the system is better understood it is believed that there will be plenty to do in all wards.

The teams are at work in the South Quincy ward today and tomorrow they will be at West Quincy.

AN ECHO.

How to Measure the Distance From Which It Is Reflected.

There is scarcely anything in nature that exerts the fascination over every one alike than does an echo, and comto tell every time: Holding a watch in your hand, shout

a single syllable, as "Ho!" or "Ha!" and count the number of seconds from the time you shout till the sound comes back to you. Now, sound travels at the rate of 1,125 feet a second, so the number of seconds that elapse multiplied by 1,125 will give the distance in feet traveled by the voice in going to the object and back to you again, and one-half of that number will be the number of feet away that object is. Of course the object may be only a few hundred feet away, in which case the sound will come back in less than a second, but you may determine the distance, nevertheless, by calling a single syllable-"Ha!"-and calling it again as you hear the echo, not before or after it, but just with it.

With a little practice you can do this. Repeat the call ten or twelve times, counting the seconds between the first call and the last echo. Suppose, for example, that the time is seven s onds and that you called the syllable tenths of a second, and the distance, July 6. found in the same way as before, ig about 394 feet.-Exchange.

WATCHING THE BUILDERS. Fire Insurance Folks Keep an Eye

on Construction Methods. A builder speaking of the watchfulness of fire insurance companies in New York city in the erection of buildings in that city says:

"Insurance companies in placing polieles upon so called fireproof buildings do not accept the word of the builders and contractors, nor rest content with he evidence submitted by the city ouilding department. Their own experts make an examination. Such an examination is made not at the behest of politicians or in the interest of a group of men, but by technical experts whose reports must be exact, detailed and exhaustive in the interests of shrewd business men. The insurance underwriters have their own corps of n the field all of the time. When a South Quincy. large building is in course of construction in New York these experts of the underwriters watch every stage of the development. They have no power to stop work on the building as city building inspectors have when the building laws are not complied with, but they possess another sort of check which is fully as effectual. The builders, contractors or owners, or all three, are notified that further insurance policies will not be made on the building until certain remedies are made."-

A vote of thank was extended by the club to the retiring board of officers. The speaker of the evening was F: A. Bates, of Braintree, who spoke on "Enemies to fruit and shade trees." Mr. Bates gave a most instructive lecture on the brown tail and gypsy moths, describing them in their different stage of growth. He showed stereopticon views of parts of Medford and other towns north of Boston, where devastation. He said that in 1900 this TICKETS. . . 25 Cents. present. What the Green Box Contained

By INA WRIGHT HANSON

Copyright, 1906, by Ruby Douglas

This is the letter that I wrote: Dear Mrs. Hynes-After you had left my rother's office I went to the corner table 11c. lb (over which hangs a mirror) to get my hat. Near the hat I found a nickel, which was not there when I laid my hat down. Therefore I conclude it is your property and am inclosing its equivalent in stamps.

Yours most faithfully.
WILLIAM BEATTY.

This is the letter that she wrote: Dear Mr. Beatty-The nickel, as you surmised, belonged to me, and I thank you for your thoughtfulness. But, as its loss was the result of my own careless-ness, I feel that no more than 3 cents is my due, and I return herewith one stamp. Again thanking you, I am yours sincerely
L. M. HYNES.

I had several times from my studio observed Mrs. Hynes enter my brother's law office. The rather sad brown eyes, shining rolls of dark hair and an unusual grace of carriage attracted me. So, on the morning of the letters, I happened to be in the office when she came. was presented and allowed to remain.

Back in my studio again, I was in ossession of these facts concerning her: Left penniless by an invalid husband, Mrs. Hynes was about to seek some employment when her only relative, an uncle, died. There seemed to be no will, so she had come here from a distant town to reside in her uncle's handsome home and enjoy his ample fortune. Then she had discovered the will, which gave everything to one Harry Armstrong, whose father had been a friend of the deceased. She had laid the matter before my brother, bidding him search for Armstrong. My brother censured her for her exaggerwas something splendid about it. Then man. followed the answer to my letter, which showed that under her serious demeanor there ran a vein of fun.

Soon came a happy evening, when I was invited to call upon her with my brother, who had something to report concerning the unknown heir.

We found Mrs. Hynes looking rather article. frail in a delicate green gown-frail, but charming. I had been wondering what her name was, and I did not like to ask Jim.

"Her name is Lillian," I thought. Was ever name so fitting?"

Then as she and my brother discussed their business affairs I took in the surroundings. We were in the library, furnished in green, with daring dashes especially. It held but two articles-a vase of autumn leaves and a small green box. The latter seemed familiar to me somehow. As we were bidding, her good night after a very pleasant evening I observed the box more closely. It bore a padlock about'as big as the width of my knife blade.

"You would like to see the contents?" queried Mrs. Hynes. "Some time, peryour eyes must be anointed with the salve of fancy."

There were other evenings after that when I visited Mrs. Hynes alone, and each time I went away determined I ever saw," I was beginning, when to her the state of my feelings. One evening as I waited in her library, turning the matter over again in my mind and gazing at the green box, suddenly discovered of what it reminded me, and at the same time I knew whom Mrs. Hynes herself was like.

"I've found out about the green box." I observed, when she was seated near

There was a strange note in her soft laughter.

"When I was a boy," I began, "I went to school at Glenbrook, where my parents lived, not many miles from here. We moved away from the place when I was fourteen and my chosen playmate, Ludema Sears, was twelve. Your eyes are exactly as I remember hers to have been, except yours look the experiences of a none too happy naturity. She had the palest yellow hair I ever saw. One day she brought to school a little green box. This one looks like it, though if we had the other one to compare with this there would possibly be quite a difference. Well. she opened her box when the teacher's back was turned, and I saw inside two small but very red apples. Of course I supposed one was for me, but at recess she gave it to Willie Henderson. I feel quite angry and reckless now when I think of it."

The firelight was bringing a most pale cheeks. "And what happened then?" she ask-

ed softly. "Willie Henderson got licked, and the teacher settled with me quite abundantly later." I added.

"What became of Ludema?" "She has been dead a good many

"I am keeping tryst with a ghost," she said. "How dare you, a mortal, interrupt?"

"Grant me pardon," I begged, bowing low before her. "I bring news from the world.'

Her manner changed. She was a practical woman again, with a possible poverty staring her in the face. Her lips lost color, but she said steadily:

"Harry Armstrong is found." "Found-and a gentleman. You are neither a rich woman nor a poor one. He will take but half, and he is handsome, and he wants to meet you.'

Wandering Needles.

In one of the medical journals a surgeon recorded some years ago a strange instance of the wanderings of a needle in a lady. The patient called upon him, stating that the greater portion of an ordinary sewing needle had broken in the first joint of her left thumb. The surgeon could plainly feel the needle point, but after ineffectual attempts at the extraction of the foreign body he recommended that nothing further should be done lest the attempts to remove it might result in greater injury to the joint. About a year afterward, however, the patient called upon him to inform him that a day or two previously she had felt a pricking sensation of the right forefinger, and, having broken the skin, she without difficulty extracted the portion of the lost needle from the point of the finger. Thus the needle traveled from the left thumb along the arm, across the chest to the right arm and down the latter to the finger, where it was extracted .-Chambers' Journal.

OUR HOSPITAL

(Legal Title: City Hospital of Quincy) INCORPORATED 1889

The Trustees of the City Hospital of Quincy earnestly appeal for donations and bequests for the Endowment fund. This now amounts to over \$60,000 but a fund of at least \$100,000 is urgently needed. Five Thousand Dollars (\$5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need, will be most gratefully received.

The Secretary, TIMOTHY REED, Adams St., ulncy, or the Treasurer, RICHARD D. CHASE, avings Bank Building, Ouincy, will be very glad o confer with any one or to answer any inquiries.

OF QUINCY, MASS.

(Legal Title - Incorporated 1892.)

The Directors of the Young Men's Christian Association of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor.

The Treasurer, William F. Cummings, 7 Clive Street, Quincy, or the General Secretary, Ernest G. Gay, will be happy to answer inquiries.

PERMITTING CHILD LABOR AN ECO.

Strength Is Permanently Exhausted

Ruskin was of the opinion that let

man once overwork, by ever so little

and he has forever diminished his ordi

nary working capacity. Recent scien-

tific experiments have proved this the

ory true, at least in basis and implica-

tion. When some years ago Jane Ad-

crusade against the evil of Illinois

child labor, their strongest plea and ar-

gument was based on the knowledge

that the child worked too soon makes

but a poor adult worker, the zest and

freshness of his productive or creative

energy, as the flower of his youthful

strength, having been exhausted in the

period of premature toil. Slight obser-

vations will confirm this knowledge.

Watch the young people but recently

All these facts are well known, yet

there are few economic mistakes more

prevalent than that of allowing ambi-

tious children, particularly, perhaps,

ambitious boys, to go to work too early.

Not only is this true of the poor, whose

children must become wage-earners at

ated work before and after school, on

Saturday, sometimes even on Sunday,

for the sake of a little money not sore

The question of vacation work is a

little different, but even this is of

doubtful value. Playtime, time in

The theory that "a boy is better at

work than idle and getting into mis-

chief" may contain some truth, espe-

cially for the parents, but it is at best

a dangerous doctrine, scarcely to be

encouraged. The growing boy doing

full school work has small chance of

much idle time unless marked by the

speciously brilliant mentality that fa-

cilitates the absorption of surface

knowledge. In such case he should be

especially guarded from the danger of

overwork in any direction, while dur-

ing vacation season idleness—as mean

ing total release from accustomed du-

ties-is urgently needed. Extra work

almost inevitably means a regrettable

though perhaps imperceptible decrease

of the reserve vitality, a corresponding

decrease in the probable good work of

the future. The boy may not at once

Alleged Murderess of Northy on the Witness Stand

*LIKED HIM VERY MUCH"

Sat In Hammock With Young Man, but There Was No Impropriety--Says She Was Not Jealous of Miss Carey

Augusta, Me., April 14.-Through practically all of Friday's session of the Kennebec county supreme court, Mrs. Alice F. Cooper, who is charged with the murder of Charles Northy, occupled the witness stand. She was called by her counsel to tell her story of her relations with young Northy, who was | her close friend, and at one time a member of her household.

Mrs. Cooper bore the ordeal of the direct examination with apparent ease. She replied readily and coolly to the questions of her counsel and seemed not in the least concerned at the stare of the hundreds of persons who made up her audience in the courtroom.

black, the plainness of which was relieved by no touch of color, the garb serving to accentuate the flush which at times mantled her cheeks during the giving of her testimony.

Mrs. Cooper, who has been credited by witnesses for the prosecution with manifesting an undue fondness for Northy, did not deny that she liked the young man very much, but she declared that there was no element of impropriety in her affection. She said she thought as much of him as she did of

Regarding the "blueberrying" trips, to which frequent reference has been made in the testimony of the state's witnesses. Mrs. Cooper said that her children always accompanied her and not once were she and Northy separated from them. She admitted that she had sat in a hammock with Northy on several occasions, but she denied that she had ever embraced him or that she told him he did not know how to sit in a hammock with a woman, as testified by one of the government witnesses. She said she had strolled with Northy hand-in-hand, but that she never went arm-in-arm.

Mrs. Cooper said that Northy once wanted her to run away with him. She was afraid of him and told her husband about Northy's proposal. Cooper replied that Northy must be foolish. The witness testified that Northy told er all that transpired between Miss Marion Carey, the girl to whom he was attentive, and himself. Mrs. Cooper said she was never jealous of Miss Carey. While Northy never told the witness that he was jealous of her husband, he did say on one occasion that made him feel bad to see the husband of Mrs. Cooper enjoying privileges which he himself might have.

Regarding the Sunday night before the tragedy, at which time the state alleges Mrs. Cooper made an appointment with Northy to visit her, Mrs. Cooper testified that she did ask Northy to come to her house on Tuesday afternoon, as she wished to give to understand that he again call at the house in the absence of her husband. It was during the visit

of Tuesday that Northy met his death. The direct examination of Mrs. Cooper was not finished when court adjourned for the day.

lowa Coal Troubles Settled

Des Moines, April 14.-As far as the question of prices for labor is concerned, the scale to govern mining of coal in Iowa for the two years dating from April 1, 1906, has been completed by the joint conference of Iowa operators and miners. All advances were agreed to, the miners gaining their requests. There is little reason to doubt that all mines will resume on May 1.

Statue of Goddess Hather Found In

Temple at Thebes. The Egypt Exploration fund's excavations of Thebes this year have produced wonderful results. The explorers have been excavating at the oldest Perkins arrested seven Chinamen in temple known in Thebes, which belongs to the eleventh dynasty. Working at the back of the temple the explorers found the remains of a shrine of the eighteenth dynasty, 1700 B. C. The first discovery was a fine statue which was quite perfect. Then suddenly the removal of a few stones revealed a chapel covered with sculptures, the colors whereof were absolutely fresh. It was about 10 by 5 feet. The roof was vaulted and painted with yellow

The chapel was dedicated to Hathor, goddess of the mountain of the west, who generally is in the form of a cow. In the chapel is the statue of a beautiful cow of life size of painted limestone. The head and horns evidently have been overlaid with gold. The next is adorned with papyrus stems of flowers, as if she were coming out of the water.

The cow is suckling a little boy, who again is represented as a grown man under her neck. A cartouche behind the head is of Amenophis II., son of Thothmes III., who ruled Egypt 1,700 years before the beginning of the death of Joseph E. WAVES PUT TO WORK.

Operating a Steam Pump by Means of a Simple Wave Motor.

A steam pump used for filling a tank was operated by a correspondent of the Engineers' Review without the aid of steam, compressed air or other ordinary power, but by the action of the waves of Lake Michigan.

A platform was built to fit around the top of the base of an upright pump, and then the pump was set upon a flat stone at the bottom of the lake. Two lengths of railroad rail were placed on the base as weights, and the plat-

four of the men. So cleverly was the business conducted that, though it has been going on for months, it was only recently that the authorities could get a clue to the headquarters of the policy enterprise. Even then it required much patience and clever handling of the case to locate the alleged ringleaders.

The arrested men are supposed to be a part of a notorious gang who have infested the eastern states within the past few years, and by their clever manipulation gotten away with many thousands of dollars. It is claimed by the police that some \$2000 changed hands daily as a result of the three drawings that have been made.

No natural water is wholly free from some foreign ingredient, and water which has received sewage shows millions of germs to every pint.

The sanitary problems which the use of natural ice for domestic purposes presents are finding their solution in the employment of artificial ice made from distilled water.

In the first place, manufactured ice, commonly called artificial ice, is frozen

To correct any misconception regarding artificial ice, it will doubtless be of interest to the readers of this article to ture does not kill bacteria. Formerly to note a few facts about the process no consideration was paid to the kind of manufacture. It will be noticed of ice used, for the reason that all ice that the word "manufactured" ice is was thought to be pure and absolutely made use of. The word "artificial" safe, because it was presumed that any is incorrect. The cold which freezes temperature below the freezing point the water is artificially produced, but the ice is frozen just the same as any Diseased germs have been frozen other ice, excepting that it is pure Mrs. C. This excessively ing the water and using the necessary precautions incident thereto.

> The only chemical used in an ice factory is ammonia, and this does not come into contact with the water to be frozen in any shape or manner.

There have been attempts made to create a prejudice against manuractured ice because ammonia is used in the process of manufacture, and very many people believe that it is "chemical ice," or that chemicals are actually used in the water. That such statements or impressions are false and erroneous is plain.

In the common process of ice manufacture, the water, which has previously been distilled, is placed in large metallic cans of the shape and size of the finished cake. These cans are placed nia. The ammonia passing through usually about ten degrees above zero, or, in other words, twenty-two degrees below freezing point.

This is the character of ice that should be be used by the families in the home for all domestic pursoses, for the reason that it is pure, can be relied upon, and cannot possibly contain any harmful material.

EMBEZZLERS SENTENCED

Greene and Gaynor Given Four Years Each and Ordered to Pay Amount Fraudulently Obtained--Respondents to Appeal

Savannah, Ga., April 14.—Benjamin D. Greene and John F. Gaynor were sentenced by Judge Speer in the federal court to serve four years in the federal prison at Atlanta and to each pay a fine of \$575.794.90, the amount they are charged with having embezzled. The fine need not be paid if, on completing the sentence, the prisoners make affidavit that they are not possessed of more than \$20. In lieu of paying the fine, they then may serve 30 days longer. Counsel for prisoners announce that an appeal will be taken.

Judge Speer, in sentencing the prisoners, after saying that the most painful duty is the imposition of a sentence to penal servitude, peculiarly when those convicted are men of fine intelligence and men of affairs, continued in

"For your personal suffering, merited as it is, you have my sympathy. To some, no doubt, who are imbued with the belief that all they can get from the government is honest graft, your conviction may excite indignation. astonishment and perhaps not a little alarm. It seems indeed that the public should awaken to the prevalence of this dangerous inclination. The magnificent contributions from the national treasury made by congress for the welfare of the people all imperatively call for a lesson in thunder tones to faithless, conniving, unprincipled representatives of the government and the unscrupulous contractors or other persons which would conspire to plunder the public treasury.

"Nor should the lesson of our government's conduct in this great case go unheeded. No necessary expense has been spared, no necessary exertion avoided. To bring to the bar of public justice those charged with the spoilation of the treasury, the supreme court of the United States and the privy council of England, the loftiest tribunals of the English-speaking races, have contributed their solemn judgments."

Pointing out that these tribunals had approved the declaration of this court that the accused must be brought to trial before the court having jurisdiction of their offenses, Judge Speer continued:

"It will be well for our governmental authorities to reflect that, unless the obstructive construction placed upon our removal statutes, which delayed this case so long, shall be avoided, it will be wholly impossible to have the speedy trial of criminal cases, and the greater the crime and the more powerful and richer the culprit the greater will be the difficulty of bringing him to trial. nesses to each district in which persons said a farmer. joint crime may seek refuge and be indictment and to make out the case anew, it will amount to a paralysis inthe administration of criminal justice.

If the indictments of grand juries and bench warrants of courts having jurisdiction are to count for nothing, Judge Speer pointed out how powerless our bench and bar would have been if President McKinley's assassination had been the result of conspiracy and many conspirators had taken refuge in different states.

"Believing that it is the certainty and not the severity of punishment which deters criminals," he continued, "I will attempt to approximate in measuring your term to that imposed by his brother officers upon Carter, the late have been impossible.

Judge Speer concluded by pointing out that good behavior could reduce the sentence to three years each instead of four and hoped that for the rest of their lives the prisoners would recall the Psalmist quotation, "A little that a righteous man hath is better than the riches of many wicked."

Great Prospects For Liberia

New York, April 14.—Bishop Scott of the Methodist Episcopal church, who returned from Africa yesterday on the Majestic, has left for his home in Nashville. "After nearly two years of contact and close observation," said Scott, I am wonderfully impressed with the growth and stability of the Liberian government and the natural resources of the country."

Serious Wrangle Over Religion

Moscow, April 14 .- The conflict between the Mariavite sect and the Orthodox Catholics is increasing in intensity. A pitched battle in which 3000 persons participated occurred yesterday in the environs of Warsaw, resulting in two Catholics being killed and 30 wounded. Grave fears are entertained of disturbances during the Easter fete.

THE CHAMPAGNE MAKER.

Why His Face Is Always Decorated With Scars. The Frenchman's face was hack

and notched "Have you been a duelist?" o asked.

"No, no," the man replied. "I ha been a champagne maker." He touc ed his face. "These honorable nicks he said, "are champagne scars.

"Champagne scars," he went on," decorate the visages of all the workers in the underground champagne mills of Rheims. They are caused by the bursting of the bottles. About one bottle of champagne in every ten bursts.

"There are miles and miles of champagne caves in Rheims, caves cut in the solid limestone rock, where, in a constant temperature of 45 degrees, millions of bottles of wine refine and

"The workers down there smell nothing but champagne all day iong, champagne escaping from burst bottles, and as the turners move along the rackseach turns 35,000 bottles daily-they are continually saluted with explosions. Bang! And the glass splinters fly, and a little fountain of champagne perfumes the damp air.

"Day after day each bottle must be turned, turned fifty times altogether, till the sediment in it has all mounted up and concentrated itself around the cork. Then the corkers remove the corks, let the sediment thickened wine in the neck of the bottle blow off and skillfully replace the cork again.

"The corkers' and turners' work is dangerous. These men are nearly all scarred like me."-Kansas City Independent.

WAYS OF PENGUINS.

These Birds Lay Out Home Sites and

Build Cities, Penguins mostly spend their lives on the water, but when, during the breeding season, they are obliged to seek the shore they establish cities, many acres often being laid out in squares, composed of what might be called streets, running at right angles. The birds not only lay out their city after picking up all the loose stones till the whole place is as smooth as a board floor, but they take possession in couples, each pair selecting a home site, not to build a nest, but merely to secure a particular spot on the bare ground

The hen lays one egg, and only one, and during the time of incubation the male bird brings her food from the sea or sits on the egg awhile himself if she wants to go out and take a swim. The lady penguins grow so fat and sleek under the good care of their faithful mates that they are eagerly hunted at the breeding season.

The old birds are tough and fishy, but the tender young matrons are in great demand, both for their oil and flesh. Even the eggs have an oily and fishy flavor and taste as hens' eggs might if cooked in paraffin. The penguin has wings, like other birds, but they are altogether too short to fly with, though they assist him somewhat in waddling over the ground .--Cornhill Magazine.

is so constructed that when the leg is compelled to ignore the efficacy of the bent at the knee the claws have to contract-can't open till the leg is straightened out again.

"Thus a chicken gets on its perch. bends its knee to be comfortable and with that bending locks itself, as with a key, to the wood. It can't fall off. Put a chicken on your finger and then your finger tight and be unable to let go until the bird stands up again. Nature, very kindly, has so constructed roosting birds that the act of settling down clamps them to their perch."

A well known and very prominent English family are the possessors of a remarkable relic in the shape of a huengineer officer, without whose aid and man heart preserved in a jar of alcoconnivance the crimes in this case would hol. The Nautilus.

The idea of airtight compartments in ships was suggested by the peculiar construction of the nautilus. The shell of this animal has forty or fifty compartments, into which air or water may be admitted, to allow the occupant to

Woman Loaned on Policies

Milwaukee, April 14.—The most sensational feature of the examination of the Northwestern Mutual Life Insurance company by the special legislative investigating committee was the production of documentary evidence tending to show that Mrs. Henry L. Palmer, wife of the president of the company, was a frequent investor in loans on percent interest, while policy loans years. were being made by the company itself at 6 percent.

Figuring on Triple Alliance

St. Petersburg, April 14.—Great Britain has begun to vigorously press negotiations for an Anglo-Russian entente with the purpose of completing the triple alliance of Great Britain, France and Russia against Germany, which has long been the aim of British policy. The developments at the Algeciras con ference, where Great Britain, France and Russia acted in unison, and the York Tribune. participation of English bankers in the big Russian loan, furnishes a particularly favorable moment and Great Britain is striking while the iron is hot.

Platt to Leave the Senate

New York, April 14.—The Herald says: Seated at his desk in his office in the United States Express company's building, Senator Thomas C. Platt de clared he would make no effort to be reelected to the United States senate at the expiration of his term in 1909. "It s true," he said, "that I do not expect to return to the senate when my present term ends. I shall have gratified my desire for public office by that time."

JAPAN'S EASTER EGGS.

Triumphs of Art Are These Symbols of Spring.

In Japan, where the coming of spring and the bursting into bloom of the cherry trees are made the occasion for an annual festival, the eggs of the Australian ostrich are greatly in defrom our travesty of an Easter egg, whose pure, delicate surface is actually disfigured by cheap dyes and crude, raw designs, to the exquisite works of art that the Japanese artist puts upon the market to welcome the spring. The Japanese artist always works as if imbued with the thought that God is

Nothing that the nimble brown fingers touch is ever slighted, and upon the oval surface of these large eggs the Japanese artists lavish a very wealth of artistic efforts. The natural tint of the in accordance with the instructions egg, a grayish blue, is often retained, and fairy landscapes are traced upon this background, which blends exquisitely with the blue of the sky, distant mountains or tiny lakes and rivers. Again, the egg will be tinted all over by the artist, and the designs are then chosen with great care relative to the ground color. Some of the most expensive eggs decorated in Japan are those which simulate specimens of cloisonne

everywhere.

Such an egg, gorgeous in gold leaf and rare pigments and inclosed in a wonderfully carved ivory box, was once designed by an obscure artist and sent to the mikado, long years ago, just, as the cherry trees were bursting into bloom. The royal recipient sent an immense sum of money to the artist as a mark of his appreciation and ordered him to leave the little country village policies of the company, and that on one | where he had toiled unknown and come of these loans, negotiated in 1899, but to the imperial city, and honor and still running in 1905, she obtained 8 great renown became his through long

Many and various are the designs on the Japanese eggs-dancing geishas and grinning devils, wistaria covered tea houses, with a geisha smiling coy welcome from the tiny porch, and stately temples presided over by solemn, sad eyed Buddhas, flowery landscapes smiling under sunny skies and lofty mountain peaks wrapped in lowering clouds. All the varieties of Japanese landscape and all the vicissitudes of Japanese life are portrayed on these eggs of the artist in Japan.-New

THE PASCHAL KISS.

Russia's Characteristic Salutation on Easter Morning.

Easter salutations among the Russians are characteristic. The "Easter kiss" is one of the chief observances. On meeting friends, relatives or even mere acquaintances on Easter morning it is the custom to exchange the same greeting that passed between the priest and people on the "Great Sabbath" service. This is repeated three times in succession; the friends kiss each other and exchange red eggs, of which a pocketful are carried for this pur

An Odd Easter Festival.

An odd Easter observance was arranged by the management of the Hotel Majestic in New York for its guests and friends last Easter Sunday, says here. the New York Times. Some 400 guests and their friends assembled in the foyer. A barnyard scene on a large scale, with chickens, ducks and rabbits, had been fitted up, and there was a good sized rustic house with straw roof, in which a choir of eight adult voices and sang a number of Easter hymns. On every pillar in the foyer were hung two bird cages, with a canary in each cage, and these sang all during the festival. An organ, chimes and orchestra furnished Easter music.

"But they return on Easter morning, bringing presents of scarlet eggs from the holy father to his good children. The joy bells come back first, and the angels, drawn from heaven by their joyous peals, fill the egg baskets of the good children. The death bells come back also, but bring nothing, for Easter is full of joy only. So in the Easter of the children the bells tell of the joy and the eggs of the gifts of love Christ brings to the little ones." - Chicago Tribune.

Jacob Newman, counsel for Voliva, said: "Dowle and his advisers admit that we have in our possession documentary evidence to the effect that Dowie and his advisers admit that 95 percent of the Zion properties belong to the Christian Catholic church, and he has acquiesced in the proposition that JOB PRINTING if he is given 5 percent of this property after he has been installed in tempo rary control, both ecclesiastical and financial, he will retire.

"In other words, Dowle desires to be vindicated, reinstailed with the full powers attending the first apostleship of the Christian Catholic church, whereupon he will issue an edict, declaring that 95 percent of the property of Zion City belongs to the church and that 5 percent belongs to Dowie. This would give to Dowle \$1,000,000 and to the church \$19,000,000.

Strange Religious Ceremonies

Plainfield, N. J., April 14.-The religious services of the negro sect which calls itself the "Church of God and Saints of Christ," which is in convention here, began last night. The service was opened with the blowing of the ram's horn. Then followed the eating of unleavened bread and the partaking of the flesh of a lamb which had been killed by Prophet Crowdy. The com munion was of bread and water. Following this there were baptisms, the washing of each other's feet and the breathing in of the spirit.

NAPLES NOW SAFE

Eruption of Vesuvius No Longer, Threatening

Lessen Danger of Epidemic-and Homeless Refugees

Naples, April 14 .- No better evifrom Director Matteucci, sent last other. Measured by our time stand-

"Last night and today the activity of Vesuvius and the agitation at the surface of the volcano sensibly diminished. Electric discharges ceased today, and the discharge was less abundant. From the presumed formation of the crater and other indications, and if the news coming to me is true of the cessation of iava at Boscotrecase, I predict with reserve that in two or three days volcanie calm will reign."

The publication of this assuring dispatch has brought joy to the people, and last night's Good Friday services at the churches, which were attended by large congregations, took the form of fervent thanksgiving for danger past. No more rumblings come from the

bowels of the earth, giving terrifying warning to the inhabitants. The volcano is hidden behind a thick curtain of smoke, which rises from the crater and then spreads and falls, enveloping a vast circle within semi-darkness. Naples is just beyond this circle.

Vesuvius today belies all popular pic tures, which represent the monster clearly outlined against the sky vomit ing smoke and ashes by day and fire by night. Today not the slightest outline is visible of the crater crest or foothills, all being swallowed up in a dense, black pall. Vesuvius quiescent is picturesquely grand, but active or smouldering it is terrible only in its black-

The weather is fine, and the wind shifted so that the clouds of the populace has given place to a smiling confidence, in which there is no reflection of the terror which had pre- stir into the cake of the period. vailed for the past week.

But in other quarters there is no escaping from the awful evidences of the volcano's fury. At Boscotrecase the exhumation of the dead is being carried on by soldiers, who, owing to the fuls are always mentioned, but as advanced state of decomposition of the corpses, are unable to work more than upon them. Drops, too, cannot be an hour at a time. The work is one of great cost of money as well as of danger

Halifax, April 14 .- Christopher Holland, who, it is alleged, embezzled \$15,-000 from his employers in Toronto, arrived here on the steamer Victorian from Liverpool in custody of a Canadian detective. When Holland left Canada he boarded a steamer and crossed to London, where he was arrested. He fought extradition, but it was granted.

The postal business was tempotarily disarranged. Last night the strike was settled by a partial concession to the demands of the drivers.

THE PLANET URANUS.

Oddities a Voyage to This Gigantic World Would Disclose. If Uranus, which is a star of about the sixth magnitude, were a planet like those little ones called asteroids,

which are being discovered by the dozen every year, it could not have much claim upon popular attention, but Uranus is really a gigantic world, DIGGING OUT THE DEAD more than sixty times as large as ours. Its vast distance, about 1,700,000,000 miles from the earth, is what causes it to look so small. Uranus has four Corpses Buried In Quicklime to moons, which revolve backward in their orbits-that is to say, they revolve from east to west around Uran-Quarter of a Million Hungry us, while Uranus goes, like all the other planets, from west to east around the sun. CAKE AN OLD INSTITUTION.

The Ancients Made and Ate It, but It Was a Simple Affair.

The ancients made cake, but it was not the rich, highly seasoned and flavored confection which we indulge in nowadays. They had plain cakes made with flour and water, some of them without a suspicion of sweet or flavor. Some of them were not unlike our plainest crackers and were often eaten as we eat bread.

Wedding cake was an institution among them, as with us, but the cake was a plain one and was broken above the head of the bride as she went to her new home. This was a special feature of Roman marriages 2,000 years ago. The breaking of the cake was part of a solemn ceremony. All of the cakes of ancient history are plain and simple. It is only as we come down to more modern times that we hear of spices and fruits and all of the rich who escaped from the towns, villages and luxurious ingredients in which and country further within the zone of present day cakemakers delight. Mozart and Bretzner. When Mozart was at the height of his fame he composed the music for Bretzner's "Belmont und Konstanze" ("The Abduction From the Seraglio") at the request of the Emperor Joseph II. A Ground Hog Case. "A ground hog case" is a case of absolute necessity-one in which the reward of perseverance is certain and the necessity for perseverance is imperative. Its origin is told in this story: A boy was seen digging vigorously with a grub hoe at the mouth of a hole in which a ground hog had taken refuge. He was asked if he thought he would get the ground hog, to which he replied with scorn: "Catch him? Why, yes; I'm bound to catch him; we're out of meat."-St. Louis Republic.

Aunt Cynthia Bray's Easter Decorations

20 0 By FRANK H. SWEET

[Copyright, 1905, by T. C. McClure.] NEW minister had come to slow moving, out of the way Spruce Hill, and with his coming had appeared a spirit of change and improvement. He was fresh from his theological course and eager with youth and love for the work. Hitherto the church had been to Spruce Hill a place of solemnity, only to be visited at required intervals and as a duty. Now, under the ministrations of this young zealot, it gradually came to them that duty could be approached from many directions, and not all of them were necessarily thorny

and narrow. Among other innovations were the Easter sermon and church decoration. The new minister made the announcement one Thursday evening after prayer meeting and added that he hoped all would be present and that the ladies of the church would arrange for a tasteful and appropriate decoration. After service the women stood about

MAJESTIC THEATRE.

The next two weeks will afford New England playgoers the last opportunities of witnessin fulness of Christ." Ephesians, 4:13. Wed- that most delightful musical play "The Earl 460 Washington street, south of Hollis avenue, many friends since its return to the Majestic theatre. There were many popular numbers room open Monday, Tuesday, Thursday and included in this bright play while here last and these have all been retained in addition to which there are several interpolations which have proven equally popular. The cast is headed by one of the most popular comedians on the stage today in the person of Eddie Fov who now interprets the roll of the itinerant dogtrainer, Jim Cheese, a role into which he has introduced many of the peculiar oddities for which he is famous and which never fail to excite the laughter and applause of the audience.

EMPIRE THEATRE.

At the Empire Theatre next week a producion of Paul Potter's dramatic version of Ouida's novel "Under Two Flags" will be the attraction. Ouida's strong story offers fine opportunity for dramatic treatment and the play has been a favorate one with the public ever since its original presentation. It has not been seen in Boston for several seasons and the intention of the Empire management is to make its revival a notable one in the way of spectacular groupings and tableaux. Minnie Seligman will have in the character of Cigarette an opportunity to show the wide range of her dramatic abilities and William Bramwell as the Hon. Bertie Cecil Entertainment every evening. Colonial will have a character in which he has gained many successes in other cities.

Shakespeare will again have the opportunity to witness a great production of one of the great poet's dramas at the Castle Square Theatre. The play selected is "Romeo and Juliet," and it will bring to a triumphant close the present season of Shakespearian productions at the Castle Square. The Verona of the time of the great tragedy will be presented to the audience in all its picturesqueness and beauty, and the play has been arranged with a'l possible reference to and respect for the original text. Only those cuts necessary to bring its action within the limits of a three hour performance have been made.

KEITH'S THEATRE.

The Great Latayette, with a company of more than 30 people has a big variety bill at Keith's for the week of April 16. This versatile entertainer is known throughout the length and breadth of the continent as one of the leading exponents of the illusion field, and needs no in troduction to amusement-seekers hereabouts. The surrounding bill will bear comparison with that of some of the best shows of the season. The list includes the Barrows-Lancaster Company, in an episode of the Civil War entitled "Tactics", which is considered by many to be one of the best sketches in the varieties; Marion

The other men injured are expected to live.

As the cablegram states, the cause of the ignition was not known, but the bepreviously lynched two men named Wollaston on Saturday by the score of lief at the navy department is that, in cleaning up the turret and throwing open the breeches of the big guns after the last round had been fired, some small bit of smouldering canvas bagging was blown out of one of the guns as the big breech block was swung around, and fell upon the loaded ammunition hoist, where the surplus powder was being returned to the magazine

Green Rats Too Much For Pussy New York, April 16 .- Phosphorescent rats, that shed green rays in the dark, drove insane the mammoth ship's cat of the brigantine Venturer on her trip from Cuba. The cat. Pedro, was a big animal, but when she saw the green rats she couldn't stand it. Day after day she fought them, and was usually licked, though her presence on board had kept other rats away for many trips. Pedro got thinner and thinner, and finally madly dashed up and down the deck, sprang up the ratlines and leaped overboard.

HUB PENSION DATA

Many City Employes Are More Than Half Century Old

Boston, April 16 .- The bureau of statistics at city hall, acting under the pire, makes seven deaths so far as the direction of Mayor Fitzgerald, has compiled figures showing the average age of city employes. The figures were collected for the purpose of determining whether or not pensioning of city employes would be advisable

At present there is a bill before the legislature, presented by Fitzgerald, calling for the establishing of a pension system. A complete census was not taken, owing to the hurried nature of the work, but a poll of 7000 employes was made. Of this number it was found that 1376, or 19.48 percent, of the total whose ages were submitted are between the ages of 50 and 59; 216, or 3.06 percent, are either 60 or 61; while 817, or 11.57 percent, are 60 years or over.

It is estimated that were a complete return of ages procured, it would be found that the city has on its payrolls more than 1000 men who are more than 60 years old.

Of the 7064 employes who figure in the analysis, it is found that 2409, or 34.11 percent, are over 50 years of age.

Charges Against Police Chief

Providence, April 16.—Charges against Chief of Police Mathews of Providence have been filed with the poice commission here by Rev. A. B. Cristy, superintendent of the Rhode Island Temperance league, charging an attempt to destroy the latter's good name and to conspire with others to that end The complaint is supported by an affidavit from the proprietor of a local moving picture machine establishment, and the charges have to do with the picture machine business in the city.

Woman and Child Shot

Boston, April 16 .- An infurlated Italian, while pursuing another countryman down Endicott street, fired two shots at him, which missed their mark and struck a woman and a 3-year-old child. The woman was struck in the cheek and the child in the thigh, and it is thought that both will recover. After the shooting the police chased both the Italians into a house, but they escaped among criminals and lunatics. Mount Vesuvius Has Evidently Spent Its Wrath

CELEBRATION AT NAPLES

Thanksgiving at Escape From Destruction--Old Women Entombed Six Days at Ottajano Are Rescued Alive

Naples, April 16 .- The somewhat threatening condition of Mount Vesuvius Saturday night having subsided with the ejection of enormous clouds of sand and ashes, these elements have begun to settle slowly, again enveloping the mountain in a thick haze and cutting off the view from Naples, only the outline of the base being visible.

Professor Matteucci, director of the Royal observatory on the mountain, last night issued the following bulletin: 'My instruments are now most calm The emission of sand continues in less abundant quantities and I wait serenely a satisfactory termination of the erup

The sudden renewal of alarm Satur day night gave way Sunday to the cele bration of Easter with unusual fervor. The festival is always picturesque in Naples, but yesterday it was doubly so. Cardinal Prisco celebrated an elaborate thanksgiving mass, while along the streets crowds prostrated themselves before sacred images.

The gravity of the situation has now shifted to Ottajano and San Giuseppe, where the recovery of the dead from the debris goes on amid the misery of thousands of homeless refugees. A sensational development occurred durng the work of salvage at Ottajano yesterday when the searchers unearthed two aged women, still alive, but speechless after their six days' entombment. They were among the hundreds who were crushed beneath the falling walls during the rain of stones and ashes a week ago. Hope had been abandoned of finding any of these persons alive. The women were protected by the rafters of the house in which they were in and had managed to exist on a few morsels of food which they had in their pockets.

Nine bodies were taken out yesterday and it is estimated that a hundred more remain under the ruins. The work of salvage goes on amid the twisted masses of fallen houses, churches and stables and in the deep drifts of cinders and ashes. At some points the ashes are 10 feet deep, reaching to the windows of the second stories of the few hovels still standing.

The work of salvage at San Guiseppe has brought to light a remarkable con dition. Bodies have been found of women in whose hands were coins and jewels, and one woman held a rosary, indicating the instinct to preserve earthly belongings in the moment of fleeing

from death. The excavations at Herculaneum over which the town of Resina stands, have recorded similar instances of death overtaking its victims carrying their jewels while fleeing from the invading lava.

Strike of Express Agents

St. John, April 16 .- Two hundred Telephone, Quincy 105-3. agents of the Canadian Express company along the line of the Intercolonial railway have gone out on strike to enforce a demand, made some time ago, for a higher rate of compensation. Many of the agents of the express com- Furniture and Plano Moyer, pany are railroad telegraphers and are paid for their services as express agents on a commission basis. A demand for a greater commission was refused by the company and the strike followed.

Cossacks and Bandits Fight

Tiffis, April 16 .- In an encounter in the outskirts of Tiflis between Tartar brigands and a squadron of dragoons the troops killed two and mortally wounded four of the Tartars, the others escaping. A squadron of Cossacks surprised another band at Javans and captured four of the leaders. Four Cossacks were killed in this encounter and after the bandits had been lodged in prison they were killed by the Cossack

saw a man named Davis and Mrs. Lloyd enter his home and followed with a gun, but Davis disarmed him. Lloyd secured a pistol and waited at the back door for Davis. When the doorknob was turned Lloyd fired four shots through the door, to find later that he had killed his own son.

Storer Gets Emperor's Picture

Vienna, April 16 .- An aide-de-camp of Emperor Francis Joseph, Major Count Driancourt, handed to Bellamy Storer, the retiring American ambassador, his majesty's usual gift to an ambassador on such occasions, an autograph picture of the emperor in a diamond studded frame.

Demonstration Against Jews

Tangier, April 16 .- Grave anti-Jewish manifestations took place here, during which the Jews were threatened with death. The agitators paraded the streets and afterwards hanged and burned effigies dressed in Israelite cos-

"Contributions" to See Sunday Baseball Game at Brooklyn Brooklyn, April 16 .- The grounds of the Brooklyn National league club were opened to the public yesterday when the Boston and Brooklyn teams played the first Sunday game of the season here. No admission was charged at the several entrances, nor were any score cards or programs sold. At all the gates contribution boxes were conspicuously placed and the majority of the 5000 persons who passed through voluntarily dropped the regular amount charged for the grand stand, pavilion or bleachers on week days into these re-

ceptacles. This was a new experiment on the part of the management and it seemed to work to good purpose, judging from the piles of silver that were being counted in stacks on tables in the club's offices, while the game was in progress. There was no interference on the part of the authorities. The police commis sioner said that he saw no cause for in terfering, as there was no infraction of the law so far as he could judge. Strike of Express Agents St. John, April 16 .- Two hundred Telephone, Quincy 105-3. agents of the Canadian Express company along the line of the Intercolonial railway have gone out on strike to enforce a demand, made some time ago, for a higher rate of compensation. Many of the agents of the express company are railroad telegraphers and are paid for their services as express agents on a commission basis. A demand for a greater commission was refused by the company and the strike

followed. Cossacks and Bandits Fight

Tiflis, April 16 .- In an encounter in the outskirts of Tiflis between Tartar brigands and a squadron of dragoons the troops killed two and mortally wounded four of the Tarturs, the others escaping. A squadron of Cossacks surprised another band at Javans and captured four of the leaders. Four Cossacks were killed in this encounter and after the bandits had been lodged in prison they were killed by the Cossack guards.

Father Kills Son by Mistake Norvan, Ga., April 16.-C. E. Lloyd saw a man named Davis and Mrs. Lloyd enter his home and followed with a gun, but Davis disarmed him. Lloyd secured a pistol and waited at the back door for Davis. When the doorknob was turned Lloyd fired four shots through the door, to find later

that he had killed his own son. Storer Gets Emperor's Picture Vienna, April 16 .- An aide-de-camp

of Emperor Francis Joseph, Major Count Driancourt, handed to Bellamy Storer, the retiring American ambassador, his majesty's usual gift to an ambassador on such occasions, an autograph picture of the emperor in a diamond studded frame.

"Contributions" to See Sunday Baseball Game at Brooklyn Brooklyn, April 16 .- The grounds of

the Brooklyn National league club were pened to the public yesterday when the Boston and Brooklyn teams played the first Sunday game of the season here. No admission was charged at the several entrances, nor were any score cards or programs sold. At all the gates contribution boxes were conspicuously placed and the majority of the 5000 persons who passed through voluntarily dropped the regular amount charged for the grand stand, pavilion or bleachers on week days into these re-

This was a new experiment on the part of the management and it seemed to work to good purpose, judging from the piles of silver that were being counted in stacks on tables in the club's offices, while the game was in progress. There was no interference on the part of the authorities. The police commis sioner said that he saw no cause for interfering, as there was no infraction of the law so far as he could judge. A Threatening Situation

Wheeling, April 16.-The situation in ncludes the West Virginia Panhandle has assumed a threatening aspect. The Glen Easton Coal company at Moundsville has refused to recognize the new ly organized Miners' local union, and it is reported that the company is hourly expecting the arrival of a trainload of strike-breakers from Pittsburg. Shanties have been erected for the accommodation of the non-unionists and supplies are being received at the mines for their subsistence. The striking

miners say they will resist this move. Woman Makes Anarchy Address Boston, April 16 .- "I believe that life is going to exist in a more beautiful, more healthy and more esthetic form than now. Government will not exist and the individuals will realize that there is no antagonism, but that human friendship and comradeship have taken its place." Just "Anarchism"-tha was the simple title to Emma Gold man's address which was delivered last night in Paine hall, and under the auspices of the "Group Worker's Friend." The remarks quoted were the

final ones in her address. Not Complimentary to Gorky St. Petersburg, April 16.-Mme Gorky is in southern Russia and her version of the question of a divorce from her husband has not yet beer obtained. Maxim Gorky's friendship with Mme. Andreieva, who is with him in America, is of more recent date that was supposed. In 1903 the novelist with his wife and two children toured

aged 5 and 8 years. Constabulary Protect Pumpmen Pittsburg, April 16.-Pumpmen in the mines at Scranton have been threatened by strikers. It was by orders of the unions that the pumpmer remained at work, as discontinuance of heir labor would mean the flooding of the mines. The threats have been of a serious nature, and district consta bulary are protecting the men. Blood-

to Rev. and Mrs. W. B. Barr tomorrow evening.

Miss Etta Brown of Washington street has accepted a position with the R. H. White Co. of Boston. Several important matters are to come

before the regular meeting of the City Council tonight. Ernest G. Tuthill has returned to

Westminster, Vermont, after visiting friends in this city. C. H. Grindell of Pleasant street, who has been quite ill, threatened with pneu-

monia, is slowly recovering. The office of the Citizens Gas Co. is

the Post Office block on Granite street. After spending his vacation at his home on Chestnut street, Linden Hard-

wick has returned to school at Groton. Civil service examinations for clerks, inspectors of meats, janitors, firemen and police will be held in this city,

April 23 and 24. The street watering schedule went into effect last year on April 15. 1 will be later, however, this year as the

order is still before the City Council. Miss Mary F. Sampson of this city will take part in the Norfolk County C. E. convention to be held on Patriots' day at Stoughton, speaking on "Mission-

ary committee work." Lovers of the National game should not fail to see the great contest at Merrymount park on the morning of the holiday, between the married and single

men of the Granite City club. The Young People's Society of Christian Endeavor of the Quincy Point church held a song service on Sunday at the Sailors Snug harbor which was appreciated.

John Lennon of Upland road moves his family today to their new home at Marlboro. They will be greatly missed by their many friends and acquaintances | basement contains a laundry, with stain this city.

Body Found In Bent's Creek

James Costello, a Fore River workman, was found floating in Bents creek day. this morning opposite the berth of the Vermont. It is supposed that the body had been in the water since late Saturday night or Sunday.

The last seen of the man was Saturday afternoon, when he drew his pay. It is supposed that he visited Boston that night, and in some way fell into the creek on his return.

But little is known about the man other than he boarded at 86 East Howard street. He was apparently about 30 years of age. The body was removed to Hall's undertaking rooms.

Dr. A. did not believe in forcible restraint for the insane. Therefore, as sonal influence was made to take the cy Point. place of bolts and bars and shackles, le was kept a busy man. One patient n particular was a young boy continually complained of at headquarters beause he refused to wear his clothing, preferring to tear it into rags.

Dr. A. remonstrated in vain, then thought out a plan of diplomacy, with which he approached his patient. "John," said he, "I find I am in need

f a boy and thought you might like to take the position. I want to engage a boy not to tear clothes. Do you think you could do that work?" "Yes, I could," said John.

"Very well. What wages will you

"Twopence a day." The bargain was closed on the spot,

John's destroyed clothing having cost the asylum pounds where his wages were pennies. From Monday to Saturday John was a model laborer, receiving at the end of each day his wage with the other workmen about the asylum. Sunday came, and with it John's mania. He had not a whole rag on his back when Dr. A. was called upon to speak to him.

"How did this happen, John?" he asked. "Weren't you engaged to work for me? You have broken your contract."

"I have not, sir," asserted John, with warmth. "Didn't I work for you all the week? Today's Sunday, and I'll be hanged if I work for any man on Sunday."-Pearson's Magazine.

An Animal Story Por Little Folks

HOW THE RABBIT "GOT EVEN"

Old Tip, the elephant, was a practical joker. He was born with a funny streak in him somewhere that led him to look on the funny side of life and see a joke in even the most solemn matters. Moreover, he was forever playing jokes upon the other animals. Now, Tip's great size was not helpful to his playful bent, for when he tried to joke with the smaller animals he was at times a little rough, and that used to make them mad. However, most of them took it all good naturedly and laughed with him. It's always the best way, as you shall see. One day old man Rabbit was sitting on a stool combing down his sleeky fur and sunning himself, when old Tip stole softly up behind him and suddenly

"I say you're no gentleman. That's a low down trick, and I'll get even for this." "Oh, don't get mad," said the joker. 'No harm done; I only meant it for a

joke." But Mr. Rabbit went off vowing vengeance. Next day Tip was sitting on a tub

when Mr. Rabbit came up and gave it a tremendous shove. But, alas for revenge. It seldom pays, for the tub Address, Margaret Hall, rolled away, and Tip sat down, bang! slap! on Mr. Rabbit. "He never smiled again."-St. Louis Post-Dispatch.

The Indian and the Railroad. Gail Hamilton said if there never were to be any railroads it would have been an impertinence in Columbus to have discovered America. The Indian's knowledge of the location and direction of the rivers and lakes and of the positions of the portages and his readiness under the right sort of persuasion to put this knowledge at the service of explorers, missionaries and settlers "stood off" this stigma from Columbus before the railways came. Indians guided Captain John Smith, Champlain

and La Salle through the wilderness. Indian trails blazed pathways for the pioneers through forests and over mountains. Sometimes these trails were utilized by the railway builders. At the Louisiana Purchase exposition at St. Louis and at the Lewis and Clark fair at Portland were monuments to the heroic Shoshone girl, Saccajawea, who piloted Lewis and Clark across the Rocky mountains and through the wilderness on each side of that range in their exploration of the Pacific.-C. President Piper, taking the floor, opposed the adoption of the recommendation. Every one realizes the importance of this matter. It was very essential to get at it as soon as possible. It will be several weeks before the committee could report an ordinance. It was outside the jurisdiction of the Conneil to instruct the Commissioner how to install meters.

Our superintendent is one of the best in the state. He thoroughly understands the matter, and it should be left to him where he shall put meters.

Councilman Polk-We should have an order which the department could work under instead of going at it in a haphazard way. No details were furnished the committee. It was the Committee's opinion to refer to joint committe that an ordinance could be drawn up under which the Commissioner could act.

The Danes and Britain.

John Ackworth, an English dialect novelist who made a special study of the dialects of Lancashire, Yorkshire, the east coasts and also of the Danes, shows that the Danes by their early landings and sojournings in England have influenced the language of the east coasts of Britain to an extraordinary degree and that the Danes and the British, in spite of apparent differences, are one practically in speech and language as well as in the relationship of blood. "So strong is the English of the east coasts of England impregnated with Danish," John Ackworth once said, "that I am sure that if a fisherman from the east coasts of tons of Hocking Valley coal and em-England were to be wrecked on the shores of Denmark and he would only speak in his true native dialect that fisherman would be able to make himself understood."

The Christian Era.

The Christian era was suggested or devised by Dionysius Exiguus, a Roman monk, who, in 527, began its use and proposed that all public and private documents should be dated "in the year of our Lord." It did not come into general use in France until the eighth century nor in England until July, 816; in Spain it was not adopted until the eleventh century; in Portugal it was made legal in 1415; in the empire of the east is was established by royal edict in 1453, a few weeks before the fall of Constantinople.

Where Circulation Is Feeblest. Those who lead a sedentary life find the circulation feeblest about the nose, lips and temples, and those parts of the face should be energetically kneaded several times a day. When the pores become distended the fine, invisible dust in the air enters and clogs and blackens them. Mere ordinary face washing, even when warm water and soap are used, is not sufficient to

remove the dirt in the pores, but the

vigorous acid of the lemon will cleanse

and carry off all such unsightly blem-

ishes. Care of the Feet.

The feet should be bathed at night, and this treatment is an excellent sleep producer. The water should be salted. The feet should be scrubbed all over with a nailbrush, which will often prevent the formation of corns, while hard spots on the soles may be reduced with a piece of fine emery paper or fine file before the feet are placed in water.

THE UBERO FAILURE

Receivers' Action Against Directors Is Not Sustained

Boston, April 17 .- Demurrers which had been interposed by directors of the Consolidated Ubero Plantation company in equity proceedings brought by receivers for the company seeking to have the directors held for alleged mismanagement of the company's affairs were sustained by Judge Hammond in the supreme court. The court added, however, that the receivers may yet be able to hold the directors liable if certain amendments are made to the bill.

The case is an outcome of the failure of the Ubero company last year, when it was alleged that the corporation had taken money wrongfully from many investors in New England. Ferdinand Washington. E. Borges, one of the officers of the company at that time, is now in jail under \$75,000 bonds for trial.

Receivers Ogden and Smith recently rought the bill in equity against several directors. The receivers claimed that these men were at fault in not having repudiated a contract made with the Tropical Securities company in 1902, under which the Ubero company for \$4,999,975, to be paid in its stocks class for the year. and bonds, and the Tropical company was to develop the property.

F. E. Borges, W. D. Owen and Ernest the property of the Ubero company for imself, having previously bought the tract of land for only \$15,000. The receivers contended in their bill that the ntract should have been repudiated because of fraud in its inception.

A COMING PROBLEM

Government Must Meet Inheritance Tax Issue

High tides on Patriots' day at 8.15 THE PRESIDENT'S IDEA

Belief That He Does Not Intend to Press It Upon Congress --Doctrine Almost Sure to Denounced as Socialistic

Washington, April 17 .- President Roosevelt's suggestion in his speech of Saturday that "we shall ultimately have to consider the adoption of such schemes as that of a progressive tax on all fortunes, beyond a certain amount, either given in life or divised and decreed upon death to any individual," continues to be the talk of the

For the moment it has supplanted even the more immediate question of railroad rate legislation. Democrats like Tillman of South Carolina and Newlands of Nevada favor the general idea. If there is an orthodox Republican in the senate or house of any promise who endorses the proposition he is as hard to be found as is the prominent Republi can who is opposed to it and is willing to be quoted on the subject. Many say dent's speech. Friends of the president who are fully

acquainted with his ideas on the modern tendency toward over-capitalization of corporations and the amassment of great individual fortunes, emphasize the fact that the president in tends merely to throw out the suggestion that in his opinion the time is com ing when this factor of the body politi must be squarely met and dealt with.

If the president in the three years that he has to serve can do do more than turn public opinion towards the careful consideration of the problem he will feel that he has performed a duty dictated by the firm conviction which he holds that this is an issue which the government some day must meet. Senator Spooner of Wisconsin voiced the general attitude of conservative men in Washington when he said "The whole problem is one which I will have to think over a long time before should be willing to discuss it."

Just how the president came to make public declaration of his belief that 'we shall ultimately have to consider the adoption of some such scheme as that of a progressive tax on all fortunes beyond a certain amount" has not been disclosed. It is understood that his "muck rake" speech, in which this proposition was put forth, was very carefully gone over and revised by at least one member of the cabinet, Whether any attempt was made by some of those in his official family to persuade him not to advocate a doctrinwhich was sure to be denounced as Socialistic is not known.

It is apparently the belief in cabinet circles, however, that the president does not intend to press the inheritance tax suggestion upon congress or upon the ountry. The president's remarks or this subject were as follows:

"It is important to this people to grapple with the problems connected with the amassing of enormous for tunes, and the use of those fortunes both corporate and individual, in business. We should discriminate in the sharpest way between fortunes well won and fortunes ill won; between those gained as an incident to performing great services to the community as a whole and those gained in evil fashion by keeping just within the limits of mere law honesty. Of course, no amount of charity in spending such fortunes in any way compensates for mis conduct in making them.

"As a matter of personal conviction, and without pretending to discuss the details or formulate the system, I feel that we shall ultimately have to consider the adoption of some such scheme as that of a progressive tax on all fortunes, beyond a certain amount, either given in life or devised or bequeathed upon death to any individual-a tax so framed as to put it out of the power of the owner of one of these enormous fortunes to hand on more than a certain amount to any one individual; the tax, of course, to be imposed by the national

and not the state government. "Such taxation should, of course, be almed merely at the inheritance or transmission in their entirety of those fortunes swollen beyond all healthy

Drastic Measures Follow Panie Chicago, April 17 .- As a result of the Easter eve panic at St. Ludmilla's Bohemian Roman Catholic church, when three little girls were killed and more than a score of persons injured, all churches throughout Chicago where the building laws are not enforced are to be closed. Policemen are to be stationed at every house of worship to prevent overcrowding.

The Salvationists' Congress Binghamton, N. Y., April 17 .- Miss Evangeline Booth announces that the International Salvation Army congress will be held in the Hippodrome, New York, from May 11 to 16. This is the first time that a religious body has made an attempt to hold a meeting there.

CUT TO \$50,000

Amount of Bay State's Appropriation For Jamestown Show Boston, April 17 .- Negroes who have for days packed the house galleries won QUINCY MUSIC HALL a victory in their opposition to the

\$75,000 appropriation under which Massachusetts was to have been represented at the Jamestown exposition That appropriation was reduced to \$50, 000 by the adoption of an amendment offered by Mr. Hayes of Lowell after a debate which rang with the arguments of race prejudice.

Mr. Forbes referred to the Missourl lynchings of Saturday and Sunday, and declared that Massachusetts ought to place herself on record against them by refusing any appropriation. Mr. Tickets good for 5 lessons. McEttrick declared that it was the duty of Massachusetts to herself to show that she resented any possibility of insult to her negro citizens. Mr. Hayes, Mr. Bennett and Mr. Ward also spoke for the Hayes amendment. By a rising vote of 72 to 58 the amend-

nent was adopted. On a rollcall the same result was attained by a vote of 80 to 54. Then the Jamestown resolve for \$50,000 was passed to be engrossed.

How Voliva Would Settle the Zion City Troubles

SUBMITS HIS PROPOSITION

Willing to Give Dowie Sole Proprietorship of Five Percent of Properties Said to Be Valued at Twenty Million Dollars

Chicago, April 17 .- Arbitration of the dispute in the Christian Catholic church over the control of the church has been offered by Overseer Voliva to John A. Dowie, who was ousted from the leadership of the church recently by Voliva. Dowle has not decided whether to accept the proposal of Vo-

Voliva's ultimatum provides for a board of four or eight members, as Dowle may choose, half of the members to be selected by Voliva and half by Dowie. In case of a disagreement, an additional member of the board is to be selected by Voliva. The board is to decide finally all questions in dispute. Pending a decision as to who shall control the church and its properties, said to be worth \$20,000,000, all property belonging to the church is to be transferred to the board.

Attorney Wetten, representing Dowie, said of the proposal: "John Alexander Dowie will never consent to sacrifice the ecclesiastical power over Zion City.'

Attorney Newman, representing Vo liva, said: "We are willing to concede that Dowle has an indisputable right to 5 percent of the property owned by the Christian Catholic church, but we demand that a conference between the Dowie, faction and the followers of Voliva be held and that Dowle sign an agreement whereby he relinquishes all claims to the property in question in consideration of the fact that he is vested in the sole proprietorship of 5 percent thereof."

Attorney Wetten yesterday told the postmaster at Zion City that certain statements printed in the latest issue of Leaves of Healing, the church paper of Zion, were slanderous and improper, and informed the postmaster that i would be a transgression of the postal laws to permit the paper to enter the mails. Wetten then telegraphed to Postmaster General Cortelyou for a ruling in the case. Both sides to the church squabble are awaiting a ruling from the postoffice department.

*Jews Safe In Russia

Washington, April 17.-The state department, which has been in cable communication with Ambassador Meyer at St. Petersburg relative to the possibility of anti-Jewish disturbances on a great scale in Russia, has received the most positive assurance that every possible precaution has been adopted by the Russian government to prevent an anti-Jewish uprising and all the reports in hand indicate that such an uprising is no longer to be feared.

Holdup Man Killed

Springfield, Mo., April 17 .- A negro named Burns was shot and killed by a young white man who was escorting a young woman to her home when they were held up by two negroes. The white man drew a pistol and fired at the negroes, who fled, as he supposed. He ran after them, not knowing he had shot one, and stumbled over the dead body of the man he had shot. The other escaped.

Arranging Wedding Details

London, April 17 .- King Alfonso's visit to his bride-elect in her English home is favored by beautiful weather. The king arrived at Cowes this morning, bringing superb presents and intending to spend three weeks here, during which time the final details of the wedding will be arranged and the marriage treaties drawn up.

Auto Killed Two Women

White Plains, N. Y., April 17 .- A grand jury found two indictments each for manslaughter against John Johnson, chauffeur, and John C. Rodgers, Jr., owner of the automobile which ran down and killed Mrs. Betty Kuchler and her sister, Miss Stein, while the aged women were returning from church at New Rochelle.

Dealt In "Queer" Certificates

New York, April 17 .- L. C. P. Cormey was convicted of forgery in connection with the sale of forged securities of the Norfolk and Western railroad. He is already under sentence of 41/2 years for uttering a cancelled bond of the New York and Hempstead railthis charge.

New Furniture For Spring.

Spring cleaning usually shows the need of some new pieces of furniture, a carpet, rug, matting, new range, window shade, drapery, mattress or such. There isn't a store in New England with an assertment of Furnishings to Suit your notion so well as at this store.

If we sell more furniture in Quincy and suburban towns than all other dealers combined there's a reason for it. That reason is our close margin policy and liberal treatment. Our prices are lower, quality being equal, than those of any other store. CASH or EASY PAYMENTS.

the water rates have got to be overhauled. The questions of rates should be considered at the same time.

Councilman Hunter opposed acceptance of recommendation. We should put this matter where we can get at it. Councilman Polk no one can now say what ordinance should be reported.

Councilman Chase objected to having the Commissioner going ahead and doing as he saw fit.

Councilman Moir-If the Finance Committee had been alert they would have known that every manufacturing plant was using meters. We cannot say what the rate for houses will be until we know what we are to do.

Councilman Sawyer-No department official had a statement to make, as to how this money should be used. We should have some idea where to start in before we appropriate this money.

Councilman Chase was anxious to see a scheme embraced as soon as pos

Councilman Moir -An ordinance at this time would be of no assistance

Mayor Thompson-All agree that meters shall be installed. He felt that not less than \$20,000 should be expended this year. In about three years at this rate all services would be metered. If no steps are taken now on this matter, and later the other order passed, this order must be changed. As to the cost of meters, the kind the superintendent wants, cost about \$10.50 each.

The question is, are we to prolong this matter. In regard to where a beginning shall be made, it makes no difference. The income from services is not sufficient to meet changes the law says shall be made. In order to make up the deficiency we have had to carry part in the tax rate. We cannot change the charge for water until we have at least two-thirds of the services metered

Grand Fair of Woman's Relief Corps School

The annual three days' fair of Paul R-vere Woman's Relief Corps was successfully opened Tuesday afternoon in Hancock hall. The attendance on the opening night was large and good sales were reported at all of the sales tables.

The opening exercises were in charge of Mrs. E. A. Penniman, president of the corps, and to her efforts, combined with those of Mrs. Mary A. Fox, chairman of the fair committee, the success of the fair is due.

The exercises consisted of brief addresses by Mrs. Agnes Parker; Past National President, of Brockton; Mrs. Alice M. Goddard, Department President, of Brockton; George W. Penniman, Past Chief Mustering Officer of the Sons of Veterans; and Mrs. George Dexheimer, President of the Ladies' Aid. The fair was formally opened by John D. Williams, Commander of Paul Revere Post, 88, G. A. R.

The tables for the sale of the various articles were arranged on both sides and ends of the hall. They were prettily lecorated with colored bunting and ooked very attractive. There was a large assortment of articles for sale. These tables were presided over as

Prominent Ladies and Gentlemen Among Pupils

At eight o'clock there was "standing room only" for those desiring to attend the old time district school given in the chapel of First church on Tuesday evening by the Quincy Historical society. The audience began to gether at seven o'clock and soon every seat was taken; more seats were brought in out then some thirty had to stand.

The stage setting was particularly ccurate being reproduced from an old district school room of years ago. The desk used was very old, belonging to Price Greenleaf, and there was a Boylson Adams and a Charles Breck chair. The scholars' seats were the rude affairs so common in old days. Instead of desks long benches were used for books.

The program opened with a short

ustoms of the time. At half past eight Schoolmaster Hezkiah Pendergrass entered the school oom and rang the bell. The scholars came trooping in of all ages and sizes, as is usual in district schools, each politely courtesying to the teacher before hanging up their hats and going to their seats. Tin pails and baskets contained lunches, and rosy cheeked apples, striped sticks of candy, big pickles and

gum were soon in evidence. the blackboard to read and made la-Field, Mrs. Sarab C. Williams and Mrs. dicrous mistakes. The older classes recited in history and geography, the

answers being far from correct. After the school committeeman came Candy table, - Miss Elvira Ewell and the scholars "extinguished" themselves in composition and declamation.

It could hardly be called an orderly school, as slates were continually dropscholars indulged in doughnuts, candy

The school committeeman made the customary remarks congratulating Schoolmaster Pendergrass on his quiet, well behaved school. Those participating in the perform-

ince were: Teacher, -Mr. Walter E. Simmons. Committeeman,-Mr. Emery L. Crane. Girls, -Mrs. Isabelle Davis, Mrs. Wilson Marsh, Mrs. George G. Saville,

Strike Commission Should Be Retried--Mine Owners Contemplate Extended Strike

New York, April 18 .- A sub-committee of presidents of the anthracite coalcarrying railroads and mine operators Mass. Tel. 349-5 Quincy. held a meeting here and drew up a letter to President Mitchell of the United FRANK F. CRANE, Mine Workers of America, in which the presidents again declare that there is nothing to arbitrate except the question whether there shall be any arbitration.

This reply is made in response to Mitchell's recent amended proposition of arbitration. The operators do not, however, refuse point blank to accept Mitchell's latest plan. They assert that all the differences between the miners and their employers have been decided **OUR HOSPITAL** by the strike commission and that there is no reason why another attempt should be made to arbitrate them.

After describing the previous steps operators aver that the miners have rejected all the propositions and that they have nothing further to offer. The letter says in conclusion:

"The fundamental principles regarding the conduct of this business have all been established by the strike commission. No reason is suggested why they should be retried. As to the only matters regarding which you have made the least suggestion that conditions have changed we have suggested that the existence and effect of such change be considered by the strike commission, and that its award be in force for three years so that political considerations may have as little influence as possible upon these business questions.

Thousands of Children Affected by Divorce Decision

Washington, April 18 .- The decision by the United States supreme court in the case of Haddock vs. Haddock, declaring that when both parties to a suit for divorce do not reside in the state in which the suit is brought, the decree of divorce granted is not enforcable in any other state, is of vital interest in every state in the Union.

The conditions in the Haddock case form a simple example of what this decision means. When Haddock brought suit in Connecticut, where he resided, against his wife, she was living in New York. The court holds that the fact that both did not live in Connecticut made the divorce decree worthless in another state. Haddock's second marriage, therefore, was declared void, and his second wife was not his lawful wife, and children born of such marriage would be illegitimate.

This is a blow to Dakota divorces, and all those secured at Newport in recent years by society women who have sought to rid themselves of undesirable mates.

Fully 20,000 children in the United States, heretofore considered legitimate offspring of legally married couples, may make no claim as helrs.

Divorce Decision Creates Chaos Chicago, April 18 .- It is estimated by Chicago lawyers that the decision of the supreme court of the United States holding illegal all divorces except where both parties to the suit resided within the same jurisdiction will make illegal 500 divorces that have been granted in this city alone and pave the

the next generation over inheritance

New York, April 18 .- The second day of the war on poolrooms inaugurated by the Jockey club at the Aqueduct race track was marked by the same de lay and strict censorship of all tele graphic messages which put the pool room representatives in a panic of Monday. In the city the smaller pool rooms, unable to withstand the new burden of cost, one by one closed their doors, while the larger places of wager, by an elaborate system of relay runners from watchers in trees and on telegraph poles to leased telephone ines, did a cautious but brisk business.

Women Take Part In Rioting Lens, France, April 18 .- There has een a renewal of the disturbances conequent on the strike of miners in the Pas De Calais district. The wife of a miner who had refused to strike was attacked in her home by 150 women, the wives of strikers, her clothing torn off and her furniture wrecked. Gendarmes who interfered to stop the riot were stoned by the women, and cavalry ordered to assist the gendarmes was similarly resisted. Several women were ar-

against the Alton (Ills.) water works, in consecutive years next prior to the filing of this libel. Wherefore your libeliant prays that a divorce from the bonds of matrimony may be decreed between your libeliant and tempt by withdrawing the suit. Humphrey had agreed to remit the sentence if Lewis would withdraw the suit.

CARE OF PAUPERS

Tendency to Shift Burden Upon Shoulders of Commonwealth

Boston, April 18 .- That many cities and towns are shirking their responsibility in the matter of caring for paupers, and casting upon the citizens of the commonwealth at large the burden they themselves should bear, is a point raised in a bulletin issued by the bueau of statistics.

This shifting of the pauper burden is said to be accomplished through the failure of assessors to assess such persons as are likely to become public charges, and when such persons are unassessed it is a matter of statute that they be cared for by the commonwealth rather than the municipality. In the recent state census the enumerators found 32,407 more ratable polls than were to be discovered on the assessors' returns, the largest discrepancies being shown in New Bedford, Springfield.

Besides considering this matter at ength, the bulletin gives an exhaustive description of the methods of taking a state census and pays a high compliment to the efficiency of women enumerators.

"One Man Power" Too Great Boston, April 18 .- Representative

Towne of New York discussed "The One Man Power in Politics" before the Massachusetts Reform club last night and declared that in this country the speaker of the national house of representatives, instead of being an officer necessary for efficient conduct of legislative business, had become a political officer who could, by the accumulated power, further the ends of the party which he represented.

Prosperity In Massachusetts

Worcester, Mass., April 18 .- Lieutenant Governor Draper was the principal guest at the annual banquet of the Worcester Board of Trade last night. He asserted that the cotton manufacturers of the state were better off today than they had been for 20 years. The boot and shoe and woolen industries, which he classed with cotton as comprising the three great industries of Massgchusetts, were never in as good condition as today, he said.

Pork Men Seek Foreign Trade Boston, April 18 .- That American packers of pork are again seeking busi-

ness in European markets, after a discontinuance of that trade for the past five years, is indicated by the fact that microscopical inspection of pork for export has been resumed in Boston by the United States department of agriculture. Boston is favored as the first port to be equipped to do business again with the foreign trade in pork.

Runaway Horse Caused Panic Boston, April 18 .- While more than 17,000 persons were leaving the American league baseball grounds after a game with New York a cab horse became frightened at an automobile and ran headlong into the most dense portion of the crowd, causing a panie in which several persons were slightly in-

jured. Three were knocked down and

"Bucket Shop" Legislation Boston, April 18 .- A bill designed to prohibit bucket shops, so-called, in this state, and "bucket-shop" operations was passed in the state senate to the engrossment stage and will now go to the house for concurrent action. Central Bank's Final Dividend

Boston, April 18 .- Frank D. Allen. receiver for the Central National bank of this city, which was closed Nov. 14, 1902, with liabilities of about \$5,000,-000, has been instructed by the controller of the currency to pay a final dividend of 10 percent, with interest, to the depositors.

Want Ten Percent Increase

New Bedford, Mass., April 18 .- The Spinners' union last night, after a discussion of the wage question, voted to join with the other local unions and petition the manufacturers for an advance in wages. Ten percent, it is generally conceded, is the advance that will be asked for.

Won't Probe Too Deep

Washington, April 18 .- The sub-committee of the senate committee on postoffices and post roads appointed to investigate protests against the confirmation of Benjamin F. Barnes to be postmaster of Washington has determined not to undertake a formal investigation. The sub-committee will report its findings to the full committee and if not instructed to go further will permit the controversy to rest.

Kansas City, April 18 .- In the rebate cases in the United States district court here the plea of immunity filed by the railroads on the basis of the decision by Judge Humphrey at Chicago in the beef trust cases was denied. The court here held that the immunity granted by the statute was personal privilege to the one testifying or giving information.

An Insurance Measure Looking Toward That End

IS SENT TO CONGRESS

Proposes Insurance Bureau In Department of Commerce and Labor -- President Urges Immediate Legislation

Washington, April 18 .- President Roosevelt transmitted to congress an important message relating to insurance legislation. Accompanying the message were the report and recommendations of the insurance convention, which was held in Chicago last February. Among the recommendations is the draft of a bill which congress is urged to enact into law, with such amendments as its wisdom may

The president urges the enactment of the proposed measure, as, he says, "We are not to be pardoned if we fail to take every step in our power to prevent the possibility of the repetition of such scandals as those that have occurred in connection with the insurance business as disclosed by the Armstrong com-

The bill recommended was drafted by amending the measure introduced in congress by Representative Ames (Mass). It provides for the establishment of an insurance bureau in the department of commerce and labor and for the appointment of a commissioner who shall have no official connection with any insurance company or who shall not be interested in the business of any company except as a policyholder. The commissioner is required at least once in three years to examine all companies doing business in the District of Columbia. Forms are prescribed for the issuance of annual statements and the commissioner is authorized to demand other information from the companies if he believes it neces-

If, upon examination, the commissloner is of the opinion that any domestic insurance company is insolvent manner transacting business contrary to the provisions of this act, the bill provides that the commissioner shall lay the facts before the attorney general, who may apply to the supreme court of the district for an injunction restraining its further business. Under the same conditions he is authorized to revoke the certificate of a foreign insurance

A minimum capital stock of \$50,000 is proposed for accident companies, \$100,000 for plate glass and elevator insurance and \$200,000 for all other companies. It limits the investment of capital stock. Companies may also be organized on a preliminary stock plan.

Directors are made liable for any ilnot permitted to do both a participating lowest prices. and non-participating business. Under the requirements for organizations of insurance corporations the capital stock the date of organization, but no policies Office, Penn Street. shall be issued until the capital stock has been paid in. The bill provides for the investment of the capital of domestic companies practically as is provided by the Ames bill.

The bill contains a plan whereby all policyholders shall be enabled to participate through proxies in the election of directors at the annual meetings. The salaries of all officers and ageuts over \$5000 a year must be authorized by a vote of the board of directors of the insurance corporation. Pensions cannot be voted to a member of the family of an officer after his death, and disbursements of over \$100 require properly itemized vouchers.

The bill prohibits rebating of proportions of premiums, and discrimination between classes of insured. Standard forms of policies are prescribed. A policy cannot be forfeited after the payment of two full annual premiums. No insurance company which issues a contract, the performance of which is contingent upon the payment of assessments made upon survivors, shall do

business within the district. Provision for fire, marine, casualty, title, filedity and surety companies is made in the bill. All insurance companies, their officers or agents, are prohibited from making political contribu-

Warrants Out For Lynchers

Springfield, Mo., April 18.-Warrants for the arrest of 100 men connected with the lynching are in the hands of Sheriff Horner. Someone fired two bullets into the house of S. P. Fielder, the father of Oille Fielder, the young woman whom Leslie Peters was escorting when, being attacked by two negroes, he shot and killed one of them. Peters was acquitted by a coroner's jury.

The Dewey Making Good Progress coma, which has been acting as a convoy to the drydock Dewey since she passed the Island of Malta on April 4. has arrived at Port Said, at the north end of the Suez canal, and reports that the dock is making good progress and is due at Port Said tomorrow.

The Situation at Windbers

Johnstown, Pa., April 18.-Windber's streets present a town bristling with the bayonets of the state constabulary. New Furniture For Spring.

Spring cleaning usually shows the need of some new pieces of furniture, a carpet, rug, matting, new range, window shade, drapery, mattress or such. There isn't a store in New England with an assortment of Furnishings to Suit your notion so well as at this store.

If we sell more furniture in Quincy and suburban towns than all other dealers combined there's a reason for it. That reason is our close margin policy and liberal treatment. Our prices are lower, quality being equal, than those of any other store. CASH or EASY PAYMENTS.

It is thought that the relief will take will be invited to contribute.

As many Quincy people have relatives and friends in the stricken city, from which nothing has been heard since the disaster, there should be a large attendance at this meeting, and the citizens should not be slow in coming forward to the relief of the thousands of destitute people in the stricken city.

New Novels.

In an effort to still further solve the fiction problem at our Public Library, there have been added this week in one of the Tabard Inn revolving bookcases one hundred novels, all fresh and clean and mostly really new copies. The Booklovers Library of forty is still retained, so that those visiting the library this week may hope to find something to satisfy the desire for one of the late novele. Among the newest of the books are the following: Barbara Winslow, Rebel; Randvar the Songsmith; Wild Wheat; Angel of Pain; Curayl; "No. 101"; Triumphs of Eugene Valmont The Great Refusal; The Genises; The Arncliffe Puzzle; The Sea Maid; Folly; Called to the Field; The Carlyles; The Long Arm; The Quickening; The Shad- often a difference of three years in the

Three Regiments of Boys' Brigade Storm and Capture Third Hill

Third hill at Wollaston has been conidered a Gibralter, but on Patriots day the Boys' Brigades of Massachusetts showed that they had the pluck and perseverance of the Japanese, and by a systematic attack captured the height. The extended order movements were witnessed by hundreds many of whom occupied the besieged hill, and it was amusing to see them flee before the advancing enemy.

It was the annual field day of the companies of the Massachusetts division of the United Boys' Brigade of America which includes Atlantic and Wollaston companies. Thirty-one companies representing eight regiments participated. Most of them arrived at Wollaston by train or electric car before 9.45 A. M. Mayor Thompson and there were lively scenes about the station until ten o'clock.

A line of march was taken toward Third Hill via Newport avenue, Brook street, Safford street and Beale street, the boys attracting lots of attention en

The brigade was divided into three regiments for the attack, and there was a well defined plan. The first regiment continued along Beale street and constituted the chief attacking body. The other two regiments went up Winthrop avenue, the second regiment turning into Lincoln avenue, and the third regiment into Warren avenue. These regiments were used largely as a reserve but supported the first regiment and made a spirited charge at the last, making the victory decisive.

There were no defending companies on the hill, but there was an imaginary foe there. The attack was not made in one grand rusb, but with all the strategy of war. Pickets were posted, spies sent out, and the companies were so dismeeting. Just what action will be tributed that they almost encircled the deemed best to take will be decided at hill. When not charging the men were flat upon the ground picking off the enemy with will directed shots. One the form of a subscription to which all company would advance about 25 feet, and then another company, until the summit was nearly reached, when there was a grand onslaught, and the victory

> was won. Each regiment was accompanied by a hospital corps. The corps from Dorchester with the First regiment was in command of Com. R. W. Morse, the corps from Melrose with the Second was in command of Corp. Morrison, and Act. Corp. Elliot had charge of the Wollaston corps with the Third.

Between 12 and 1 mess was enjoyed and the boys had a little rest.

The band arrived late and it was nearly 1.30 before the line of march was taken for City Square, Quincy. Mayor Thompson was to have reviewed the brigade at City Hall, but in his absence Councilman A. H. Gilson represented the city, Rev. E. N. Hardy the clergy, and there were representatives of the

press in the reviewing party. Most of the companies made a very creditable exhibition as they marched by. Most of them were company front, but one had the cross formation. They wheeled into Temple street, and then

by Maj. Gen. P. A. Bridgham and staff, which included Col. W. R. Musson of Antrim, N. H., who was assigned as inspector for the day; Sergt. Fred B. Perkins, and Corp. Shattuck.

Auto Parties. Automobile afternoon under the au-

spices of the Woman's Auxiliary of the Y. M. C. A. was a grand success, from 200 to 300 taking part. Some cars expected were disabled and unable to report, but Dr. Hardwick took out 80, Robert Fraser nearly as many, and Dr. Johnson and Mr. Whitman a goodly number. Inside the Association building the ice cream, cake, candy and sandwiches found a ready sale.

PUBLIC RELIEF MEETING

Drift of Opinion.

The action of the lobby in killing the Boynton bicycle railroad bill deserves for the Senate the bitterest condemnation. If everything that is said against the measure and its backers be true, the extension of time asked for is harmless to any interest, and if these things are not true, and there is an actual possibility of the road being built, there is every reason why the bill should be passed. The scheme of the West Newbury inventor is not of the illusionary sort against which the ordinary investor may rightly seek protection at the hands of the legislature, but get its funds, if any are secured, from men who are perfectly competent to consider and determine their own investments. If, as is said in some quarters, the Senate was only joking in its favorable action on the bill, it must be admitted that it exhibited a decided lack of taste and an unfortunate sense of what is just and right in its dealings with the petitioner. - Haverhill Gazette.

FOR RELIEF WORK

President Appeals to the People For Contributions

\$1,000,000 FROM NATION

War Department Sends Food and Tents to Homeless Sufferers--Large Cities Are Actively Engaged In Rendering Aid

Washington, April 20 .- President Roosevelt, after a conference with Miss Mabel Boardman of the American National Red Cross, issued, in the form of a proclamation, an appeal to the American people for aid for the people of San Francisco. He asked that all contributions be made through the officials of the American National Red Cross, who have effected systematic arrangements for the distribution of the needy assistance. The full text of the president's proclamation follows:

"In the face of so terrible and appalling a national calamity as that which has befallen San Francisco, the outpouring of the nation's aid should, as far as possible, be entrusted to the American Red Cross, the national organization best fitted to undertake such relief work. A specially appointed Red Cross agent, Dr. Edward Devine, starts today from New York for California to co-operate there with the Red Cross branch in the work of relief.

"In order that this work may be well systematized, and in order that the contributions which, I am sure, will flow in with lavish generosity, may be wisely administered, I appeal to the people of the United States, to all cities. chambers of commerce, boards of trade, relief committees and individuals to express their sympathy and render their aid by contributions to the American National Red Cross. They can be sent to Charles H. Keep, Red Cross treas-urer, Washington, D. C., and Jacob H. Schiff, New York, Red Cross treasurer, or other local Red Cross treasurers, to be forwarded by telegraph from Washington to the Red Cross agents and officers in California."

The house yesterday afternoon appropriated \$1,000,000 for the suffering and homeless in San Francisco and other California towns, and gave the secretary of war, the secretary of the treasury, secretaries of the navy and commerce power to co-operate with mayors of the stricken cities that the very best results might be obtained in affording relief. The resolution later passed the senate and was signed by President Roosevelt.

Rations, tents and supplies of all sortare being rushed by the national gov ernment to San Francisco in aid of the people of that stricken city. President Roosevelt has issued instructions to the heads of the several departments that all possible asitance be rendered to the people of San Francisco.

The following telegram has been sent by General Bell, chief of staff, to General Funston, by direction of the secretary of war, after a conference between Secretary Taft and Secretary Bona

"Secretary of war directs me to inform you that the quartermaster gen eral has been directed to forward to San Francisco all available canvas in possession of the army. The commissary general has been directed to ship 200,000 rations from nearest shipping points. Admiral McCalla, at Mare Island, will be instructed to confer with you and to furnish all food supplies that can be spared from the stores at Mare Island; also to furnish any avail- 1422 HANCOCK STR ET. able canvas suitable for making impro-

vised shelter. Omaha, St. Louis and other western markets will be drawn on to supply the immediate demands of the sufferers, as it is not thought advisable to exhaust the limited supply at western army posts. It is believed by the war depart ment officials that railway communica tion with San Francisco will be re-es-

tablished without delay. President Roosevelt is in receipt of cablegrams expressive of the sympathy with this country of foreign rulers and foreign countries on account of the appalling disaster at San Francisco.

ULD LANDMARKS GONE

With Them Went Great Buildings of Modern Construction Old landmarks, made famous by as-

sociation with the early history of California, as well as the new monuments to the commercial prosperity of California's metropolis, have been wiped out of existence by fire. One of the first landmarks to fall a prey to the flames was the Palace hotel, known the world over to travelers. It was buil by James Raiston, at a cost of \$6,000, 000, and was owned by the Sharon

The Bohemian club is one of the widest known social organizations in the world. Its membership includes many men famous in art, literature and commerce. There were on special exhibition in the "Jinks" room of the Bohemian club a dozen paintings by old masters, including a Rembrandt, a Diaz, a Murillo and others, probably worth \$100,000. These paintings were lost.

The Olympic club, the oldest regular organized athletic association in the United Statees and famous for its ap pointments and for the number of athetes it has developed, was burned to a skeleton. The building was worth \$300,000 and its furnishings were of the finest quality.

The great new Flood building, built by James Flood at a cost of \$4,000,000; the new Merchants Exchange building erected at a cost of \$2,500,000; the Crocker building, worth \$1,000,000; the Mills building, costing \$1,000,000, and the new Shreve building, costing \$2,000,-900 and occupied on April 1 by the largest jewelry store on the coast, are some of the new structures destroyed by the flames. Brawley Is No More

Los Angeles, Cal., April 20.-Brawley, a small town 120 miles south of Los Angeles, was practically blotted out by the earthquake of Wednesday. This is the only town in Southern California known to have suffered from the shock Southern Pacific officials here say the following buildings there, all brick structures, were destroyed: Brawley bank building, Paulin building and th principal merchandise buildings of the town. In addition, dozens of houses were razed. So far as known, there were no fatalities. Brawley is about two years old and had a popu

SCANTY FOOD SUPPLY

Bakeries Have Been Constructed In the Military Reservation

The Presidio reservation, the vast Richmond district of thousands of acres, Golden Gate Park, and the surrounding hills resemble one vast circus ground. Tents and improvised coverings have been erected everywhere, fireplaces built in the streets, beds and nattresses thrown down all over the ection. The people thus situated are

But there is the one great danger for the homeless, and that is that the food supply will run out. Every grocery in San Francisco has been taken by the authorities and each family is being sold only one article at a time. In many places the police and military prohibit overcharging. General Funston announced that rations would soon reach the city and then the people will be supplied from the Presidio. Bakeries have already been built within the reservation, and the bread supply therefore has not failed completely. The governnent also has begun to ald in the flight of the people to Oakland, Berkeley and Alameda. Tugboats and steamers are being pressed into service for this purpose and there is a vast army on the way to the ferries.

WRECKAGE AND RUIN

Scarcity of Water Adds to the Horror of the Situation

From the waterfront the burned city can be seen in all its smoky nakedness. From the Pacific Mail dock to Vallejo street, on the west side, a distance of two miles, wreckage and ruin is the rule. Although the fire did not jump East street, the damage has been enormous. The filled-in land facing the ferry building is a succession of little valleys, some four, others six feet deep. The ferry tower itself is out of plumb and the big building is much twisted by the earthquake.

Looking up Market street from the ferry building, the city is a smouldering mass of ruins. Great manufactories, mercantile houses, banks and office buildings are nowhere to be seen, and only in spots is there so much as a tower, the monument of a burned struc-There is searcely any water to relieve

Russian To Speak.

The people of Quincy will have an opportunity on Saturday evening to hear a Russian baron tell of the revolutionary times in his country. Baron Waldemar Uxkull, a member of one of the oldest and most notable families of Russia will speak at the Baptist church at Wollaston, and a general invitation is extended to everyone.

His object in coming here is to arouse interest among Baptists of America in his people. There are 60,000 of the faith now in Russia, he says. Millions of others need but little encouragement to make them converts, although the wealthier class frown upon it. He wishes to raise several million dollars in this country for the cause, and it is said he is to interest some prominent wealthy Americans in it. Fire Threatens to Cut Off the Ferry at San Francisco

FLAMES SUBDUED IN MISSION DISTRICT

Thousands of Suffering Members of Families Separated, With No Means of Learning One Another's Whereabouts--Social, Financial and Racial Distinctions Wiped Out by Common Destitution--The People Brave and Patient--Many Dead Are Found In the Ruins

San Francisco, April 21.—San Franeisco has not seen the conclusion of the devastating work of the conflagration that followed the earthquake of Wedresday morning. The fire that started George H. Brown; Att'y, Adams Building at Nob hill and worked its way to the north beach, sweeping that quarter clean of buildings, later veered around before a fierce wind and made its way southerly to the immense sea wall sheds and grain warehouses.

> The flames are heading directly for the immense ferry building, the terminal point by ferryboat of all overland and local trains of the Southern Pacific road. The wind, which at times amounted to a gale, added fresh terrors to the situation. The authorities considered it so grave that it was decided to swear in immediately 1000 special policemen armed with rifles furnished by the federal government. In addition to this force, companies of the National Guard arrived from many interior points

The main remaining fire is confined to the east of Van Ness avenue and North Union street, but is burning its way to

A wind of high velocity is blowing from the northwest over the fire-stricken districts along the waterfront and is threatening to cut off communication with Oakland and Berkeley.

General Caster has ordered out a squadron of men to endeavor to keep back the flames which threaten the Union ferry depot, the only means of egress from the city. The waterfront emergency hospital is endangered, and the officials in charge are prepared to move from their quarters. The wind is of such velocity that brick and granite walls, weakened by the earthquake and subsequent fire, are falling into the streets. Market street, the principal avenue of escape from the blocked, thus shutting off the only ready means of escape to the ferry.

the saved districts and poured all liquors into the gutters. A clear sky over the Mission dis-

shows that the fire there has been extinguished. The spread of the flames toward the western addition, the best part of the city remaining, has been stayed, and the only portions of the conflagration that demand the attention of the firemen is that extending from the Nob hill section down to the northwestern part of the waterfront. The western addition danger was averted by the use of guncotton, dynamite and two streams of water. The explosives were handled by the chief gunner of the Mare Island navy yard and his achievements proved him to be a master of his profession.

The work of relief was started early yesterday. A big bakery in the saved district started its ovens and arranged office at C. F. Pettengill's, 1391 Hancock to bake 50,000 loaves of bread before night. Thousands of people were in line before the California street bakery. The police and military were present in force and each person was allowed only one loaf. The homeless people in the parks and vacant lots were provided for as speedily as possible.

The problem confronting the city government and federal authorities is how to feed the multitude of destitute. Supplies are coming in by the trainload, but as yet the system of distribution is not in complete working order.

The musicale at the residence of Mr. and Mrs. F. O. Wellington on Quincy avenue was a recherche affair given by the Unity Circle of King's Daughters Wednesday evening. The house was thronged with guests. The music room was filled with a brilliant audience.

Mrs. F. O. Wellington, Mrs. H. B. Voorhees and Mrs. H. B. Bachelder received the friends on entering. Miss Maude C. Tinkham was custodian. Misses Stetson and Richards welcomed those present to the music-room. New York, Boston, Quincy and all localities of Weymouth and Braintree were represented in the assemblage. Mr. Harold Wellington opened the program with an

Next the Park male quartet of Boston sang "Don't yer ery ma honey," with musical swing. As an encore they gave 'Rumbling of the Mill." Another encore was "The Monkey and the Peanut Stand." Mr. T. A. A tenor solo was appreciated. The quartet was very musical in the interpretation of their numbers, although their second bass was unable to be present, a substitute in Mr. Thomas was an excellent help. Mr. Raymond by request gave the overture to "William Tell" with rapidity of execution from memory and received applause.

The company was then invited to the dining-room and wafers and fruit punch were dispensed to all present. Here, Miss Annie C. Richards served the punch, assisted by the Daughters, who passed the refreshments with gracious hospitality. Social chat flourished and soon goodnights were exchanged, and thanking Mr. and Mrs. Wellington for so kindly opening their residence, all departed to their homes.

THE COOK AND THE KITCHEN

Importance of Culinary Department Increasingly Recognized.

The importance of the kitchen in the house plan is being more and more recognized every day. Two widely different causes have brought this about A more intelligent appreciation of the house plan, a keener realization of the necessity of having only good rooms, no matter what their uses might be; a knowledge that any badly lit, badly placed, badly ventilated room means a bad spot in the house, have helped mightily in the advancement of the kitchen. And the cook herself has been an enormous agent for reform. Her importance far transcends that of any mere room. As her personal estimation of her value has grown her demands for accommodations have increased in pro-

The good cook now flatly declines to work in any but a good kitchen, and that cooks of a very inferior quality will take the same high minded position. So the kitchen has been improv ed in many ways to meet these modern conditions, neither of which is concerned with the possibility of doing good work in a good room, but both of which unquestionably lead to that result.-American Homes and Gardens.

ALPINE ROOT DIGGERS. Their Work of Danger High Up In

Throughout the whole chain of the Alps there are men who make it their business to search for and root up the gentian, arnica, puffballs and other Al-

pine flowers. High up in the mountains the root grubber, generally an old man, builds a little hut. He clambers precipices to the edges, where the blue flowers grow; or, if he cannot ascend, he lets himself down to their place of refuge

by a rope fastened to a pine above. He wanders to a long distance from his hut and does not always trouble to return to it at night, finding shelter under a rock. Next morning he spreads all the roots he has collected on a rock, where they may dry.

He collects herbs as well as roots, and the resin from the pine besides. When the summer is over and there are signs of snow, the root grubber collects all together in his little hut and finally transports the whole of his six months' collection to the valley.

The arnica and some other roots used in medicine are readily disposed of. From the gentian is made the favorite gentian brandy, which is considered the very elixir of life by the mountain folk. In other days, when gentians grew in great numbers, the root digger was able to realize a good income from his perilous occupation, but it is otherwise now.—Chambers' Journal.

THE TIMOROUS KUBUS.

They Live In Sumatra and Are the Shiest People Alive.

There is a very singular race of people in Sumatra, the Kubus, who are too timorous and shy to mix with the other races of the island and dwell in the recesses of the forests. They are looked on as inferiors by the Malays and thought to be little better than beasts. Such is their shyness that they will never willingly face a stranger.

Their trade with the Malayans is con sequently carried on in a strange manner. The trader announces his arrival by beating a gong, and he then retires. The Kubus approach, put their forest treasures on the ground, beat a gong and retreat. The trader returns and lays his commodities down in quantities sufficient, as he thinks, for the purchase of the goods on sale. Then he retires, and the Kubus reappear and consider the bargain.

And so, after more withdrawals and approaches and gong beatings, the respective parties come to an understanding and carry off independently their bargains. The Kubus in their wild state do not bury their dead. They live on snakes, grubs, fruits and the flesh of any deer or pigs they can slay. They are skillful spearmen and throw stones with marvelous accuracy.-Pall Mall Gazette.

Meals In Schools.

In Paris the city government gives every school child one full meal a day. This does not tend to pauperize the children or to lessen the responsibility of the parents, for all those who can afford to pay for the meal are expected to do so. On the other hand, no jealousy or contempt can be felt by the richer children for their starved comrades, for all are supplied with the same metal token, which has to be given up in exchange for the meal. The "cantine scolaire," as this municipal soup kitchen is called, is not confined to Paris. In the provinces the "soupe scolaire," its equivalent. has sent up the school attendance by leaps and bounds. Here, however, instead of paying for their midday meal all those who can possibly do so are encouraged to bring to school their handful of vegetables and the like, and the contributions are all put into the common soup.

Madrid's Throne Room.

The throne room of the royal palace at Madrid is one of the most magnificent in the world. Decorated in red and gold, it contains rock crystal chandeliers, colossal looking glasses of the finest quality, marble tables and priceless porphyry. The ceiling is painted by Tiepolo with the "Majesty of Spain," in illustration of the virtue of the kings and the manliness of the people, who are represented in the different costumes of the provinces. Here the sovereigns of Spain receive on grand occasions when alive and when dead are laid out in state.

Women Sailors.

Women sailors are employed in Denmark, Norway and Finland and are often found to be excellent mariners. In Denmark several women are employed as state officials at sea, and particularly in the pilot service. They go out to meet the incoming ships; they climb nimbly out of their boats; they show their official diploma, and they steer the newcomer safely into the harbor. It is the same in Finland.

Some of the Skyscrapers and Other Buildings Destroyed - Magnificent City Hall In Ruins-Fires Arrested by Dynamite-Earthquake of 1868 Described by Mark Twain.

HE recent disastrous earthquake extending over so large a part of the Pacific coast region and wrecking such an extensive section of the city of San Francisco was not the first of these catastrophes known in the western metropolis, though by all odds the most damaging. For many years the municipal authorities refused to permit tall buildings in the city because of the fear of earthquakes, several of which had already been experienced. Finally the interdiction was removed, however, and a number of skyscrapers resulted.

Prior to 1890 there was hardly a building in excess of five stories and only a few of that height. Today there is one eighteen stories high and quite a number from twelve to fourteen

ings were given a fearful shaking, and some of their occupants were made dizzy and sick. The structures were uninjured, and ever since that time there has not been so much question of the safety of high buildings of modern construction-that is, buildings of structural iron frame and facings of pressed brick, terra cotta or stone. BOSTON LETTER.

The Graft Regime at City Hall Has Started In Early.

BOSTON POLICE BILL PASSED.

Governor Guild Will Make Appointments Ere Long.

Within the last few weeks the citizens of the commonwealth, if they have been normally alert, have had, in a small way, a complete object lesson illustrating the difference between a Republican administration of affairs on a business basis at the state house and the administration of public affairs on a doing any violence to the truth. graft basis at Boston city hall. It is a While this was not generally realized comparatively small matter, but it is when this measure was first presented. typical of the difference which exists and while it had its origin in the purbetween Republican and Democratic administrations generally.

Some weeks ago six rooms in city hall were painted and decorated. The bills for this work aggregated \$3572.05. As itemized, the cost of material was put down as \$780.95, and the cost of labor at \$2761. According to the bill, the city was charged for 3029 hours of labor, equal to 378 days, or 13 days more than one full year.

It cost \$1159.30 to paint the mayor's private office and \$540.62 to paint his eral years was originated and carried public office.

Here is a little matter of comparison. For painting Governor Guild's private office, nearly as large as the mayor's private office, the bill was \$197.25. In other words, it cost almost five times as much to paint the office of Mayor John F. Fitzgerald, Boston's Democratic mayor, as it did to paint the office of Governor Curtis Guild, Jr., Republican.

The legislature has now passed to enactment the bill for a police board of one member for the city of Boston and an excise board of three members.

The measure has gone to Governor Guild and been signed. It takes effect June 1, and it is now the duty of the governor to appoint these officials.

congruous functions, and that a single board was not as desirable as two boards, each having one function.

A single head for a police department, like a single head for an army, is more in line with modern police ideas than the old three-headed system, but the case of the excise board is different. Here the members sit in a sort of jucicial capacity, and three heads are better than one in deciding questions which will come before that board for adjudication.

Under the present system a single police commissioner will administer the affairs of the police department of Boston, while an excise board of three

members will control the liquor traffic. These officials are appointed for long terms of office, and consequently will have plenty of time to carry out the policles which they may inaugurate.

It is well known that a very large proportion of the liquor licenses in the city of Boston are held by Democratic politicians and that a majority of the saloons are not run as business ventures solely, but as annexes to the Democratic machine. In fact, very many of the saloons might be termed Democratic ward headquarters without

pose of separating the policing of the city from the licensing of liquor dealers, yet there is a reform in this direction in the conduct of the saloons which certainly ought to be brought about.

Saloons Political Headquarters Now It was alleged during the discussion of this measure that much of the political chicanery and a great deal of the illegal naturalization which has been going on in the city of Boston for sev-

It is now for Governor Guild to appoint men who will see that the policing of the city is properly done and that the control of the liquor traffic hereafter shall be more carefully looked after.

\$500,000 IN BAY STATE

Bostonian Contributes \$100,000 Independently -- The Governor Asks Cities and Towns to Organize Relief Fund Committees

Boston, April 21.-It is estimated that fully \$350,000 in cash has been raised in New England for California earthquake victims. Of this amount, more than \$250,000 was given by individuals and corporations in Boston. The official relief fund lists in this city show that \$165,755 of the \$500,000 pledged by residents of Massachusetts has been paid in. In addition it is announced that A. C. Burrage of this city has given \$100,000 independently.

All sections of New England are contributing funds and many mass meetings have been called. In the churches of all denominations in Boston and vicinity special collections will be taken for the earthquake victims.

Governor Guild sent the following to every chairman of selectmen and every mayor of Massachusetts: "I argently request you to organize.

Try as he would to divert his mind to other things it always returned pertinaciously to the picture and the all absorbing question of how many children of Israel there would be them all. He grew by slow degrees to hate that picture, yet with this hate the fascination was no whit lessened. Inmore frequent became his countings until at last he realized he could know no peace of mind until the picture was taken from the room.

He had smiled in superior fashion. "So be it." he had acquiesced. "It'll suit me perfec'ly. An' I'll see to it you ain't troubled with any remarks from me."

And from that bitter day, fourteen years before, they had lived together in silence with never so much as a word paralysis which had stricken him in had wondered vaguely that day the ers. He neighbors had borne him into the house and laid him on the bed if perchance in the excitement of the moment she would forget herself and speak to him, and he was rather proud of her self restraint when she had not.

Silently she prepared his meals and brought them in to him; silently she massaged him and used the battery as the doctor had directed. He watched her narrowly day by day, all his longing for companionship in these hours of his helplessness carefully concealed beneath a cold exterior.

"If any one speaks first, it'll be her," he told himself over and over.

So day after day as his wife came ly out Daniel lay feebly fingering the

He listened for a moment, half expecting to hear his wife's footsteps on the back steps, but no one came. He dragged himself into the kitchen, pushing the picture before him. The cellar door was ajar. Thither he made his painful way and pulled it wide open. The mingled smells of damp earth and last season's vegetables greeted his nostrils. Without a pause he thrust the picture through the doorway and listened with many delightful chuckles as the children of Israel went bump-

He heard her moving briskly about the kitchen for a time; then a door squeaked raucously on its hinges. There was only one door in the house that creaked in that fashion. It was the cellar door.

He heard her descending the cellar stairs cautiously, step by step, as if she were going down in the dark. Good had been aware of its existence in a Lord! The Word "Dollar."

According to one authority, the word "dollar" is a corruption of the German word "thaler," the form in Dutch being "daalder." All these different forms were derived from Joachim's Thal, a Bohemian town, where the Count of Schlick, A. D. 1518, coined some excellent pieces in silver of an ounce in weight. "From the name of the town came Joachim's thaler, applied to the passing between them. Not even this Schlicken thaler; hence Joachim's thalabove named coins as well as that of his advancing years could shake the tion that they became a pattern, so that others of the same kind, though made in other places, took the name, the word assuming different spelling through the Low Countries, reaching Spain as dollars and through its provinces transmitted to the western hemisphere, where it was applied to coins prior to the adoption of the federal currency. In coinage, the word 'dollar' is a favorite, being found under various spellings in almost every part of the globe."

One of the charities in which St. Chrysostom's Episcopal church has interested itself is the founding of the Sailors' Haven in Charlestown. This refuge has saved the lawlessness which follows newly paid sailors in an idle space on land. The seamen are found ready and willing to have their thoughts directed toward the delights offered by music and elocution and into the higher channels of church intercourse. Monday evening many members of St. Chrysostom's church with numerous Atlantic persons gave a pleasing concert and social in Charlestown in which the sailors took active part. The program alternated between the visitors and the visited, and the tars were found to be jolly entertainers. Buns and chocolate were served and everyone was made happy in a good cause.

The Wilson house, with its fcur stories and 80 rooms, fell to the ground a mass of ruins. As far as known very few of the inmates were rescued. The Denver house fared the same and none may ever know how many were killed, the majority of the inmates being strangers.

To the north of Market street the cooming house people fared somewhat better. The Luxumborg, corner Stockton and O'Farrell streets, a three-story affair, suffered severely from the falling of many tons of brick from an adjoining building. The falling mass crashed through the building, killing a man and woman.

Streets are being cleared of debris, laborers are repairing broken water pipes, sewers and gas mains, electricians everywhere are seeking to untangle the confusion of wires-in fact, San Francisco is in the first stages of its regeneration.

There are no hungry people. The gaunt spectre of starvation has vanished by the magnificent response of the people of California and of the entire nation to the appeals that went out for assistance. Food by the carload and boatload has poured into Oakland and in sufficient quantities to overwhelm the committee which has in

So great is the volume of foodstuffs brought into the general depot at Oakland Mole that the general committee made an appeal for skilled labor in the handling of these supplies. CREMATION OF DEAD

Two Hundred Bodies Burned to Prevent an Epidemic

Two hundred bodies found in the Potrero district, in the vicinity of the Union iron works, were cremated by order of Coroner Walsh. So many dead were found in this limited area that cremation was deemed absolutely necessary to prevent disease. The names of some of the dead were learned, but in the majority of cases identification was impossible, owing to the mutilation of the features. A systematic search for bodies of the

victims of the earthquake and fire is being made by the coroner and the state board of health inspectors. The city has been divided into sanitary districts, and squads of searchers have been sent out to every quarter. The ruins of the burned buildings in the business and old residence section have sufficiently cooled to make the search possible

Refugees Tell Graphie Stories of Their Experiences

SHAKING WAS TERRIBLE

Fire Immediately Broke Out In Hundreds of Places--Houses Reeled and Tumbled Like Playthings--Street Sank Four Feet

Denver, April 23 .- Every incoming train from the west brings refugees from San Francisco, who tell sorrowing stories of their experiences and give graphic descriptions of the horrors that followed the earthquake and fire. Mrs. D. M. Johnson of Utica, N. Y., and Miss Martha Stibbals of Erie, Pa., passed through Denver on their way

"The first that we knew of the earth quake was when we were awakened n our room at the Randolph hotel by a terrible shaking which broke loose fragments of the ceiling," said Miss Stib bals. "There followed a tremendous shock, which shock the building sideways, and tossed it about with something like a spiral motion. When we reached the street people were running hither and thither. Fire was breaking out in hundreds of places over the city RICKSECKER" on it, you may be certain you and the streets were becoming crowded

with hurrying refugees. "Where people were unable to pro cure horses, men and women had harnessed themselves to carriages and were drawing their belongings to places of safety. As we passed the dis trict where wealthy people lived we saw automobiles drawn up and loaded before houses. We saw one man pay \$2000 for an automobile in which t take his family to a place of safety.

"Before night we reached the sum mit of the Alta plaza. People half clad, unfed, hysterical, searching for loved ones, crowded the ground. Beneath lay the burning city, and as nightfall came on it presented a scene indescriba

"We passed the night sleepless, with a panic-stricken multitude. In the morning (Thursday) we hurried toward the Presidio, greatly impeded by fissures which stretched long distances and around which we had to make our way. At the Presidio we were taken on board with other refugees, and a short time later we were safe in Oak-

"I climbed over dead bodies, picked my way around flaming debris, and went over almost insurmountable ob stacles to get out of San Francisco. said C. C. Kendall, a retired Omaha capitalist, upon his arrival here last night. "I arrived in San Francisco th night previous to the earthquake. was awakened about 5:15 in the morning by being thrown out of my bed in the Palace Annex. I rushed to the window and looked out. The houses were reeling and tumbling like playthings. I hurried into the street. Here I saw many dead, and the debris was piled up along Market street. The first shock lasted only 25 seconds, but i seemed to me two hours.

"A few minutes after I reached the Palace hotel office the second shock came. It was light compared with the first, but it brought to the ground many of the buildings that the first shock had unsettled. It is only a few blocks from the Palace Annex to the ferry, but it took me from 6 a. m. until 10:15 a. m. to cover the space.

"Men and women fought about the entrance of the ferry like a band of infuriated animals. I made my escapedo not remember how, for I was as desperate as any of them. As the boat crossed the bay the smoke and flame rose high sky high, and the roar of fall ing buildings and the cries of the peo-

Burgner of Osceola, Wis. With his wife and two daughters | Commonwealth of Massachusetts. he had registered at the St. Francis hotel in San Francisco the night before the disaster.

"With my family, I rushed down stairs," he said. "We pushed our way through the crowded streets, where everyone was hurrying here and there. Some were pulling trunks behind them. Bricks, stones and all sorts of debris filled the roadway, and we had a difficult time making the waterfront. An electric launch was moored there and on it we escaped to Oakland. The groans and cries of those pinned under the timbers of the collapsing buildings were pitiful to hear, and the worst of it was that nothing could be done to save them.'

Streed Cars and Lights Idle

Oil City, Pa., April 23 .- Fire destroyed the central power house of the Venango Power and Traction company in this city, causing a loss of \$350,000. The plant supplied power for the street car systems and the electric lighting for Oil City and the suburbs. Street car traffic will be suspended for three weeks, but it is expected electric lighting will be resumed in a week.

SAVING OF THE MINT

It Was Not Accomplished Without Heroic Effort

A landmark of San Francisco that escaped destruction, though every building surrounding it was destroyed, is the United States mint, at the corner of Fifth and Mission streets. Harold French, an employe of the mint, gave a graphic account of how the flames were successfully fought. He said:

"Nearly \$200,000,000 in coin and bullion are stored in the vaults of the mint devoted band of employes, re-enforced paffled the flames. For seven hours a sea of fire surged

was cut off from retreat for hours at a time. After the fire had swept past the Mission street side and the certainty of its returning from the north became apparent, it was ordered that everything on the roof that would burn be thrown into the yard. Soldiers and mint employes worked with utmost haste throwing great timbers and tankstaves into the court. Here are some 30 tanks of blue vitriol, the surfaces of which were soon covered with debris, into which increasing showers of cinders fell.

water to the fire fighters assembled on the roof. Of these, 40 were mint employes, and they were aided by a company of coast artillery. As the fire swept dangerous degree. Fanned by a roaring northerly wind, the flames rioted the Windsor hotel to the Emma

Spreckles building; sheets of fire 200 feet high licked up the intervening houses on Mint avenue. Augmented by these tinder-boxes the blast of the fire burst fiercely on the northwest corner of the mint.

"A few desperate fighters were driven from between the tottering chimneys where the determined men had been throwing buckets of water upon the blazing roof over the refinery. The tar-covered roof, the weakest spot of all, was saturated sufficiently with water to stay the flames. "When the fire leaped Mint avenue

in solid masses of flame, the refinery men stuck to their windows as long as the glass remained in the frames. Seventy-five feet of an inch-hose played a slender stream upon the blazing window-sills, while the floor was awash with diluted sulphuric acid. Ankle deep in this, soldiers and employes stuck to the floor until the windows were shattered and the inner walls began to burn. Blinding and suffocating smoke necessitated the abanlonment of the hose and the fighters retreated to the floor below. Down in the treasure vaults, where untold wealth is so well safeguarded, artillerymen, ringed with blanket rolls and leaning on their rifles, coughed in the strangling smoke. Then came a lull, the walls of brick buildings across the street having fallen in. There was yet a fighting chance, so back to the upper story the fire fighters returned to extinguish the blazing inner woodwork

of the refinery. "The roof was next swept by a hose, cooling the copper-sheathed surface until it became passable for wet, acidsoaked feet. An army officer, axe in hand, tore up sections of blazing tar Tokio, April 23.—Seismographs in esertion has continued for more than three onsecutive years next prior to the filing of his libel. Many artists have the reputation of being inexorable in their demands up on the model's strength. A character istic example appears in an anecdote of the late Adolphe Manzel, the Ger- SIDE SHOW OPENS AT 7.30 man painter, who at one time was engaged on a work of mural decoration and kept a man posed in an exceeding ly fatiguing position on a scaffold for two hours. The great painter worked away, heedless of his model's discom fort. Finally the victim called down "Herr Professor, how about the re-

"Certainly, my dear sir. Come down right away, and you shall have your recess.'

As the model was descending from the scaffolding his limbs assumed a position which was one for which the artist had long been looking.

"Stop!" Menzel thundered. "Hold! Ah, fine! Keep that while I make a little sketch of it!"

out imperatively: "There, that will do for now. Get up on the scaffold again. We have had our recess."

The Town's Crooked Dividing Line. "There is a reason for most everything," said a Cumberland county man when he was asked how in the world they came to have such a crooked line between two towns in his county "There's a reason for this crooked line You see, some of our towns establish ed in pioneer times, when land was abundant and people were few, had a big territory, which was afterward sliced off to make new towns. It was as to which town they wanted to be in. So the legislature drew a straight line between the two parts and then pro vided that persons dwelling on lands adjoining either side of this line might be in one town or the other, as they should decide within ninety days after passing the act. Some went one way and some the other, and the line was -Lewiston Journal.

Boarding Houses, Take Note.

In view of the part that electricity plays in our modern life it is amusing to recall that when Benjamin Franklin evolved the lightning conductor he was called to account by certain individuals for sacrilege in "attempting to divert the Almighty's lightning."

Golden Nose.

Tycho Brahe, the famous Danish mathematician, was known as the "Wizard of the Golden Nose." While at the university he lost his nose in a duel and replaced it with a nasal organ of gold, held in place by cement and a pair of spectacles. This addition to his countenance gave him a very peculiar appearance and caused him to be much feared by the common people, who attributed to him many supernatural powers, largely on account of his remarkable nose.

The Throne of Thunder. Mungo Mam Lobeh, the throne, or

place of thunder, as the natives call it, the peak of Kameruns, as the whites call it, is the highest point on the western side of the African continent. The first view the voyager gets of it who, coming from the northward, has been coasting for weeks along low shores and up the stagnant rivers, fringed with mangrove swamp, is a thing no man can ever forget. Suddenly, right up out of the sea, the great mountain rises to its 13,760 feet, while close at hand, to westward, towers the lovely island mass of Fernando Po to its Atlantic. 10,190 feet, and great as is its first charm every time you see it it becomes greater, although it is never the same. Five times I have been in the beautiful bay at its foot and have never seen it twice alike. Sometimes it is wreathed with indigo black tornado clouds, some times crested with snow, sometimes standing out hard and clear, as though made of metal, and sometimes softly gorgeous, with green, gold, purple and pink vapors tinted by the sunset .-London Mail.

A Trying Reform. A Presbyterian clergyman of New York with two popular daughters has discovered a new way to end the visits of their beaus at a seemly hour-s plan which might appeal to lay families as well. For a number of years it has been a custom of this good man to hold evening worship after supper, always concluding the prayers with a short discourse. Things went very well until the daughters began to receive the attentions of young men and begged off or stole away to make their evening toilets. Then the minister changed the devotional hour until 10 in the evening. This reform created an upheaval, but the father insisted, and at the stroke of 10 the visiting young men are now left one alternative-either to leave or join with the family in prayer-and it has proved a severe test of their devotion for the daughters when those not prayerfully inclined stick it out, sermon and all .-New York World.

The Good Fellow. The treasurer of a church temperance society told at a temperance meet-

ing a dramatic story. "A woman entered the barroom," he said, "and advanced quietly to her husband, who sat drinking with three other men. She placed a covered dish

on the table and said: "'Thinkin' ye'd be too busy to come home to supper, Jack, I've fetched it to you here.'

"The man laughed awkwardly. He invited his friends to share the meal with him. Then he removed the cover from the dish.

"And she departed.

"The dish was empty. It contained a slip of paper that said: "'I hope you will enjoy your supper. It is the same as your wife and children have at home." "-Life.

Coffee-Tea.

Coffee-tea is the common beverage of the natives of Java and Sumatra. When required for infusion the coffee leaves are gathered fresh from the trees and are dried in a pan over a slow fire until they are light brown. They are then put into a teapot, boiling water is poured over them, and the infusion is drunk with milk and sugar. It seems the general opinion that coffee should come in contact with metal as little as possible. The Viennese people prefer a glass bottle to a canister for storing, and Brazilians use earthenware in preference to a metal pot for making.

Antelopes Choose the Open.

The antelope lives always in open country, unlike members of the deer family, which invariably prefer a thick, dense forest. They cannot be driven into timber cover or thickets of brush, but will literally turn about and run over a pursuer, if necessary, rather than be forced into cover. If they are ever obliged to pass by or through such places for food and water, they take a great deal of time to rather than be forced into cover. If do so, as if they were determined to see everything that could be seen en route.-H. H. Cross in Century.

The Great Lakes.

Lake Superior is the deepest of the great lakes, showing by soundings 1,008 feet in at least one place. Mich-Igan stands second, with 100 feet less. Huron and Ontario are about 750 in the deepest parts, while Lake Erie is but 204. Vast areas of Lake Erie will not show a depth exceeding 80 feet. 1 OLET-Furnished Rooms, with or without show a depth exceeding 80 feet. 26 School street, Quincy. The bottom of Lake Michigan is 400 feet above sea level.

An Odd Verdict.

A jury in Lindsey, Lincolnshire, England, after being out some time on a case of alleged false pretenses, returned to court and said, "We can't bring him in guilty and don't like to say he is not guilty." They were sent back and in fifteen minutes reached this verdict, "We find him guilty, but not with intent." The prisoner was discharged.

"Mamma," said five-year-old Margie, "I'll make a bargain with you." "What kind of a bargain, dear?" asked her mother.

"If you'll give me a penny every day to buy candy with," replied the small diplomat, "I'll not tell any one you have false teeth."

The One to Be Pleased. "No," said Peckham, "we never have

boiled ham at our house any more." "Why," replied Newitt, "I thought you were very fond of it."

American experience does not greatly encourage this policy, and yet, were it submitted to a majority vote in many municipalities, adoption would probably follow. Only twenty gas systems in munic-Ipalities of the United States are today Thomas, in place of the church which publicly owned, as against nine hundred and fifty-six in private hands. Electric lighting, for some reason, has been a much more favored municipal enterprise, the figures standing one hundred and ninety-three public systems to eleven hundred and ninety private, in places having a population of more than three thousand, for which these figures are all prepared. CADET SHIP FOUNDERS

Topheavy Craft Responsible For Loss of Thirty-Five Lives

London, April 24.-The Count De Smet De Naeyer, a cadet sailing ship used by the Belgian government for training officers for the government service, foundered in the Bay of Biscay, with a loss of 35 lives, including the captain and the officer commanding the cadets. The cadets included the sons of many prominent Belgians. Twentysix survivors of the wreck were res-

cued by the French bark Dunkerque. It is difficult to get precise details of the disaster owing to the Dunkerque, which was proceeding to Hamburg, refusing any information or the names of the survivors and also declining an invitation to land the survivors at The Court De Smet De Naeyer was

built at Grenock in 1904. It is alleged that she turned turtle when she was launched, necessitating alterations to improve her stability. Most of her officers resigned after her first voyage, declaring that she was still topheavy. She started on her ill-fated second voyage April 11 and anchored off Flushing till Easter Saturday, when she was towed into the North sea and started on her voyage for Australia. She en countered terrible weather in the Bay of Biscay, labored heavily and foun dered. It is supposed that a boat or raft was launched and that by this means the survivors were rescued, but no de tails or list of survivors is obtainable.

Ban Francisco Not Discouraged by Her Awful Blow

CONFIDENCE HAS BEEN RESTORED

Ills of Thousands Upon Thousands of Sufferers Aggravated by Downpour of Rain--Food Never More Plentiful, the Only Trouble Being Its Proper Distribution--Many of Terror-Stricken Refugees Fleeing East

San Francisco, April 24.-A sharp earthquake shock was felt here at 10:39 o'clock last night. It lasted about three seconds and was from east to west. No damage has been reported.

San Francisco, April 24.—The new San Francisco that will rise from the old is in its first stages of rebuilding. After much confusion and almost superhuman effort on the part of citizens of California's metropolis in the great task of sheltering, feeding and otherwise caring for the homeless thousands emplete order has been established and attention turned to the future.

Through the great business quarter, where the devastation by fire was the most complete, dangerous walls have been razed, buildings that had not been disintegrated by fire have been inspected with a view of reocccupancy and ground has been cleared for the immediate construction of buildings in which to resume business at the earliest possible time.

Confidence has been restored. The assurance of insurance companies, the measures taken by the financial institutions, the prompt and reassuring words that have reached the business men of San Francisco from eastern financial centers-all these things have dispelled the feeling of uncertainty. The generally encouraging situation

temporarily suffered a setback early yesterday because of a chilling rain which fell in the late hours of Sunday pight and during the forenoon on the thousands protected only by canvas coverings and even less impervious shelterings. While the rain caused con siderable suffering for the time being, conditions were quickly ameliorated by the prompt action of every relief com mittee, as well as by voluntary acts of householders.

Homeless persons are being fed in a systematic manner. On the waterfront, where the boatloads of provisions are docked, there is an endless procession of carts and drays carrying food to scores of sub-stations established throughout the city and the parks. At these stations food and drink, comprising bread, prepared meats and canned goods, milk and a limited amount of hot coffee and even fruit are 1500 tons of provisions are moved daily from the waterfront.

Large supplies of blankets, tenting and other material, to provide coverings A thorough [and complete examination of for those who have been scantily suprapidly. Barracks have been completed at several points, and in these many people have found comfort and shelter against the inclemencies of the weather. The situation in the congested camps, such as Golden Gate Park, and the various public squares throughout the city, has been considerably relieved by the departure of many people for points on the other side of

While the number of people leaving the city is nothing like the vast crowds that packed the ferry buildings during the first two days following the earthquake, the number is sufficiently large to satisfy the relief committee that its task will become less difficult from day

General health conditions are satisfactory. While the number of cases at the various hospitals has increased each day, sickkness is mostly due to exposure and worry. The most encouraging feature is the absence of anything like contagion or an epidemic of disease of any nature whatever. The somewhat unsatisfactory sanitary arrangements in the various camps, the lack of a variety in diet and the exposed situation of so many people necessarily develops ailments, and in some places there have been a few cases of such disseases as measles and chickenpox, but probably no more than would develop under ordinary circumstances in a large city. The primary causes of disease are removed as fast as possible.

General Greely has taken command of the federal troops at this post, superseding General Funston, who will act under Greely's orders. Greely has established headquarters at Fort Mason, just east of the Presidio reservation on San Francisco bay.

MISERY INCREASED Heavy Downpour of Rain Makes

the Bad Condition's Worse A drenching rain fell upon San Fran-

cisco from midnight Sunday until 3 o'clock yesterday morning, a high wind adding a melancholy accompaniment, whistling and sighing about the ruins of the buildings in the burned district. Six days ago, when the fire catastrophe was in its infancy, this downpour would have been regarded as a mercy and a godsend. Yesterday it could be regarded in no other light than as an addiional calamity. It meant indescribable suffering to the tens of thousands of eople camped upon the hills and in the parks and open places of the city ew of these were provided with waterproof covering, the only protection of most of them being a thick covering of sheeting tacked upon improvised tent poles. Through this came the water, as through a sieve, wetting the bedding and soaking the ground upon which they lay.

When it is understood that thousands upon thousands of delicately nurtured omen and infants in arms and old and feeble people were in this plight, nothng need be added to describe the misery. The downpour has aggravated the already unsanitary condition of the camps and will doubtless add great numbers of pneumonia cases to those already crowding the regular and temporary hospitals of the city.

What could be done was done by the lieve the distress. Whenever covering could be found for the women and children it was taken advantage of. They were housed in chill and cheerless churches, in garages and barns and those who had saved their homes were called upon to take care of the unfortunates exposed to the storm. With few exceptions those who had homes responded readily to the new cail, and where they did not the butt ends of rifles quickly forced a way through inhospitable doors.

While the storm has added to the difficulties of the general committee, especially of those having in charge the care of the sick, the sanitation of the city been a spur to even greater efforts to bring order out of the chaos prevailing. Regular shelter tents will be provided. as well as cots standing off the ground. It is realized that some such provisions are as imperative as food.

After several hours of clear weather there was another precipitation at 6 a. m., and again at 9 o'clock the fall was resumed and continued at intervals throughout the day.

NO LACK OF FOOD

Its Systematic Disposition Is Proving a Great Problem

Food was never more plentiful in San Francisco than now and the only committee on feeding the hungry reports satisfactory progress in the huge task and has already established 52 food stations.

Besides the government and the general food committee a large number of independent organizations are attacking the food problem. It is hoped served to all those who apply. About that the distribution of supplies may be systematized under one head in the course of a few days so that there may be no conflict or duplication of effort. The committee of the whole has designated a sub-committee of seven which is directing the relief work so far as

of the bureau is in the city hall. From all points news of approaching relief trains is coming in and already sufficient provisions have accumulated at the Oakland pier to supply the needs of the city for more than a week. Plain food of every description is plentiful and the luxuries are beginning to arrive. A coffee famine was threatened Sunday night, but yesterday fresh consignments of this were distributed from

almost every food depot. There is an abundance of meats for

vegetables. The lines of applicants at the various food stations are blocks long and remain so until closing time. Everyone receives rations for a single person as distress, and neither disorder nor complaint is evident along the bread lines. Volunteer distributors are issuing the provisions under military protection.

The committee has secured two main | Bedo. warehouses and all provisions as they reach the piers are carted there. These are the J. A. Folger building, which stands intact, though in the burned area, and the Moulder schoolhouse, which still supplies that part of the residence quarter spared by the conflagration. Depots for government supplies are at the Presidio, the Folsom street dock and Fort Mason.

MAYOR IN FULL CHARGE Denial That City Is Under Control of the Military

San Francisco is not under martial law, and has not been during the prestering walls, portions of imposing ent disaster. lence on the part of the troops are flimsy rumors. During Sunday night's patrolling many of the troops admitted to newspaper men who made the rounds among them that they did not know what their orders were or where they came from. It appeared all were using

their own judgment.

The citizens' general committee, of which the mayor is presiding officer, yesterday resolved to have withdrawn the entire force of state militia that has policed a large residence quarter for the last few days. A vote of thanks was tendered the governor and the state militia. The city will be patrolled jointly by the police and the federal troops. Until a city prison is re-established all persons held on felonious charges will be taken to Fort Mason and turned over to the regular troop.

REFUGEES BOUND EAST

Illustration of Terrible Mental Strain Which They Endured Ogden, Utah, April 24.—Refugees numbering 644 have reached Ogden. They are being fed by the local relief committee. The mental strain of the fleeing, terror-stricken people is best illustrated in the misfortune of Mrs. Ida Reed. She arrived in Oakland apparently of sound mind, but when the ten-

sion of the scene was relieved by a

realization that she was safely located on the refugee train her mind gave way. She is detained in the city jail. Her destination was Waverly, Ia. Her 10year-old son is being cared for by the relief committee. The flight of the refugees can only

be likened to that a retreating army guards in charge of the camps to re- The people arriving here apparently were driven from their homes without time to properly clothe themselves. Some are hatless and coatless and others are garbed in misfits donated by the relief committees between Oakland and Ogden. They all have the same story of horror to relate, and their one desire is to get as far away from the scenes of their misfortunes as possible. Individual lunches for 563 persons

were handed out, each lunch being encased in a cardboard shoe box. Then the distressed people were marshalled in front of improvised counters on which were awaiting cups of coffee. The children were provided with milk special thought being given to the and the housing of the homeless, it has bables. Eighty-one of the passengers were provided with means sufficient to pay their own way and they remained in the cars or went to nearby restau-

En route from Oakland the refugees were organized into committees and leaders selected to direct them on their journey east. Sixty of them go east over the Rio Grande and the others were given a special Union Pacific train leaving here last evening. Most of them are bound for Chicago.

Los Angeles' Helping Hand Los Angeles, Cal., April 24.-A camp of tents is being rapidly erected at Agricultural park by the local relief committee for the accommodation of the hosts of San Francisco refugees. It trouble is its proper distribution. The is expected that 50,000 will be here within 10 days. Probably 5000 have already arrived in Los Angeles. Plans are being perfected for the housing, clothing and feeding of those who arrive here, and large sums of money and trainloads of provisions are still being sept at intervals to San Francisco. The city has subscribed \$500,000 cash and provisions for use in the north and

Water Ordinance

Provides That Commissioner Shall Fix Rental Rates

The proposed amendment to the City ordinances relative to the water meters s emphatic on one point, that the Committee favor the installing of water meters all over the ciy, but possibly they are taking this step as blindly as the others.

It will take four to five years to install meters for the whole system if \$20,000 is appropriated annually, but the ordinance as reported has no suggestionsto make as to where a beginning shall be made whether in manufacturing plants, mercantile houses, stables, oarding houses, depots, halls, dwellngs, schoolhouses and public buildings,

The rental rate is very important but the ordinance leaves it entirely with the Commissioner of Public Works, who serves only two or three years on an average, sometimes only one year. He might charge ten or forty cents per 1,000 gallons, or he might have different prices, and favor this one or that one. As at present, little is known about water rates, whether they are uniform or equitable.

It may cost \$100,000 to install meters or the whole city, as the city may have ,000 to 8,000 services in five years. should the city save less than \$10,000 per year on its Metropolitan water assessments, the appropriation for meters would not be very profitable.

The proposed ordinance reads: That Ordinance No. 26, an Ordinance oncerning the management of the Water Department of this City of Quincy, be amended by adding thereto sections 11 and 12 as follows:-Section 11. The Commissioner of

Public Works shall install a system of

netering the entire water service of the

He shall attach some standard make for any and all purposes, excepting such as may be used by the Fire Department in the extinguishing of fires. All meters shall be furnished, in stalled, maintained and renewed at the cost of the city, and rental shall be charged therefor. Rental rates for meters shall be fixed by the Commissioner of Public Works.

Any meter injured through the negligence of water taker shall be repaired

or replaced at his expense. No meter shall be moved, disturbed or repaired except under the direction of the Commissioner of Public Works. Section 12. All premises where water s taken may at any reasonable time be nspected by a properly authorized officer whenever the Commissioner of Public Works shall deem it for the interest of the department that such nspection should be made.

Big Show Side Shows And All the Attractions

The second annual gymnastic exhibition of the Quincy Y. M. C. A. took the form of a Circus, which opened Tuesday evening in the Association building, and was easily the "greatest show on earth." The whole membership was enthused over show, and it had been extensively advertised so that the attendance was large crowding the balcony and more than half of the gym-

From 7.30 to 8.30 the side show claimed attention, and there were so many attractions for the great show which opened at 8.30 that it was necessary to omit some the opening night.

The side show was in the Association hall, and was truly marvelous. The side of the ball, and the freaks upon electric display in a dark side room. The program enumerated the attractions modestly as follows:

Goliath 2d, only living descendant of the old giant race. Have a look and tered it. see how small you feel. H. Thomas. The Tattooed Man, a wonderful specmen of art. See him before he is sent to the Smithsonian Museum. C. A

The Missing Link, two rare specimens in confirmation of the Darwinian theory of evolution. R. Jones and C.

Anderson.

Poo Poo the Wild Moro, brought from the Phillipines to show at St. Louis. His only appearance in the East, H. Holton.

Mand, the famed mule and keeper. Come and see one of whom you have nervous. G. Tupper and W. Jones.

Bruno the Bear, one of Teddy's latest innings was: prizes. He refused to be shot so was Quincy. He never saw Wall street. F. Bugbee. Mme. Hairmug, the lady with the capillary appendages on her nether jaw. If you want to grow a goat buy some of the Madams Elixir for sale at the gate.

Bill, the largest bird ever hatched from an egg. He's a swell duck. R.

Religious Bovine, brought all the way

The Siamese Twins, the only healthy, sound minded pair in existence. W.

Pratt and F. Baker. Bones, the living skeleton. He thrives on shadow soup and wind pudling. Don't misplace your sympathy, he is perfectly healthy. Tirrell.

Buster Brown and his dog Tige, the original buster, and Tige his pup. Just made new resolutions. Maloney and Morris. Pussy, the largest cat in existence.

Parker. Osee, eats 'em alive. The beautiful snake-charmer. Manuel.

Houghs Neck Fire Well Handled

The steamer and hose 1 at the Central re station responded to a still alarm at 3 P. M., Tuesday, for a blaze at Houghs Neck. Chief Litchfield was at Quincy Point, when he was notified by telephone that the Houghs Neck company would not be able to handled it alone, and he ordered the apparatus above to

'get there.' The new combination at Houghs

apparatus at Quincy, was not needed. The fire was in a two-story, two-room House, owned by the Steamboat company and occupied by Augustus Tirrell, who lives alone. He was away at the time, the fire being discovered by Benjamin Sturgis. Mr. Tirrell lost all his furniture and clothing, on which there was no insurance. The cottage was damaged \$300. The new fire apparatus was admired by those who assembled, who feel that they now have some pro-

tection. The water service was good. Y. M. C. A. to Lose Two Good Men

The Quincy Y. M. C. A., is to lose two of the valuable assistants to Secretary Gay. They are F. F. Bugbee, physical director, and R. W. Noon, the

boys work directors. Mr. Bugbee handed in his resignation Monday evening to take effect May 15. He has another situation in view but nothing definite has been decided upon. Mr. Bugbee has been with the Quincy Association two years and has proved very efficient and popular.

Mr. Noon has not handed in his resignation as yet, but it will go in at the next meeting of the directors. Mr. Noon's resignation will take effect June 15. He resigns to accept a position with a larger salary at Northampton.

Engagement Broken.

A Boston paper says: Everyone is discussing the broken engagement of Miss Audrey Stanwood, daughter of Mr. and Mrs. Eben Calder Stanwood of Commonwealth avenue, and Mr. Edward Isham, which has just been made public, and wondering at its cause. Miss Stanwood is at Atlantic City for a time, and has evidently given up or postponed her intended trip to Europe, in the course of which her trousseau was to be purchased. Mr. Isham is a great favorite in the world of society and of music, and the cancelled engagement is being much commented upon DR. CLAYTON R. MARSTIN by his intimates. Miss Stanwood is the granddaughter of the late Thomas A. Whicher of Adams street, Quincy.

Diversion of Authority and Suggestion That Chinese Were Not Fairly Treated Caused Bad Feeling For a While Among Those Who Had Borne Heavy Burdens--Plenty of Food and Within Reach of All--Comfortable Quarters In Golden Gate Park For Forty Thousand People--Dead Number About One Thousand--Dogs Eating Human Bodies--Sanitation Is Under Control

San Francisco, April 26 .- This is the eighth day since the earthquake jarred the city so severely and started the fires that laid it in ashes, and it dawned on a situation that is a long way towards normal. Such marts of trade as remain unburned are opening for the transaction of ordinary business, temporary structures are being run up for the accommodation of others, clearing of the devastated area of its ruins is well under way, the inquiry into the condition of the bank vaults is completed and the organization and preparation for service of the street railways are so far advanced that the company expresses its readiness to resume business as soon as the mayor will per-The water company has completed such repairs as enables it to supply 12,000,000 gallons daily. In fine, there is all the evidence that should put at rest the fears of those who predicted that San Francisco would never

The citizens of San Francisco had done so splendidly in the face of such an appalling catastrophe that some little consternation was created when President Roosevelt's proclamation was read, turning over to Dr. Edward Devine of the National Red Cross the management of relief measures and the distribution of the great funds so generously appropriated by congress. This feeling also was evinced because of the president's recommendation to the people of the United States that their contributions of food and supplies and money should be diverted into the same

If there was a momentary feeling that the men who had endured the heat fairly treated by this diversion of authority into new and foreign keeping it oon dissipated. At a conference will render all instrumental numbers and at Fort Mason it was agreed that this was the case and that Dr. Devine himself should frame a telegram to the president informing him of the splendid work already done and of his perfect villingness to assist in forwarding the

measures already taken. What hurt even more than this was the suggestion made in the telegram from President Roosevelt to Secretary of War Taft that reports had reached him that less charity was being shown the Chinese who dwelt here than the whites, and directing that, if this be true, the situation should be remedied at once. If the people of San Francisco are not in love with the Chinese it was felt that the name they have earned in the past for charity and openheartedness should have saved them from any suggestion of having permitted any human being within their reach

Mature reflections, however, brought the conviction that the truth had not reached the president, and a special message was sent him signed by the constituted authorities recounting the exact facts. The message follows:

"All reports that the people or the officials of the relief committees of San Francisco are making any distinction in relieving, succoring or protecting the Chinese or any other people differing in race or color, are totally false and entirely unfounded. The committees, and even the homeless sufferers themselves, are treating the Chinese and all other fellow-unfortunates with the consideration worthy of our civilization and our country. The people of San Francisco are striving with all their hearts to relieve their destitute, care for the sick, protect their helpless and uplift their stricken, irrespective of race, color or creed, in accordance with the dictates of humanity, in a manner worthy of Americans, and in the common brotherhood of man. Please give

The work of housing and feeding the homeless and of reconstituting the sanitary conditions, already far advanced, is being carried on with tremendous energy. It is certain that no one is hungry in San Francisco unless he is wilfully so. There is food for all and the method of distribution has been so

perfected that it is within reach of all. There has been no outbreak of dissease of a contagious character, nor is any feared, and as for those pulmonary buried number 300, as follows: At Moon sets—9:25 p. m. prevalent in such a crisis, they are Polk and Bay streets, 32; at Portsmouth High water—1 a. m.; 1:15 p. m.

WOMEN IN OVERALLS

Glad to Wear Them In Lieu of Their Destroyed Wardrobes

In some of the provisional camps established for refugees near the foot of Van Ness avenue and near Fort Mason it is difficult to distinguish men from women. Evidently the supply of women's clothing has been exhausted, for many women can be seen dressed in ordinary soft shirts and overalls. In this garb they are walking about their tents, unconcernedly preparing meals. It is no time for false modesty and those who are able to make themselves comfortable in any sort of clothing are indeed fortunate.

It has been suggested to the relief committee, and especially to the members of the finance committee, that stores of khaki bloomers and blouses be purchased for the women. They are preferable to overalls and will, in some measure, relieve the feelings of the women whose wardrobes were lost in the destruction of their homes.

NO OUTBREAK FEARED

Medical Men Send Forth a Reassuring Message "Say to the people of California, of

the United States, and of the world, that there is no epidemic in San Francisco and no danger of one. If we are not absolutely free from contagious diseases, we at least have fewer of them than we have, under the circumstances, any right to expect. Indeed, we have at this moment fewer cases of such diseases than we had a month ago. and there is nothing in the present condition of affairs in San Francisco that would lead us as medical men to fear an outbreak. The sanitation of the city is absolutely under control."

This statement was made by Dr Ward, chairman of the health committee, at the meeting of the general committee Tuesday. His remarks were at once supplemented by a motion that i erected in Golden Gate Park for the was the sense of the committee that The Associated Press should dessiminate this important news through its

"Just as Good" Paint

You never hear of a paint better than Pure White Lead and Pure Linseed Oil. "Just as good" is what they say. Pure White Lead and Pure Linseed Oil are acknowledged to be the standard by which all paints are measured.

The skillful painter invariably prefers to use it, and mix it himself. He knows that his business reputation is best built by the use of that paint which will give you the most satisfactory results.

He knows Pure White Lead wears evenly,

and when ground in Pure Linseed Oil has greater elasticity and adhesive force than any other paint

He knows, too, that the best results are obtained only when the paint is mixed with special reference to the surface to be painted.

To make sure of the best White Lead tell your painter to use

Fears That Lynn Labor Trouble May Become Protracted

OVER 6000 IDLE

Lynn, Mass., April 25 .- More than 6000 shoe operatives in Lynn are idle on account of a lack of work, due to the strike of edgemakers in about 70 factories, who went out last Friday in support of less than a dozen men who had a disagreement with the Miller-Hapgood company over prices. While several attempts have been made by the Manufacturers' association and the unions to have the trouble adjusted, no settlement has been reached and it is feared that a protracted contest is in

The only hope of an early adjustment apparently lies in a final answer of the manufacturers to a proposition of the union. The union suggests that the manufacturers take back all the strikers, including the Miller-Hapgood company's men, and allow the question of prices to be settled by arbitration.

The manufacturers made an offer to take back all the men and find places for the Miller-Hapgood strikers in other shops. The union declined to accept this and other similar offers, in sisting that the original strikers be re instated.

France Fears Bloodshed Paris, April 25 .- The gravity of the strike movement throughout the counry has assumed alarming proportions. The people have been wrought up to a state of apprehension bordering on panic concerning the imminence of a crisis May 1, when all the ranks of labor will make a gigantic eight-hour demonstration. Whether this will be accompanied by violence and bloodshed is only conjectural, but the authorities are adopting extreme military and police precautions. The garrison of Paris is being rapidly strengthened, and it is expected that 60,000 troops will be available here May 1.

Foot of Snow In Maine

Boston, April 25 .- A severe blizzard, accompanied by heavy gales, swept across northern New Hampshire, Maine and Massachusetts bay yesterday, completely tied up telephonic and tele graphic communication throughout Maine, in some cities tied up cars, trains and other traffic and did considerable damage to wires. Off Massachu setts, vessels encountered the storm and labored through it with difficulty, coming in snow-clad. The snowfall in Maine was 12 inches.

Mitchell on Coal Situation Wilkesbarre, Pa., April 25.-President Mitchell of the United Mine Workers has arrived here. Speaking of the general situation, he remarked: "So far, the mine owners and the miners have lost nothing by the suspension. The coal the miners should be mining now they mined before the suspension and they were paid for it. The operators have the coal and can supply the trade. If there has been any advance in the price it is not the fault of the

Private Lessons by Appointment. Missing Man Found Drowned Lenox, Mass., April 25 .- The body of William Wood, aged 44, a gardene and expert grower of flowers, was found floating in Stockbridge bowl last evening. When he disappeared on April ? a note was found in his greenhouse transferring \$2500 in money, in the Lenox bank, to his wife, and it was

hought at the time that he had gone to Canada. The medical examiner gave his opinion that Wood committed sur cide while temporarily deranged. An Attack on Americans

Moscow, April 25 .- In the Monarchst convention here M. Shmakoff, the re ctionary, attempted to stir up antiforeign feeling by declaring that the revolution in Russia was inspired and directed by American Masonic organizations, working through the Jews and the Social Democrats. He was Sawed and Split to Order at Short Notice loudly applauded when he intimated that it was necessary to arouse the populace against reformers, Jews and foreigners.

Eruption Wrought Great Changes Naples, April 25 .- Professor Matteucci, director of the Royal observatory has succeeded in reaching the crater of Vesuvius. The diameter of the crater which before the eruption was about 100 feet, is now about 5000 feet. Vesu vius seems to be assuming the character of a dead volcano. The cone of the crater, which before the eruption rose to a height of 6000 feet above sea level, has diminished about 800 feet.

Strike of Barrel Makers

Nashua, N. H., April 25 .- Seventy coopers at the factory of Proctor Bros. have struck because the firm refused to recognize the union or employ none but union operators on the new barrel making machines now being installed. The firm has declared itself in favor of an spen shop.

President Advises Taking Its Lessons to Heart

THE NAVY'S INADEQUACY

Due to Parsimony Which Cost the Nation Thousands of Dollars For Every Dollar Foolishly Saved--Admiral Jones Sepulture Ceremonies

Annapolis, Md., April 25 .- Reverently attended by the official head of the nation he loved and served so well, by the ambassadorial representative of the land in which he died, by the chief executive of the state beneath whose sod his bones will find their final rest, by naval representatives of the United States and France and by thousands of the men and women of the country whose first admiral he was, the remains of John Paul Jones were given sepulture in the crypt beneath the grand marble stairway of Bancroft hall, there to rest until the completion of the chapel of the naval academy in which they are to be deposited until a place therein shall have been prepared for

The casket containing the remains of the admiral had been removed from the temporary vault in which they have 1422 HANCOCK STR ET. rested since being brought from France and deposited in the new armory of the naval academy in front of the speaker's stand. The oaken casket was hidden from view by the national flag, and upon it rested two crossed palms, a wreath of green and the sword presented to Jones by a King of France.

Out in the bay rode at anchor three great warships flying the tri-color of France, under the command of Admiral Campion. Beside them were four United States battleships, four cruisers and the yacht Mayflower. From these came more than 1500 sailors and marines, 200 of the former being from the French vessels, who lined the route to the armory taken by President Roosevelt and the other dignitaries.

When the president entered the armory it was to face 10,000 standing, cheering men and women. In a set speech the president extended thanks to the French nation for its courtesy and held up Admiral Jones as a model for our sailors. He followed this with extemporaneous remarks, saying:

"I wish that our people as a whole, and especially those among us who occupy high legislative or administrative positions, would study the history of our nation with the desire to learn the lesson that history teaches. Let the men who talk lightly about its being unnecessary for us now to have an army and navy adequate for the work of this nation in the world remember only that such utterances are not mere ly foolish, for in their effects they may at any time be fraught with disaster and disgrace to the nation's honor as

well as disadvantage to its interests. "Let them take to heart some of the study of the war of 1812. Our parsi mony in not preparing an adequate navy (which would have prevented the war) cost in the end literally thousands of dollars for every one dollar we thus foolishly saved. After two years of that war an utterly inconsiderable British force of about 4000 men were landed here in the bay, defeated with ease a larger body of raw troops put

against it, and took Washington. "Those of our countrymen who now speak of the deed usually confine themselves to denouncing the British for having burned certain buildings in Washington, but the sin of the invaders in burning the buildings is trivial compared with the sin of our own people in failing to make ready an adequate force to defeat the attempt. This nation was guilty of such shortsightedness, of such folly, of such lack of preparation that it was forced supinely to submit to the insult and was im potent to avenge it, and it was only the good fortune of having in Andrew Jackson a great natural soldier that prevented a repetition of the disaster at New Orleans. Let us remember our Established 1887. own shortcomings and see to it that the men in public life today are not permitted to bring about a state of things by which we should in effect invite a repe-

tition of such a humiliation. "We can afford as a people to differ on the ordinary party questions; but if we are both far-sighted and patriotic we cannot afford to differ on the all-im- price, portant question of keeping the national defenses as they should be kept; of not alone keeping up, but of going on with the building up of the United States navy and of keeping our small army at least at its present size and making it the most efficient for its size that there is on the globe."

Addresses were also delivered by Ambassador Jusserand, General Horace Porter and Governor Warfield of Mary-

CONDITIONS ARE MUCH IMPROVED

Business In Portions of San Francisco Being Resumed on a Large Scale--Armed "Vigilance Committees" Get Fair Warning to Disband--Shortage of Water Continues -- Militiamen Have Acted Under Misapprehension of the Conditions-Task of Food Committee

San Francisco, April 26 .- An earthquake shock yesterday afternoon toppled over several tottering walls and cracked chimneys, left by the severe shock of a week previous and the fire her home. The shock was not severe, but the partly wrecked condition of walls and chimneys resulted in the upsetting of some masonry. The shock was barely perceptible in Oakland and lasted nearly a minute.

Stores Are Reopening

"Conditions improving" is the happy expression from those who have charge of caring for their less fortunate fellow townsmen. In fact, now that the most important duty will hereafter be performed by the army-that of distributing the food supplies, which have been given lavishly-the citizens of San an illness of a week with pneumonia. Street cars are promised for today and electric lights will be turned on this ly, but it will be some time before it is safe to allow fires.

Dinner Hour Cut Out

The preparation of the morning and the evening meals-for San Francisco as a rule does not partake of more than that number at present-is a picturesque sight. In front of every house there is a small, improvised furnace or a cook stove, on which the food is prepared. In some cases servants remain faithful to their employers, and to them the cooking is entrusted; but it is no unusual thing to see the wives of men who a few days ago were the possessors of fortunes stirring the porridge or deftly manipulating bacon and eggs. San Francisco goes to bed at night

fall. While the extremely rigid rule concerning lights in houses has been modified, still the general situation is considered by the average citizen to be so unsafe at night that he retires without going abroad, and in many cases without showing a light in his house. Many reports have been made during the last few days of shots fired into houses that showed a light, and few are disposed to take chances.

A Tip to "Vigilantes"

Mayor Schmitz has taken a firm stand against "citizens' protective committees" organized in many sections of the city by men who undertake to regulate the affairs of their neighborhood. Many complaints have been made against these "committees." Responsible citizens have been stopped at night and made to explain why they were abroad after dark, and even shots have been fired at persons who had a right to go anywhere they pleased at of the ruins of Chinatown Wednesday any hour. It was one of these so called and worshipped in full compliance with "vigilance committees" that is to be held responsible for the death of Major of their temple they knelt and silently (Tilden, who was shot while performing relief work. Since they have been confined to a limited area, however, and the conditions have been explained to them, there has

been less complaint from citizens. There is nothing but praise for the work of the army, the navy and the police. They have acted with reason at all times. Marines are used in a large region for patrol duty and they have maintained the best of order without one instance of conflict with anybody.

Everywhere sanitary conditions are satisfactory. Probably there has been less sickness at the Presidio than at any of the other camps, and this may be attributed to the fact that the people there have been sheltered, fed and directed by army officers.

The president's proclamation, issued vesterday, has had a cheering effect. The local finance committee and the Red Cross are acting together and the work of relief is conducted in a systematic manner. A force of expert accountants has been engaged, an auditing and supervising committee appointed, and every dollar out of the fund will be accounted for.

The Distribution of Food

An idea of the task which confronts the food committee may be gained from that followed, and killed one woman in the fact that throughout the city rations for 349,440 persons were distributed yesterday. At one point provisions were given out to 672 persons an hour for 10 hours. This station is neither one of the largest nor one of the smallest, and so its reports were used as a basis to strike an average.

To Rebuild on Parisian Lines

That San Francisco is to be rebuilt on better and more beautiful lines is indicated by the fact that James D. Phelan, chairman of the Improvement Association of San Francisco, has dispatched telegrams to Architect Daniel V. Burnham and his assistant, Mr. Bennett of Chicago, to come immediately to San Francisco to take up the work planned some two years ago. Burnham and Bennett are the originators of plans to beautify San Francisco and the ommittee does not want to take any final steps until it has had a conference with them. Burnham's plans call for a reconstruction similar to the city of

Offer of Help From Japan

Washington, April 26 .- The Japan ese government offered to send a hospital ship at top speed to San Francisco to aid in the relief work. The state department has replied that, owing to the rapidity with which the country has come to the relief of the distressed city, it may safely be estimated that there will exist no need for the ship by the time that she could cross the Pacific. The president stated his appreciation of the spirit which dictated this offer.

Mayor Fitzgerald reminded them all that they represented the entire people of the state and requested that they give their very best energies to the work.

Famous Engineer Dies Poor New York, April 26 .- Brigadier General Edward W. Serrell died here at the age of 80 years. Although he had accomplished many great engineering feats, he died in poverty. He was the engineer who first surveyed the interoceanic canal routes for the government across the Isthmus of Panama. He built the Hoosac tunnel, planned and constructed the Niagara suspension bridge, built the big railroad bridge at St. Johns, another at Avon, Eng., and at the age of 73 planned the Hudson river districts have opened and are selling bridge. After much voluble protest the demonstra tors were removed, together with sev eral innocent occupants of the gallery.

Railroad Man Feels Aggrieved

Washington, April 26 .- Vice President Preke of the Panama railroad, in closing his testimony before the senate committee on interoceanic canals, complained that he had not been fairly treated, remarking rather bitterly that some senators had said things to him on the stand that they would not say outside. He was looking at Senator Taliafero at the time, who replied promptly that anything he had said he would say anywhere.

Gorky Sticks to Actress

New York, April 26 .- Maxim Gorky addressed a large audience of men and women in the Grand Central palace last night, the meeting being under the auspices of the Russian Social Democratic party. whether the ecclesiastical court, as constituted, had jurisdiction. Dr. Crapsey's counsel filed a brief to the effect that it was contrary to the common law of the state that the guilt of any person against whom a presentment is made should be passed upon by a court, the majority of whose members are designated by the prosecutor or by any person who believes the charges so made to be just. Three of the five members of the court are appointees of Bishop Walker, who has pressed the charges against Crapsey, and in whom was reposed the authority to constitute the court. The members of the court are rectors of churches in this vicinity and colleagues of Crapsey. The attorneys for the prosecution answered the contention of the defendant's counsel with the statement that the court, being constituted under canonical law, its jurisdiction and existence in this case cannot be questioned on any basis of the common law of the

fense will hold that under a liberal interpretation of the creed he has not contradicted its doctrines, and that he does not deny the Immaculate Conception of Christ. The defense will bring witnesses in an attempt to prove that his utterances do not mean such a denial, and that they are in no way contrary to the doctrines of the church.

The letter received was from William the fire in search of his parents.

"Mother's place was still standing this morning. I have my house yet and mough food for a few days. No doubt we will be able to get some supplies from the relief station.

"Our money is not all gone unless the bank fails. Kind regards to all.

Francis Veazie has received an interesting letter from his son Frank A. Veazie, who was in the San Francisco at the time of the earthquake, telling of his experience during these trying times. Frank is well known in Quincy where he passed his early life. He has Monday, April 30, 1906, been in California for about ten years. The letter in part is asfollows:

San Francisco, April 21, 1906. I suppose you are anxious to learn if I am still in the land of living, after such a calamity as we have had. Well, it is hard to kill some people, and I guess I am one of the hard ones, for which I am very thankful. So I will simply say both myself and wife are so far all right. I will try and give you a slight idea how things are here, but QUINCY CO-OPERATIVE BANK suppose you can learn more from the newspapers then I can tell you.

Wednesday morning at 5.15 we had the most severe earthquake California ever experienced. Surely I thought my time had come. Our house seemed to lay down, then stand up, then try it all over again; not once, but man times. It seemed that it would never get settled either one way or the other. So all we could do was to hang on to each other, and stay with it.

But finally all became quiet, and the house still was right side up, minus the chimney, but almost everything in the house had made a move as if trying to get away. Vases and everything movable was broken all over the house. We were up at once, and into our clothes about as soon as we could, but never left the house until everything houses were flat on the ground.

Such a sight I hope never again to look at. Not being satisfied with what

had been done, fire broke out near C and Howard street, also in Hay's valley, and as the earthquake had broken the water pipes there was no way to stop the fire, so ever since then things Experiment have been a little warm around here.

At this time Saturday 7 A. M., it ooks as if the worst was over. I do not know just how much there is left of San Francisco, but this much I do know there is very little. I understand that 300,000 people are homeless, and hungry,-no water, or lights, or food. But so far I know of but little suffer My wife and her father and myself

are among the most fortunate, as we were well supplied with food of all kinds, but we have shared the largest part of it with some families with children who have nothing at all to eat. Thursday afternoon, when they received | We all expect relief to come in a day or

The fire is all out in this part of the city It was stopped at 21st street about four blocks from us, so we fear nothing more from that.

Gift of 100 Ranges.

Taunton has the credit of being the first city in New England to contribute goods directly for the relief of the ufferers at San Francisco.

Monday there left from Boston a car load of 100 Glenwood Ranges, consigned to San Francisco. These ranges were given by the Weir Stove Company of Taunton, Mass.

When the firm heard of the calamity it realized that cooking ranges would be one of the things needed immediately as there are none made in California. The ranges will be rushed forward as soon as possible and should get there within a week.

Citizens of Quincy :

Our President has appealed to the whole United States, our Governor has appealed to the cities and towns of Massachusetts, and the appalling calamity that has fallen upon our fellow-citizens of San Francisco and other places in California has appealed to our hearts.

The Quincy Relief Committee has been formed so that we may better do our part in the great outpouring of practical sympathy which is sweeping the land. All contributions, no matter how small, will be most welcome, and wil be acknowledged daily in the local press. The committee which was appointed at the public meeting Saturday night has been largely increased so that there may be a more general representation.

The Treasurer is at Room 2, City Hall, 8 to 12 A. M. and 1 to 5 P. M. The following will also receive contributions : -

San Francisco, April 27.-Governor Pardee visited San Francisco and attended a conference of Major General Greely, Mayor Schmitz, Dr. Devine of the Red Cross, and members of the citizens' committee. Pardee brought up the request of Schmitz and his committee for the withdrawal of the National Guard from San Francisco.

Governor Pardee spoke highly in favor of the National Guard and referred to the splendid service performed in the war with Spain. He said he regarded the request for withdrawal as reflection on a well organized and Room 10, Hancock Building, Quincy.

Business Consultations. Settlement and Care highly efficient body of men. The governor said that he was indignant over the attitude taken against the guard and he charges preferred against them. In fact, he said he was so indignant that e thought it best not to make any furher remarks.

Mayor Schmitz immediately replied that he and his committee had not made any charges against the guard. On the contrary, they had thanked the governor for the militia's services. If charges had been made they were by out siders. The object in making the request for the withdrawal of the troops was to concentrate the control of the city in the federal troops and to pre vent conflict of orders.

General Greely said that so far as he new there was no conflict of authority, Fifteen Square Miles Burned Over and that as an United States army offier he could not assume charge of the state militia. The mayor was the head of the city and he would continue to recognize the authority of the mayor Yard off Mille: Street. Tel. 207-2, Quincy people.

The state troops have not yet been withdrawn and the meeting adjourned would be.

There was a long discussion over the advisability of starting a number of 000 inhabitants, besides 40,000 tranelectric street railway lines. absolute harmony prevailed and that the work was carried on to the entire satisfaction of everybody.

The relief work has made rapid progress. It is now in the hands of the military authorities and has been perfected and systematized until the feeding and sheltering of the thousands of hungry and homeless people is going on expeditiously. Five hundred teams are hauling supplies to the 60 odd relief depots. There is still a scarcity of sugar and coffee and an urgent and pressing need for more blankets, cots and tents, owing to the unusually cold nights for this season of the year.

Marines Destroy Liquors The marines destroyed a considerable quantity of liquors in that section of the city in which they hold sway. This branch of the navy controls and polices the best portion of the residence disrict and, although they have ruled

with an iron hand, their authority has

been exercised with such good judg-

ment and discretion that not a single omplaint has been made. It was understood by storekeepers whose places escaped that they could open their places for business, but they verlooked the fact that only such laces that had no bars attached would be permitted to do so. As a result a detail of marines destroyed hundreds of dollars' worth of liquor in places which had been opened. . Other pro prietors were given the choice of clos-

ing again or having their stock poured

into the street. Expenditure of Contributions

What to do with the immense amount of money that has been contributed to the relief of San Francisco's homeless people is a question that has received careful consideration by all those now engaged in relief work. So many in quirles have come to the heads of the various departments, civil and military, asking for and by whom the money contributed would be expended, that The Associated Press was asked to communicate to the country the assurance that every dollar would be put to the use for which it was intended. While the complete details of disbursing and accounting for the immense sum have not been furnished, they have been thoroughly discussed in com mittee and may be briefly stated as fol-

All expenditures will be authorized by the finance committee of the citizens and the Red Cross funds. The members of this committee are bankers, business men and jurists of San Franisco and Dr. Devine of the National Red Cross society. CITY FULL OF TROOPS

Paris Not Likely to Suffer by May Day Demonstrations

Paris, April 27 .- Prefect of Police Lepine has made a reassuring reply to hundreds of letters which anxious citizens have addressed to the police. He says that all precautions have been taken to maintain order in the streets May 1 and prevent attempts against life or property. Besides the full police force which will be on duty, reinforce ments consisting of 28,000 infantry, cavalry and artillery will arrive here today and tomorrow. These troops will be disposed throughout the city with precise orders. Special surveillance will be maintained over the water and gas conduits.

In addition to the troops mentioned eight squadrons of cavalry relieved from duty in the mining regions have been brought to Paris and dragoons and hussars are coming from many other

In strike circles the men are much calmer. The workmen in numerous trades have announced their adhesion to the eight-hour movement, but the railroad men and employes of the provision trades do not intend to strike.

Descent on Agitators

St. Petersburg, April 27.-The police descended upon the socialist labor leaders and captured the entire executive committees of the St. Petersburg Socialist Democrats and Social Revolutionists and a number of prominent la bor leaders who were holding a secret congress in the capital. Several meet ings had been held and police had held off, hoping to secure the entire con gress, but a warning was given and a majority of the members escaped. These members are so enraged at the arrest of their leaders that they threaten giant demonstrations by the unem ployed, which will be certain to result n bloodshed.

Dowie Receives Call From Wife Chicago, April 27 .- Overseer Jane Dowie, wife of the deposed head of the Christian Catholic church, visited her husband at the Auditorium Annex. This is the first time Dowle and his wife have seen each other in several months. Mrs. Dowie had cast her lot with the new administration and since then has repudiated her husband pub licly several times. Mrs. Dowie remained in her husband's apartments for half an hour, after which she re turned to Zion City. Those faithful to Dowle assert that Mrs. Dowle called to arrange for Dowie's proposed return to

Zion City tomorrow.

Oil Men's Leases Confiscated Muskegee, I. T., April 27 .- The Indian agent, acting under instructions from the department of the interior, has taken every producing oil lease owned by Guffey & Galey out of their posses sion and placed the land in the posses sion of the allottees from whom the lease was taken, on the ground that Guffey & Galey had sold their leases contrary to the rulings of the depart

ment of the interior. The price quote FRANK F. CRANE, for the sale was alleged to be \$1,250,000. A HANDY LIFE RAFT.

Novel Combination of Deck Chair and Life Preserver.

In the picture herewith shown is illustrated a novel chair adapted for use on pleasure boats and passenger steamers. The chair is of the ordinary folding camp chair type, consisting of two parts hinged together and on which the seat is supported. The back of the chair is hollow, forming a receptacle for a life preserver of the common cork type. The receptacle is closed by a lid which provides a water tight covering. Recent disasters have proved that cork life preservers must not be expos-

ed to the weather or they will soon rot

LIFE PRESERVER.

and lose their efficiency; also, that they must not be packed away on the ceil ings or other remote parts of the boat where they are difficult of access. Both of these conditions are met in the pres ent invention, for the life preservers are kept perfectly dry in the recep tacles and yet are ready for instant use in case of emergency.

But the chair offers still another ad vantage-namely, that whether the life shipwrecked passenger need not worry about the proper adjustment of the life preserver, but may cling to his chair for support. The chair is made in ac cordance with the United States steam boat inspection laws regarding life rafts of this type, so that a steamer bulky life rafts now required. Thus every chair will be a life raft and every stead of uselessly occupying valuable storage space.

Staffordshire, the testing machine there being one of the most powerful in the country and licensed by the board of trade to test chains and anchors of the largest sizes. The sample was first tested to the admiralty proof strain of 189.8 tons, at which strain each link elongated not quite a quarter of an inch. The statutory breaking strain of 265.7 tons was next applied, and the links were further elongated about three-quarters of an inch. After this an attempt was made to test the sample "to destruction," but the full power of the testing machine at 350 tons failed to accomplish this result; indeed, it is understood the actual tension applied was over 370 tons. On a careful examination no sign of fracture or defect of any kind could be found. The strain applied was about 90 per cent above the admiralty proof strain.

Grand Concert

Quincy High Gives a Delightful Entertainment

It was something more than an ordivery successful one from every point. of view. There was a large and appre-

ciative audience. The school was assisted by Mr. Willard Flint, baritone, and Mrs. Jeanie Crocker Follett, soprano, who became very popular with the audie :ce.

The High school chorus made an excellent appearance under the direction of Mr. E. Landis Snyder. They responded quickly to his leadership and sang with spirit, all parts being well taken. The school orchestra shows great ef-

ficiency, and and one find it difficult to

convince himself that it is not an or-

chestra of professional musicians. The

'Elves at play,'' with flute solo by Osborne P. Stearns, was particularly good, and the audience desired an encore. Mrs. Follett's group of three songs so captivated the audience, that they insisted on an encore. She is a great

favorite with Quincy people.

Mr. Flint's work was all that was claimed for it. He has a sonorous voice of much power of pleasing and dramatic quality. There were five songs in his group, but the audience insisted on the repetition of one, and desired more. The ballad of "Fair Ellen," was the climax of the program, the soloists, chorus and orchestra deing grand work. The number required nearly twenty minutes, but there was variety and interest. The closing number "The Gallia" in which the school was assisted by Mrs. Follett was also beauti-

fully rendered. Mrs. Chandler W. Smith and Mr. Ernest L. Mehaffey were the accompanists.

in white gowns, and it was a pretty and inspiring scene.

Liquor Raid At Express Office

Early last evening, Chief of Police Burrell, Lieut. McKay and Officer Olson raided the express wagon, and office of Myett & Fostello's Boston and Quincy express. From the wagon the officers seized two half barrels of ale, one keg of porter, four cases of ale, and one case of beer. At the office they seized ten quarts of whiskey, six cases of ale, and one case of beer. All were seized under the express liquor law. They will appear in court later.

Maravigli-Fabucci.

There was a pretty home wedding at the residence of Mr. and Mrs. Pietro Maravigli, 151 Liberty street, this morning, when their daughter, Miss Giuseppina Maravigii, and Mr. Vincenzo Fabucci of Lynn, were united in the bonds of wedlock by William M. Marden, Esq., in the presence of the immediate family connections. Mr. Gerardo Fabucci, brother of the groom, was best man, and the bridesmaid was Miss Laurina Maravigli, sister of the bride. The bride was costumed in hight gray silk. A wedding lunch was served to the friends of the bridal couple. They will reside at 84 Sagamore street,

MURDER OF WIFE

Charge Against Instructor In German at Harvard

A WARRANT FOR ARREST

Faith Cure Nurse Did Not Follow the Doctors' Instructions--Traces of Arsenic In Woman's Stomach After Death

Cambridge, Mass., April 28.-The Cambridge police last night issued circulars calling for the arrest of Erich Muenter, an instructor in German at Harvard university, who is charged with the murder of his wife in this city about two weeks ago. It is alleged that Mrs. Muenter's death was caused by arsenic. The body was taken to Chicago on April 17, but the case was not made public until last evening.

Muenter was born in Germany. He formerly taught school in Chicago and before coming to Harvard he was an instructor at the University of Kansas in Lawrence, Kan. He is 35 years of age and lived at 107 Oxford street, this city. His wife was formerly Miss Leone K. Krends of Chicago.

The attention of the authorities was called to the case just after the woman's death on April 16. Ten days before that time a child was born to Mrs. Muenter, who was attended by a faithcure doctor and by two nurses holding the same practices. The physician was a Mrs. Nickerson of Winchester. The nurses were both residents of Cambridge, a Miss Case and Miss Derrick.

Some time after the child was born two regular physicians, Drs. Taylor and McIntyre, were called in. Both of these physicians decided that Mrs. Citizens of Quincy : Muenter was suffering from some ailment of the stomach. They prescribed, but later, it is alleged, they ascertained that the nurses were not following directions. Drs. Taylor and McIntyre places in California has appealed to our hearts. then declined to have anything further

On April 16 Mrs. Muenter died. On the same day Muenter applied to Dr. McIntyre for his signature on the cerclined to sign the paper. He decided may be a more general representation. that the case needed investigating and notified Medical Examiner Swam, who, as soon as he received McIntyre's re port, performed an autopsy on the body. The medical examiner sent the stomach to Professor Whitney of the Harvard National Granite Bank. Medical school in Boston. Having National Mt. Wollaston Bank. taken this step, Dr. Swan permitted Quincy Savings Bank. Muenter and the two nurses to take the body to Mrs. Muenter's former home in Chicago for burial. The party left Cambridge April 17 and took along Muenter's two children, Helen, aged 3, and the infant.

Yesterday a report of the analysis of the stomach was received by Medical Examiner Swan from Whitney, who reported that he had found traces of Dixon's Co-operative Store. arsenic. Swan immediately laid the Harlow's Drug Store. case before George A. Sanderson, district attorny for Middlesex county, who in turn notified the Cambridge police. The authorities immediately issued a warrant for Muenter, charging him Arthur W. Loud's Office with the murder of his wife. The Chicago police were notified to hold the man if he could be found in that city Both Copeland's Drug Stores. and arrangements are being made to send out circulars containing a complete description of the instructor.

The report of Whitney caused intense Brown's Drug Store. surprise at Harvard university, where Muenter was appointed instructor in German nearly two years ago. He at no time had acted as professor at Harvard, but received his appointment as instructor temporarily, that is, from year to year. He was serving his second year at the university when his wife He has not resigned, and the opinion is held that when he left for the west he intended to return to take up his work. Since his departure, April 17, his whereabouts have not been known

It was learned last night that Mrs. Muenter was insured for \$1000 in a New York company. The policy is payable to Muenter, but he has not yet col lected the money.

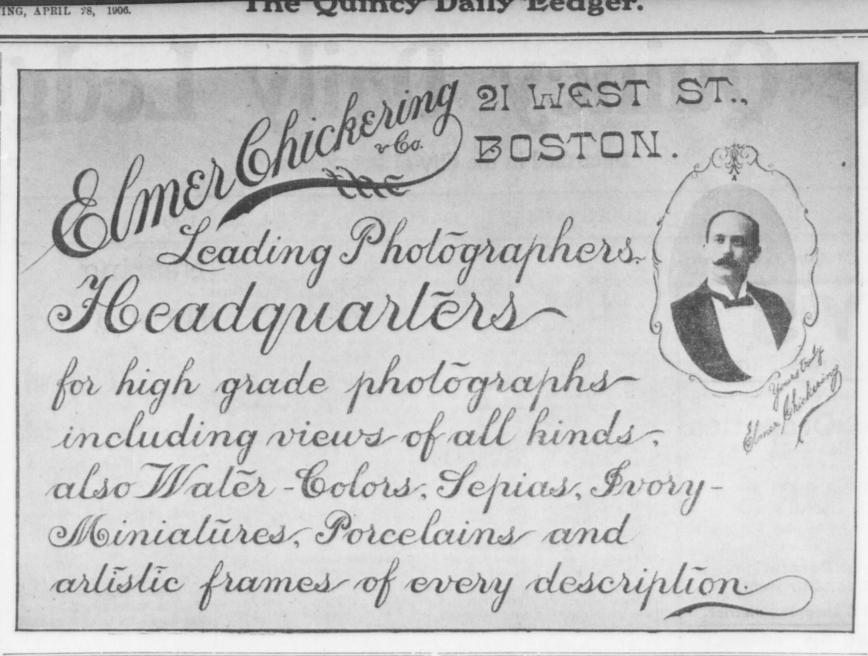

Gave "Absent Treatment"

Winchester, Mass., April 28 .- Mrs. Henry C. Nickerson was the doctor who attended Mrs. Erich Muenter. When asked for information regarding the case, Mrs. Nickerson said, in part:

"I was asked by Mrs. Muenter to take charge of her case last February, and at that time Mr. Muenter was not in favor of my taking charge of the case. Muenter finally allowed me to take the case, at the solicitation of his wife who is a Christian scientist. A child was born April 6. I later learned that liver trouble had developed. I gave the woman considerable treatment. some of it being absent treatment, continuing up to the 14th, when I retired from the case, as Mr. Muenter thought his wife was growing worse and he wanted a physician called in."

Story From Chicago

Chicago, April 28 .- Mrs. Muenter's father, A. Krends, at whose house the funeral was held, does not believe that his daughter was murdered. He said: "When Muenter, accompanied by his two children, arrived in Chicago with my daughter's body, I found that physicians in Cambridge had removed part of the stomach in order to make a chemical examination. My daughter's body was cremated and the ashes buried in Graceland cemetery. Immediately after the funeral, Muenter started for Cambridge, or at least that is the destration had been action he gave me. Since then I hav The Best of Joh Printing at This Office squaw, frequently mentioned in early Squantum history. Near by is also Sachem's Knoll.

Protest to British Government

ger, Swanson and Sullivan.

Washington, April 28.-The state department officials are preparing a protest which will be submitted to Great Britain against the selzure of two American fishing vessels off the coast of Newfoundland. It will be based on the fundamental contention that the local Canadian governments have no right to pass laws which conflict with provisions of the treaty of 1818 between the United States and Great Britain, under which American fishermen are held by the state department to have the right to fish where the American boats were recently seized.

Torpedo In Bale of Rags

Great Barrington, Mass., April 28 .-Two women were badly injured and a panic by the explosion of a large railroad torpedo in the ragroom of the H. D. Rising Paper company's mill at Housatonic. While sorting rags, Miss Lena Cuinen picked up the strange object. In turning to show it the torpedo slipped from her hand and fell on an iron table and exploded. The services of a physician were necessary for several injured in the rush.

One afternoon the rivals met at the MacKenzie manor house and together made a request of Kate that she would decide between them. It happened that the spokesman for the two was the man to be rejected. This ruffled Kate, who resolved that she would make both men show jealousy, and she had already conceived a plan for doing so. She told them that she would decide between them at a ball which marked the close of the hunting force to bear upon the commissioners season to come off in a week from that evening. The mains in San Francisco were not large enough anyhow, and in districts where there should have been hydrants there were none at all or else they were so far apart as to be practically useless. Sullivan constantly pointed out the city's need in that respect. He was an engineer of ability, and, although the fire commissioners liked to be heard on meeting day, they always deferred to the opinions of the chief, recognizing his knowledge of the subject.

The chief made a study of the fire departments of other cities in the United States, and when he found that some city had an improvement which San Francisco's fire department did not have and needed he brought all his to see that they saw matters in the same light as he did.

How weak man is! And still he's great; Nor death nor any other state Can crush him quite, or if it should He lives again and soon makes good What he has lost. The infinite Is in his spirit, and through it He rises smiling, hopeful, brave, who had set them at enmity. She never had a lover again and never was seen at a hunt or a ball. She lived to be an old woman, and to the day of her death she made frequent pilgrim.

He rises smiling, noperul, brave, Superior to any grave.

And San Francisco, stricken town, In earthquake and in fire gone down, Will rise again. The whole world stands with outstretched, willing, able hands. To render all the help it can To crushed but still unconquered man, and he, in darkness and in wreck, In smouldering fires up to his neck, Sends forth the clear, strong hearted

Both these ladies have won a great many friends during their few years' residence in Wollaston and it was a real pleasure to meet another member of their family. A succession of smiling faces, pleasant voices and friendly greetings were sufficient to make a good time, without the delicious refreshments which were served in the diningroom. Miss Hinckley, Mrs. Henry, Mrs. Edgar served, and Mrs. Moorhouse poured the coffee.

Mrs. Edward Chase, Miss Fanny L Johnson, Mrs. Streeter, Mrs. Collyer, Mrs. Rowe, Mrs. Stone, Mrs. Adams, Mrs. Henry Barnes, Mrs. Howard Barnes, Mrs. Richards, Mrs. Emery, Mrs. Harding, Mrs. Frank Coe, Mrs. Huntington, Mrs. Jewell, Miss Turner, Mrs. Bain, Mrs. Burke, Mrs. Seavy, Mrs. Loring, Mrs. Poole, Mrs. Leavitt, Mrs. Ford were a few of the guests.

A number of prominent Boston women with representative women from suburban clubs have recently incorporated as The Workers' Guild. Their purpose is to establish for the benefit of all interested in certain departments of philanthropic exchange, introducing them as seems best, and adding to them as need arises. They are listed as follows, -home-cooking, needle work, and hand crafts of various kinds. Lunch-room, tea-room and rest-room, shopping by mail, women guides for shopping and sight-seeing, chaperons for misses and children, nurse's bureau, readers bureau, advisory bureau, information bureau, day-workers, special sales bureau, hand loom rug-weaving, parcel-room for use of city visitors and excursionists. And open meeting is to be held next Wednesday, May 2d at 3 P. M. Room 63, 501 Washington street, near West street, Boston. Reports will be read, and present and future plans discussed. CRUMBLING WALLS FALL

cape Serious Injury--China-I town Full of Relic Hunters .--Various Citizens' Committees Working In Harmony--Cold Rain Brings Additional Hardships Upon People Sheltered In Temporary Structures--Resumption of Street Car Traffic

San Francisco, April 28.—A trifle less than four square miles was burned over by the fire that followed the earthquake of April 18, according to City Engineer Woodward, who yesterday completed an official map of the burned area.

A strong wind that blew over the city carried to the ground a number of crumbling walls. The walls of a building at Stockton and Sutter streets fell with a terrible crash. A number of pedestrians and a party of men and women in an automobile had difficulty in getting out of the way of the shower of bricks. The outer wall of a building at Market and Geary streets, where was once the Richelieu saloon, fell outward just as hundreds of people from the Oakland ferryboat were wending their way along Market street. Several persons were struck by bricks, but no one was seriously injured.

STREET SCENE AFTER FIRE

Relic hunters are reaping a harvest by digging among the ruins of the Japanese and Chinese bazaars. Hundreds of persons have visited these ruins, where assiduous stirring of ashes yielded profits that are more than worth the labor. Vases of Satsuma and Cloisonne ware, brasses and bronze ornaments that in the days before the fire commanded high prices, are carried away by relic hunters in large numbers. "Six-shooters" of the kind formerly carried by hired assassins of the Chinese quarter are found in great quan-

The waterfront is as busy as ever. From the Pacific Mail dock to Meiggs wharf the docks and wharves look as they did before the fire. The work of customs and quarantine officers has not been interrupted for a day.

Harmony and pledges of good feeling marked the meetings yesterday of the various bodies of citizens' committees and representatives of the army which are administering the affairs of San Francisco.

The last sign of confusion and misunderstanding which at times existed disappeared and the first signs of the return to former conditions were the resumption of street car traffic in certain streets and the taking out of the first permit for the erection of a modern steel structure on the ground occupied

Harmonious Relations

Archbishop Riordan appeared at the meeting of the citizens general committee and counselled harmony between * those who are striving to bring order out of chaos, and predicted a city greater. more beautiful and a more striking example of American pluck and enterprise than the old San Francisco.

Mayor Schmitz replied, saying that harmony already prevailed and that whatever enmity may have been felt in the past was wiped out and the citizens of San Francisco had but one object in tiew, the immediate upbuilding of a new and better municipality.

Mr. Dillman of the water committee reported little improvement in the water supply, but work proceeding rapidly.

Misery Among the Homeless A cold rain fell for several hours Thursday night and yesterday and brought additional hardships upon the people sheltered only by tents and temporary buildings in the parks. To further add to their discomfort, the wind blew a gale from the north all day, scattering dust and ashes everywhere, in some places throwing down the tottering walls of burned buildings. Last night was one of the most uncomfortable since the great fire, and the lack of heat in the tents of the homeless as well as in the houses of the more fortunate brought extreme discomfort.

City and railroad officials and invited guests filled the first street car started on the run across the city yesterday, Mayor Schmitz acting as motorman. Everywhere the sight of the car was greeted with cheers from thousands of pedestrians. A continuous service was re-established later in the day on several of the cross town lines and thousands were carried free of charge.

Wholesalers May Move Away There is fear that this city may lose ts position as the commercial capital

of the west. Wholesalers in large number are settling in Oakland and there is great danger that this settlement may be permanent, those who applied for locations there being reuired to take out leases for five years. Mayor Schmitz says this movement

(Legal Title: City Hospital of Quincy) INCORPORATED 1889

The Trustees of the City Hospital of Quincy earn eatly appeal for donations and bequests for the Endowment fund. This now amounts to over \$60,000 but a fund of at least \$100,000 is urgently needed. Five Thousand Dollars (\$5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need, will be most gratefully received.

The Secretary, TIMOTHY REED, Adams St., Luincy, or the Treasurer, RICHARD D. CHASE, eavines Bank Bullding, Quincy, will be very glad confer with any one or to answer any inquiries.

Young Men's Christian Association OF QUINCY, MASS.

The Directors of the Young Men's Christian Association of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor. The Treasurer, William F. Cummings, 7 Clive Street, Quincy, or the General Secretary, Ernest G. Gay, will be happy to answer inquiries.

The census figures made public this week, which compare the year 1905 with 1895 for the state at large, and with 1900 for some individual cities and groups of cities, show the enormous increase in the amount invested in manufacturing in this state of \$184,000,000 or nearly 24 percent. The total capital invested in 1905 was \$965,948,887; there is an increase of \$37,000,000 in the amount of wages paid working men, or a growth of 19 percent; the increase in the value of stock used is \$127,000,000, or nearly 26 percent, and the increase in the value of goods made is \$216,465,612, or nearly 24 percent. Brockton Expanding Rapidly

The city which shows the greatest growth during the last five years in the

value of factory product is Brockton, where shoe manufacturing is the principal industry. From an output valued at \$24,855,362 in 1900, the output leaped in 1905 to \$37,790,982, a total growth of \$12,935,620, or over 52 percent in five years. 350, or almost 50 percent. It is extremely doubtful if any other section of the country could show any greater growth than these figures indicate. This handsome increase has been secured under Republican administrations, both in the state and nation It has only been under Democratic administrations that the country has not prospered and grown, industrially, commercially and financially.

There are other indications than these that Massachusetts is not only not retrograding, when compared with he could stride with his long legs. other commonwealths, but that it is in many lines expanding very rapidly. In the city of Lawrence the American Woolen company is erecting the largest woolen mill in the world. This factory will employ, when completed, 5000 highly skilled operatives, and its output will be something enormous. In the city of Waltham the American Watch company has bought land and is to build a plant which will be very nearly equal to the size of its present factory and employ about 3000 persons.

These are but isolated instances of a steady, healthy growth in the line of Massachusetts' already great industrial and manufacturing interests.

The Redistricting Problem Here The committee on redistricting the state into councillor and senatorial districts is devoting a great deal of time to the problem before it. Since the last redistricting. 10 years ago, there have been many changes in population in vatious sections of the commonwealth, and it is quite likely that there will be few districts, if any, which will retain their old boundary lines.

This is one of the most difficult prob-

There is no senatorial district in the state which does not possess some member of the house whose eyes are not set upon the senatorial nomination some time in the future trict carved out which would be easy for the individual candidate to control in the nominating convention. Bondsmen Superseded

The personal bondsman is fast becoming obsolete; the risk to private fortune is too great.

The corporate bond is just as rapidly supplanting the old form; and, in time, men will marvel that they were ever called upon to incur the danger of personal suretyship.

In point of safety, convenience and propriety, there can be no comparison between the two; the one is just as weak and perilous as the other is wrong and safe.

Aunt Sally's Conscience

By CLAUDE PAMARES

Copyright, 1906, by Homer Sprague

Never was there a better natured, fore conscientious woman than Aunt Sally Warner, relict of Joab Warner, who departed this life after a fall from the roof of his barn. Aunt Sally had no children of her own, but did have half a dozen nieces and nephews, and among the latter was the rollicking. frolicking Joe Henderson, who was twenty years old at the time the great calamity fell upon the house of Warner. Reference is not made to the fall from the roof of the barn, but to a ealamity that overtook Aunt Sally's

One day nephew Joe, whose parents lived five or six miles away, arrived at Aunt Sally's on an errand. She was about to set out for the village of Rawsonville to do some "trading," and Joe volunteered to go along as driver of old Robbin. Aunt Sally had not been over that road for a month, and she was surprised to see circus pictures pasted up on every barn on the route. Since childhood she had had a fondness for circus pictures, but had been brought up to believe that eternal punishment awaited every one who passed the doors of the circus itself. During his lifetime Joab had discharged various hired men for staying a day off to go to the circus, and he had refused to deal with certain men who had accepted free tickets for the privilege of posting pictures on their barns.

As the good aunt and her nephew jogged along the dusty highway and came to barn after barn decked out in gayest colors of printer's ink Joe heard her sighing. He didn't stop to ask himself whether she was sighing over the death of Uncle Joab or the fact that she couldn't attend a circus promis so much entertainment, but he forth with proceeded to concoct a plan.

If a single person could conspire it would have been called a conspiracy as well as a plan. He made no comment on the barebacked riders, on the womname "ALFRED WRIGHT" or "THEO. en jumping through hoops, on the rhinoceros grazing along the banks of the African river and the hyena sneaking about in the Indian thicket. He just sat still and chuckled, and when he wasn't chuckling he was talking about going to Alaska to dig for gold.

When they reached town and found things in a bustle he had to make some explanations. He explained that an exhibition was to be given that afternoon for the benefit of widows and orphans, but he didn't say too much. While Aunt Sally was making her purchases the merchant might have referred to the "exhibition" and called it by some other name if nephew Joe hadn't given him the wink.

When ten yards of calico, fifteen of sheeting, three towels, one table cloth and thread, pins and needles had been bought Aunt Sally suddenly remembered something and turned to Joe and

"If there is anything going on for the benefit of widows and orphans I ought to be interested, being as I am a widow myself. Is it a spelling bee or anything of that sort?"

"Oh, no. They have got a tent and a collection of wild animals. It's what tion. Did you ever see a live lion or

tiger, Aunt Sally?" "No, I never did."

"Ever see an elephant or a zebra or giraffe?" "No."

"Well, you can see them now and help the widows and orphans the same time. It's 50 cents apiece, but I've got the money for my ticket."

"But I shall pay for both of us," replied Aunt Sally as she handed over a dollar. "When I set out to do anything for the benefit of charity I'm not one to scrimp at it. There won't be any gambling or horse racing, will there?"

"Mercy, no. The bills say there will be nothing to offend the most fas-

tidious. Come on." They had a quarter of a mile to go to reach the tent, and during the walk Aunt Sally was puzzled that so many people should have turned out in the cause of charity. If she had had her glasses on she might have read signs on the gayly painted wagons to arouse suspicion, but she passed into the tent with the innocence of a child of five.

It was the menagerie, and Nephew Joe guided her around and saw that she missed nothing. It was a real treat to the woman, and she felt herself growing a bit reckless under the wave of enthusiasm. She ate peanuts and drank lemonade, and after taking another look at the Bengal tiger which had killed seven men and was anxious to finish off seven more as soon as pos sible she said:

"Joe, this is real nice, and I'm glad we came. What are the folks going into that other tent for?"

"Oh, that's part of the show, you know. There are folks who don't care for them."

"But why can't we see it?" "We can, and it won't cost a cent

more." They went in and found seats, and the circus performance opened. How that it was a circus? It was her fir. attendance, and she had never even had a performance described to her She grinned from the time the clown first appeared, and the hurdle jumping and bareback riding brought "Ohs!" around her was delighted. She bough: boy came along, and when the perform

"Joe, I could go to such a show every day in the week and not see enough. I don't know who got it up for the benefit of the widows and orphans, but I'm telling you he was a mighty sensible feller. If it had been a husking bee he wouldn't have taken in half the money. If you hear of any more shows like it this summer you let me know, EFFECT OF UPHEAVAL IN 1898. and we'll go."

Something really new had come into Aunt Sally's life, and she talked of it all the way home. Joe let her do most of the talking. He was preparing for the impending calamity.

It came within fifteen minutes of their arrival home. Mrs. Bronson, a neighbor, was at the house on an errand, and as soon as Aunt Sally began was out of the bag.

"Do you know what you've done, Aunt Sally Warner?" asked the caller in

In Woo Tung alley, where the headquarters of the famous tongs, or highbinder societies, were situated, the demonstration took another form. The pavement was torn up and in a few minutes a deep hole was excavated in the street. Into this hole valuable goods of all kinds were dumped and even sacks of silver coins were emptied in the hope that the great earth dragon would be persuaded to stay in his un-

derground home. In all the streets throughout the Chinese district thousands of the frenzied orientals could be seen kneeling hour after hour, chanting their prayers at the top of their voices and beating their heads on the pavement. When the police tried to interfere and prevent the building of fires a riot took place, and it was soon seen that any attempt to control the maddened Chinamen would be foolish, so the officers withdrew. The panic in Chinatown continued during the night and part of the next day until, persuaded by the fact that the earth had ceased to tremble, the Celestials put a stop to their

orgies of sacrifice. An amusing scene then took place. The Chinamen who had been eager to destroy their property the night before seemed determined to reclaim their valuables from the evil dragon, and the big hole in Woo Tung alley became the scene of a pitched battle as those who had buried their offerings there fought to regain them. It became necessary to call in a squad of police to settle the disputes.

While these strange scenes were being enacted in Chinatown another panic of a different nature was taking place across the bay in Oakland. The shock was more severe in Oakland than in San Francisco, but fortunately the business houses were deserted, and no lives were lost. A number of buildings were warped and damaged by the upheaval, and they afterward were condemned and torn down.

The earthquake of 1898 was felt from horthern California to southern Mexico. The shock was more severe in the World: south than in San Francisco, and Tehuantepec, a city in Mexico of several thousand inhabitants, was destroyed. The Pacific coast has been so fre-

quently visited by earthquakes that it was deemed unwise until a few years ago to erect tall buildings in San Francisco. It was only with the advent of modern steel construction, which was believed to render tall buildings safe

Already Mr. Gilbreth, who is erecting some of the largest structures on the Pacific coast, preparing to undertake contracts calling for reinforced and monolithic construction which shall be earthquake proof as far as modern methods can make them and absolutely fireproof.

"I am free to predict," said Mr. Gilbreth "that the future San Francisco will be erected almost entirely of concrete. British Mountain Climber Says Cool ing Earth Caused Shock. The cooling of the earth and the subsequent shrinking of the surface, according to Sir Martin Conway, F. R. G. S., the noted British mountain climber, who arrived at New York recently on the Cunarder Campania, caused the

great San Francisco earthquake. "The western mountain range, extending through North and South America, is constantly growing." said Sir Martin. "As the cooling process goes on the earth shrinks, and, like the skin on a drying apple, as the sphere gets smaller the outer covering settles in some places and in others is forced

Why this earthquake happened on the west side of the mountain range and not on the east is, I suppose, because that is the weaker side."

A Lawyer's Earthquake Prophecy. It is always easy to say "I told you so" after a thing has happened, but thirty years ago there lived in San Francisco a lawyer, man of the world, and popular member of the Bohemian Club, and if he is alive today he can with accuracy claim the distinction of predicting the destruction of his city, says the Chicago Post. It was after a slight earthquake shock, and a small party of gentlemen sat in the Bohemian Club discussing earthquakes in general and the California variety in particular-and all for the benefit and instruction of a visitor from the east. The lawyer expressed his unhesitating opinion that eventually San Francisco would be overthrown, if not absolutely wiped out, by an earthquake, and he gave learned reasons for this opinion, many of which have been advanced by the scientists since the recent shock. Other San Franciscans present laughed at him, and jokingly advised him to get out of town at once, whereupon he admitted that while he was perfectly sincere in his views he had no intention of leaving town, even though the destructive shock were scheduled for the following week, as he would "rather die in San Francisco than live anywhere else."-Chicago Evening

Culinary Art Aids Health.

The Russian physiologist Pavlav clearly demonstrated, in his researches Stringer, Arthur. Lonely O'Malley: on digestion, that the ingestion of substances with a purely nutrient value does not sufficiently satisfy the demands of the body. Taste and appetite must also be taken into consideration. These are satisfied only by the addition to the food of spices and salt, and it is largely due to the influence of these condiments that the proper amount of gastric juice is liberated by the mucous membrane of the stomach. The action upon the stomach of reflex stimuli is shown by the favorable effect on the flow of the gastric secretions made by mental impressions induced by the mere sight and odor of a well prepared dish.

In this manner Epplen leads up to the broad claim that the proper preparation of all food, as demanded by the essential requirements of the culinary art, is not a luxury, but a physiological necessity, and to develop and disseminate this knowledge is an act beneficial to the public welfare.-New York Medical Record.

COLONIAL THEATRE.

Miss Olga Nethersole, the distinguished actress, returns to Boston at Colonial theatre on Monday, April 30, to inaugurate a fortnight' engagement. Miss Nethersole has not been seen in that city since 1899, when she appeared she has lived abroad and returns to these shores leeper, broader and more matured; and nvigorated by the hope of again finding favor with the audiences which took her to their hearts on her previous American tours. Miss Nethersole's offering on Monday, Tuesday as Wednesday evenings, and at the special Wednes lay matinee, will be "The Labyrinth," an daptation made by Prof. W. L. Courtney of Oxford University, from Paul Hervien' Comedie-Francaise success, "Le Dedale, which when produced in Paris, aroused a furor of discussion throughout all France. The remaining performances of the first week will be devoted to presentations of "Sapho," in all probability Miss Nethersole's best known role, her "Fanny Le Grand " being bound to stand as her most notable characterization.

CASTLE SQUARE THEATRE.

The return of Howell Hansel to the Castle Square stock company this week has been the occasion of a series of ovations at each and every performance of "Soldiers of Fortune. 68 87 Mr. Hansel whose popularity is unbounded, is proving again his great ability, and his return for the rest of the season is proving the wisdom of the Castle Square management in recalling him to the position, he so ably filled through the whole of last season. For next week, "The Adventure of Lady Ursula" is announced. This is one of the most successful of Anthony Hope's plays, and it vies in ingenuity and popularity j 481 56 with "The Prisoner of Zenda" and "Rupert o Hentzau."

BOSON THEATRE.

As a climax to the theatrical offerings of the season in Boston, Manager Lawrence McCarty, n co-operation with Thompson & Dundy, will next Monday night present at the Boston theatre the first of the great New York Hippodrome shows, " Yankee Circus on Mars." Then, for a limited engagement, this stupendou 503 129 attraction, which is in reality a combination of spectacle, circus, pantomime, drama, musical offers about everything conceivable in the way of a twentieth century entertainment, will be on view at the big New England playhouse every afternoon and evening. Last Monday morning the seat sale pened at the box office of the Boston theatre, 209 39 and ever since then there has been a very brisk demand. That " A Yankee Circus on Mars ' will astound the average playgoer is a lorego 465 11 conclusion. It will be the biggest stage spectacle ever brought to New England and will employ an army of entertainers. In order to accommodate this ag regation and the mas-ive production itself, extensive alterations have been undertaken on the Bo-ton theatre stage, which with the exception of the Auditorium in Chicago and the Grand Opera house in Phila-250 78 delphia, not to meation the New York Hippo drome itself, is the only one in this country big 364 42 enough for the undertaking.

Letter from Joseph Walker

San Francisco, Calif... April 22, 1906.

Dear Friends: I have just got settled down after our shake up and fire, so as to write you and let you know that we are all safe, so far as our lives are concerned. But I have lost my shop and house. Myself and Susie are living with Jane in the Mission. The fire did not reach them, altho we moved out of their place as we thought at one time that it would go. We moved back as soon as the danger was past. But it kept us busy moving for three day.

It was a very severe shock. It happened 10 minutes past five in the morn ing and the trouble was it burst the water mains so we could not get a drop of water to fight the fire with.

A great many houses fell with the shock and fire started in 5 or 6 places Quincy Point was sent over. The fire at once and all they had for the first however was getting dangerously near day was dynamite to check it, and that did little good. It burned nearly two miles back against the wind. The second day they were able to get a little water pumped from the bay, but they could not get much force to it having ing the fire toward the bay at all the nearer points, so they could not get hose laid. It was a great sight, one I hope never to see again.

> They estimate that 400,000 are out of homes, and it is a picture to see all the tents and camps of every kind lining the outskirts of the city. We are all under martial law, and are getting all and he anticipates no delay in getting to drink, and in a few days the water system will be all right again.

There are no real hardships. Mayor and the militia are working in full accord. They took possession of every store left in the city and took everything to headquarters, and are sary by the fact that some of those of sending them around free of charge. house at Johnson & Anderson's quarry Nothing in the line of food is sold. Coughlin of Braintree was arrested the common brotherhood of man better than a disaster of this kind. We in turn seem hopeful and are going to start started to walk home. He said that to rebuild just as soon as the authorities give permission.

We are having fine weather which helps greatly to allay suffering. They are even taking our letters without stamps as nobody has any.

Unfortunate Tramp.

There was quite a little excitement in the district court room this morning caused by one of the prisoners falling in a fit. The man was James E. McCabe of Weymouth who was in court for being a tramp. McCabe pleaded with the court to let him off but the evidence was too strong, and he was sentenced to six months in jail.

He was put in the cage to wait until time to start for Dedham. Suddenly there was a sound of some one falling in the cage. Officers hurriedly opened the door and McCabe was discovered on Disbrow of Boston. If this is true Mr. floor writhing in agony. Dr. Hallowell, who was in the court room, was summoned, and the man was taken to the corridor, where he later revived. At noon Hall's ambualance was summoned and he was taken in it to Dedham jail.

Busy Day for the Knights.

Quincy council, Knights of Columbus,

attended holy communion in a body on Sunday morning at 8.45 at St. John's church. Mass was celebrated by Rev. Julian E. Johnstone, who also preached a special sermon. After the church service the council had breakfast at The Greenleaf. In the afternoon they Fairy Soap, conferred the second degree upon twelve candidates. Addresses were made by Sunny Monday Soap, 6 bars for 25c Grand Knight, Moses H. McGauhey of Vera Cruz council of Randolph and Maurice O'Brien of Lawrence council.

There has been a good advance sale for the spring concert of the Wollaston Glee Club on Wednesday evening, the net proceeds of which will be given to the Quincy relief fund for Califonia. Leon Van Vliet, the tenor who will assist the club, is on the program for two double numbers. Miss M. Blanche Townsend, the reader and whistler, will give three numbers.

The Assessors Start Tomorrow

The Assessors will begin their yearly cound tomorrow. This year they will mmence their labors in Ward Two, the Quincy Point ward.

Principal Assessor Johnson says there is only one new law in relation to assessing this year. That is the law passed this year which requires them to make their return of corporation tax to the State on July 1, instead of August 1, as in former years. The papers have already been sent to the corporations these returns.

'The assistant assessors also start out bright and early Tuesday morning. They will collect the number of polls, houses, horses, cows, etc. There is some change in the list of

assistant assessors this year made neceslast year now hold positions under the city government The list of assistant assessors as anounced by Mayor Thompson, April 16 are: Ward One, George K. Moorehead;

A large delegation of the Sons and Daughters of St. George attended Christ church on Sunday evening. This meeting is an annual custom of the order which has been maintained for many years, and it is most appropriate that an order of English men and women should annually attend the service of the English church in this country. The rector, Rev. W. E. Gardner gave them a very hearty welcome and a cordial invitation to attend all services. He also preached a special sermon and the music was by the vested choir.

AN ETERNAL WAIT

No Mighty Being Will Come to Achieve Our Salvation

JESUS NEEDS [OUR HELP

Variations In Apostles' Epistles Due to Growth of Tradition According to Dr. Crapsey--End of Heresy Trial

Ithaca, N. Y., April 30.-Rev. Algernon S. Crapsey of Rochester preached two sermons yesterday in Sage chapel of Cornell university. In his morning sermon Dr. Crapsey said:

"If we wait for some far-off saviour, if we wait for a curtain of blue to open and for some mighty being to come and achieve our salvation, we shall wait forever. The day will never come. It is not necessary. It is a degrading idea that perfection exists, the like of which we cannot attain, albeit it predicated on one hanging on a cross. Jesus, call Him what you please, divine, was yet one of us and needs us almost as much as we need Him. We help saints and prophets of old to achieve perfection by our kind words, our noble deeds and our tender thoughts. You cannot put on the righteousness of Christ like a garment over your own unrighteous- day. ness. The cross is a small price to pay to attain perfection, even as Our Father is perfect."

These remarks were made in elucidating a text from Eleventh Hebrews, 39-40, which Dr. Crapsey attributes to an "unknown writer, possibly a woman." Dr. Crapsey declared that the object

of God is to achieve a perfect universe The means to this end is a sacrifice of of innocence to the sobriety of sanctity, of the lower to the higher. The power to make sacrifices comes not from above, but from resident forces of man. Dr. Crapsey traced the growth of Jesus from infancy to divinity, attributing his spiritual growth to sacrifice.

In his afternoon sermon Dr. Crapsey pointed out variations in the narratives of Mark, Matthew, Luke and John concerning the resurrection, and ascribed the variations to growth of translated it into physical terms. Dr. Crapsey explained the psychological condition of Peter which made him capable of feeling the presence of crucified Christ. He characterized the resurrection as a narrative, not history as Wednesday afternoon. we know history, but as an occurrence which happened in the mysterious region of the soul. In the most authentic account, that of Paul, he said, no refer-

RAID BY BURGLARS

Got but Little Plunder and Dropped Roll of Bills

Milford, Mass., April 30 .- A band of burglars visited this section Saturday night and committed several breaks, but did not secure very much plunder The furniture and crockery store of Avery Woodbury, one of the largest stores in this section, was entered and a small amount of money taken from the cash drawer. The burglars evident ly endeavored to carry away some o the more valuable pieces of crockery, but became frightened and fled.

Three breaks were effected in the village of Caryville, five miles from here. The railroad station, the postof fice and the general store of G. B. Stowe were entered. Small amounts of money were taken from the station and the postoffice. Stowe's house is but a short distance from the store and is connected by an electric burglar alarm. Upon looking out of the window he saw two men running away from the store. He fired two shots at them, but believes that neither bullet took effect. The burglars secured nothing at the store, but one of them in his flight dropped a small roll of bills. Balloonists' Successful Trip

IS AGAIN IN ZION CITY

His Wife, Who "Has Some Noble Qualities," Goes Over to His Side--Voliva Wants the Dowie Family "Swept Off the Earth"

Chicago, April 30 .- Standing un steadily, and with great effort, before an audience of 2500 persons in Zion tabernacle yesterday afternoon, John A. Dowie charged his traducers, if any were present, to make their accusation before the whole congregation.

The followers of Voliva, the new lead er in Zion City's affairs, however, were at that moment attending a rival meet ing at the Zion college building. There 5000 of the city's inhabitants were gathered with the Zion choir, band and orchestra.

Those who listened to the words of Dowle were for the most part visitors brought in by electric cars and railroad trains. In front of the platform and in ascent from this city landed safely near the choir loft were probably 150 faithful Dowleites. Dowie was borne bodily by two stalwart negro attendants from an ante-room to the platform and deposited upon his feet before the altar. He was attired in a new apos pattern, embroidered in purple and gold. He delivered his address seated before the altar. Only occasionally when roused to an unusual pitch of earnestness, did he rise.

Mrs. Dowie, who has severed her allegiance with Voliva, sat among Dowie's followers in the congregation. Except for former Mayor Harper, Dowie was alone on the platform. He preagainst him by Voliva and others. "They say I've taken the people's

money; do you believe it?" he asked. Answers of "yes" and "no" came from different parts of the audience. A man who said yes was singled out by Dowie. Pointing a trembling finger at the man what money I took and when." compel the man to stand, but he stood ent who had anything to charge against

WORK OF RELIEF

City Without Money For Recon-States to Endorse Proposed bonds. Bonds of San Francisco to Enable Her to Borrow Money In Markets of the World--Number of People Without Substantial Shelter Reduced to Minimum -- Only \$300,000 of Money Appropriated by Congress Is Available In Cash

San Francisco, April 30 .- Although yesterday was the second Sabbath since the earthquake and fire of April 18, it was the first day of rest that San Fran cisco has experienced since the cata clysm and conflagration wiped out half of the city and made 200,000 person homeless campers in parks or recipients of charity under the roofs of friends.

The loss of some 300 lives and the devastation of almost four square miles of the best part of San Francisco have now been written in history and now everyone is confident of rapid progress in the rebuilding of the greater and better San Francisco.

All possible work of a municipal char acter was suspended yesterday and the tired officers took advantage of the iull to secure greatly needed rest and to pay some attention to pressing personal

With the advent of the Sabbath came an opportunity to review the tre mendous accomplishments to provide remedies for defects in the task of judiciously caring for all classes of destitute, irrespective of race or creed Probably the most important development of the day was the promulgation General Greely of his plan for the istribution of relief supplies. Reports of theft, deception, misappropriation waste and extravagance have been con stantly received since provisions and clothing began pouring in to succor the afflicted, and it is now believed that people. misuse of supplies will hereafter be im-

According to the plan of Greely, the unburned part of the city will be divided into seven districts, in charge of army officers, who will assume control of all the relief stations now established. Responsible civilians will be installed, under salary, at the sub-stations for clerical work, and daily rec ords and checks will be kept. As the pe riod of extreme distress has passed, the issuance of rations will at the earliest possible moment be confined to helples women and children and refused to able men. Luxuries will be confined to infants and invalids. In each of the seven districts there will be 100 stations. The Particular attention to difficult piano moving amount of food to be allowed each person, with latitude for certain condimeasure, is based on the army ration.

At a meeting of Chairman Phelan of the finance committee and some prominent lawyers and bankers, a plan was broached for financing the city, which it is hoped will meet with the endorsement of the general committee. As it is conducted by the English-speaking peo estimated that the city has suffered a loss of \$200,000,000 by fire, it is said that there is not sufficient money in San Francisco to reconstruct the city and that the people must look elsewhere for

Oct. 25. this guarantee of the government, the city would be able to go into the financial markets of the world and borrow the needed money at a low rate of interest on bonds to run for 50 years and secured by a mortgage on the best portion of the city. It was by such measures that the Central Pacific and the Union Pacific railroads were built; and more recently, by like legislation, railways in the Philippines became assured

to the people of the islands. Surprise was caused when Phelan announced to the citizens' committee that he had been given to understand by Secretary of Commerce Metcalf, representative of President Roosevelt, that only \$300,000 of the \$2,500,000 appropriated by congress for the relief of San Francisco was available, and that this sum represented the extent of financial assistance that might be expected from

The Nation's Appropriation

Washington, April 30 .- Commenting on dispatches from San Francisco expressing the surprise of the citizens committee that only \$300,000 of the re lief fund of \$2,500,000 appropriated by congress is still available for relief work, Acting Secretary Oliver of the war department pointed out that the money, according to the resolutions of congress, was to be expended by the war department; was to reimburse that department for the, rations, tents blankets, etc., belonging to the army which were rushed to San Francisco and also to purchase other relief stores The appropriation was allotted among the various supply bureaus of the army certain amounts going to the commis sary bureau, the quartermaster's bu reau and the signal corps, the money al lotted to the latter being for the pur pose of restoring telephone and tele graph communication, etc.

Two More Regiments For 'Frisco Washington, April 30 .- Only two regiments of troops, comprising in all about 1350 men, will be sent to San-Francisco to reinforce those now there instead of the 2500 men, as originally proposed by General Greely and sand tioned by the war department. A tele gram asking that only the reduced number be sent was received at the war department and orders to that effect were promptly issued.

The war department officials decline to discuss the reasons for Greely's re quest, but the impression given is that it is probably due to a wish of the citizens' committee of San Francisco not to have the government incur the expense due to their transportation, so that the money may be available for relief work instead. The transportation charge for the men probably would have aggregated more than \$100,000, which can be spent in buying rations and other necessities for the stricken

In playing Pitcher Klobedanz in the opening game at Lowell, the New Bedford club committed a grave breach of will render all instrumental numbers and baseball law, as it was well aware that Klobedanz was among those suspended by organized baseball last season as having jumped contracts and later played with independent teams, refusing to return when given 10 days' re-

Attack on Union Miners

Johnstown, Pa., April 30.-A conflict occurred between union and non-union miners at a mine of the Berwind-White Coal company about midnight. The union men were attacked by a mob of foreigners, and a number of shots were fired. One foreigner was fatally wounded and three others were in jured, but not seriously. When the sheriff and 21 members of the state constabulary arrived at the scene the rioters had dispersed and all was quiet.

Bryan In Jerusalem Tabernacle Jerusalem, April 30.-William J. Bryan, who is visiting Jerusalem in the course of his tour of the world, addressed a special meeting held in the tabernacle by the Christian Missionary alliance. He spoke for 70 minutes on the life of Christ and his teachings and expressed astonishment at the small proportion of Christians in America and Europe visiting Bibleland.

Torture of Little Ones

Chicago, April 30.-Charged with torturing their two children, 4 and 6 years old, with hot iron pokers, Michael Janoszek and his wife were held in bonds of \$10,000 each. The children with their bodies bruised and burned, were taken into court, where several neighbors testified to the brutality of the parents.

NEWS IN BRIEF

The body of John Doyle, a seaman at the naval training station, Newport, R. I., who disappeared from the hospital where he was under treatment for the measles, was found floating in the bay near the station. It is thought that he wandered from his room while asleep and fell into the bay. The Boston Herald has moved from

the building it had occupied for more than 25 years in Newspaper Row. It is now issued from the paper's new home on Tremont, Mason and Avery streets nearly half a mile from any other newspaper office. Louis Bousquet, an employe of the

Consolidated Lighting company, fell across a live wire while at work in the company's plant at Montpelier, Vt., and was instantly killed. A current of 12,000 volts passed through his body. At the 14th annual convention of the Massachusetts State Letter Carriers association, J. J. Dowd of Worcester was elected president.

Judge William W. Carruth, a descendant of General Artemas Ward of Revolutionary fame, died at his home at Plymouth, Mass., of heart failure, aged 67 years. Carruth became captain of the Sixth Massachusetts battery, known as "Carruth's battery," during the Civil war. There are 38 cases of diphtheria at

HOW MINT WAS SAVED

Devoted Band Fought Flames For Seven Hours.

STRUGGLED IN FLOODS OF ACID

Men Were Driven Below, but When the Flames Subsided They Returned to the Roof-Employees and Soldiers Near Death While Saving Over \$100,000,000.

Saving of the United States mint at Saving of the United States mint at San Francisco, which is the marvel of all who know how the fire raged about it, goes to the credit of forty brave where to distribute our samples; \$18.00 weekly, steady position. "Manager Polk," 4 Wells April 30.1: mint employees and a company of coast artillerymen, says a special dispatch to the New York Press. The mint, alone of all the buildings in its district, was spared destruction, and it now stands alone in a district of black ruin. It is damaged, but in its treasure vaults its one hundred millions of specie lie safe.

The mint did not merely escape burnng. It was saved at the risk of life itself by the corps of defenders, for they were for hours surrounded on all sides by fire so widespreading that not a man could have escaped alive if the mint, too, had burned. With flames that often shot 200 feet pressing on all four sides and frequently sweeping clear over the building, the men fought in floods of sulphuric acid to. as one put it, "snatch the building safe rom the jaws of hell."

More than \$100,000,000 in coin and specie are stored in the vaults of the mint, and for the preservation of this prize the guards fought for seven hours continuously a sea of fire surging around the mint all the time and the garrison cut off from retreat for hours at a time.

Harold French, an employee of the mint, recently gave a graphic account of how the flames were successfully fought off from the old granite build ing at Fifth and Mission streets.

"After the fire had swept past the Mission street side and the certainty of its returning from the north becan apparent, Captain of the Watch Laws ordered everything on the roof that would burn thrown into the yard. Sol diers and mint employees worked with utmost haste, throwing great timbers and tank staves into the court. Here were thirty tanks of blue vitriol, the surfaces of which were soon covered with debris, into which increasing showers of cinders fell. Fortunately the mint possesses a good well, and Brady, the engineer, pumped water to the fire fighters assembled on the roof

"As the fire swept up Fifth street the heat increased to a dangerous de gree as one by one the Metropolita hall and the historic Lincoln school burst into flames, reinforced by the roaring furnace of the Emporium. On the west the block bounded by Sixth and Market streets on the north gave ter the fire was certain to rage in its

mer Fire Chief Kennedy of Oakland were driven from between the tottering chimneys, where the determine men had been throwing buckets of water upon the blazing roof over the gold refinery, which was on top of the cop per roof of the mint. It is largely due to the experience of former Chief Kennedy that the tar covered roof, the weakest spot of all, was saturated with sufficient water to stay the flames.

"When the fire leaped Mint avenu in solid masses of flame the refinery men stuck to their windows as long as the glass remained in the frames. Sev enty-five feet of a one inch hose played a slender stream on the blazing window sills, while the floor was awash with diluted sulphuric acid.

"Ankle deep in this soldiers and employees stuck to the floor until the win dows shattered and the inner wall began to burn. Blinding and suffocating smoke forced them to abandon the hose and retreat to the floor below Down in the treasure vaults artillerymen, ringed with blanket rolls and leaning on their rifles, coughed in the strangling smoke. Then came a lull; the walls of a dozen brick buildings across the street had fallen in. There was yet a fighting chance, so back to the upper story the firefighters returned led by Superintendent Leach, who, by example and words, encouraged his men to extinguish the blazing inner woodwork of the refinery.

"The roof was next swept by a hose, ooling the copper sheathed surface until it became passable for wet, acid price, Apply to soaked feet. An army officer, ax in hand, tore up sections of blazing tar roof, beneath which a stream of water was directed. At length, as dawn drew near, the mint was pronounced out of danger. "The mint presents a scorched and

glassless front on the north and west, and the towering smokestacks are to be torn down, but the building is intact and the plant is unharmed and ready for a resumption of work."

How Earthquake Aided a Farmer. As a result of the earthquake Steven Davis, a farmer of Columbus, Ind., has an artesian well spouting thirty feet high on his place, says a Columbus special dispatch to the Chicago Record-Herald. The well had been drilled 300 feet without getting a flow of water up to quitting work Tuesday even ing, April 17. Next morning, after the earthquake, the well was spouting and South Terminal Station News Stand has continued so since
